Background: As requested by USTR, the Commission will conduct an investigation and prepare a report that provides an overview of the U.S. remanufactured goods industries and markets, estimates U.S. and global trade in remanufactured goods to the extent possible, and examines factors affecting trends in remanufactured goods trade. The Commission's report will focus on remanufacturing-intensive sectors in the U.S. economy that account for the majority of remanufacturing activity in the United States. For the purpose of its analysis, the Commission will define remanufactured goods as non-agricultural goods that are entirely or partially comprised of parts that (i) Have been obtained from the disassembly of used goods; and (ii) have been processed, cleaned, inspected, and tested to the extent necessary to ensure they have been restored to original working condition or better; and for which the remanufacturer has issued a warranty. The Commission will base its report on a review of available data and other information, including the collection of primary data through a survey of enterprises engaged in remanufacturing. The report will cover the period 2009–11, and to the extent practicable will estimate and describe the following:

- The size and scope of remanufacturing in the United States, including principal producers, levels of employment, investment, and sales (including in the domestic market and exports);
- The U.S. market for remanufactured goods, including the goods supplied by domestic producers;

- U.S. exports of remanufactured goods, including by primary export sector and leading export destinations. The report will also compare U.S. exports of remanufactured goods to free trade agreement (FTA) partners with exports to non-FTA partners. To the extent possible, the report will also include information on the level of U.S. imports of remanufactured goods as well as the level of imports of "cores" (used goods acting as the primary component input(s)) and the principal sources for these products; and

- The factors affecting sales, trade, and investment in U.S. remanufactured goods, including a discussion of recent trends.

To the extent possible, the report will also include the following:

- An assessment of foreign direct investment (FDI) in U.S. remanufacturing, including associated employment and the extent to which foreign firms have invested in U.S. enterprises producing remanufactured goods;
- An overview of outward FDI in remanufacturing by leading U.S.-based firms, including their major markets;
- An analysis of trade by foreign remanufacturers invested in the United States, include trade in "cores"; and
- An overview of the global markets for remanufactured goods and enterprises engaged in remanufacturing.

The USTR asked that the Commission deliver its report no later than October 28, 2012.

Public Hearing: A public hearing in connection with this investigation will be held at the U.S. International Trade Commission Building, 500 E Street, SW., Washington, DC, beginning at 9:30 a.m. on Tuesday, February 28, 2012. Requests to appear at the public hearing should be filed with the Secretary, no later than 5:15 p.m., January 31, 2012, in accordance with the requirements in the "Submissions" section below.
