

future organizational development, partnerships, and collaborations to support the implementation of the *National Strategy for Suicide Prevention* (NSSP).

This 1-year funding supports the SPRC and the goals and objectives of the Action Alliance by providing the infrastructure supports to update and advance the NSSP. This will further support national investment in prevention and public health.

Since 2002, the SPRC has provided prevention support, training, and resources to assist organizations and individuals to develop suicide prevention programs, interventions, and policies, to further the work of the Action Alliance and to advance the NSSP. The Action Alliance was launched in September 2010 by Secretary Kathleen Sebelius and Secretary Robert Gates as an innovative public private partnership established to improve public and professional awareness of suicide as a preventable public health problem and to enhance the capacities and capabilities of communities to promote prevention and resilience.

Funding for the SPRC and for this program supplement are components of the Garrett Lee Smith Memorial Act, most recently included in the 2008 Omnibus Appropriations Act. Congress authorized funding for only one Suicide Prevention Resource Center; therefore the program supplement must be awarded to the grantee that manages the SPRC, specifically to Education Development Center, Inc., Newton, Massachusetts. There are no other sources with the available resources and expertise to successfully complete the tasks of this proposal. Further, it would be both inefficient and wasteful to fund a second technical assistance provider for the same group of grantees.

Substance Abuse and Mental Health Services Administration

Fiscal Year (FY) 2011 Funding Opportunity

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice of Intent to Award a Single Source Grant to Link2Health Solutions, Inc.

SUMMARY: This notice is to inform the public that the Substance Abuse and Mental Health Services Administration (SAMHSA) intends to award approximately \$1,705,000 (total costs) for up to one year to Link2Health Solutions, Inc. This is not a formal request for applications. Assistance will be provided only to Link2Health Solutions, Inc based on the receipt of a satisfactory application that is approved by an independent review group.

Funding Opportunity Title: SM-11-003.

Catalog of Federal Domestic Assistance (CFDA) Number: 93.243.

Authority: Section 520(A) of the Public Health Service Act, as amended.

Justification: Only an application from Link2Health Solutions will be considered for funding under this announcement. One-year funding has become available to assist SAMHSA in responding to the growing and pressing need to provide resources for individuals stressed by the nation's current economic crisis. It is considered most cost-effective and efficient to supplement the existing grantee for the National Suicide Prevention Lifeline and to build on the existing capacity and infrastructure within its network of crisis centers.

Link2Health Solutions is in the unique position to carry out the activities of this grant announcement because it is the current recipient of SAMHSA's cooperative agreement to manage the National Suicide Prevention Lifeline. As such, Link2Health Solutions has been maintaining the network communications system and has an existing relationship with the networked crisis centers.

The crisis centers that comprise the National Suicide Prevention Lifeline are a critical part of the nation's mental health safety net. Many crisis centers are experiencing significant increases in calls. The National Suicide Prevention Lifeline crisis centers require assistance to continue to play their critical role in providing support as well as emergency services to suicidal callers during these

challenging economic times. In addition, the National Suicide Prevention Lifeline crisis centers are community resources that need to be utilized to reach out to those in their communities most at risk, including those currently impacted severely by the economy.
