

and inadequate responses in educational settings, limiting their educational and social success.

To address these issues, the Tourette Syndrome Association has developed educational workshops and materials to improve the recognition and awareness of TS diagnosis, treatment, co-occurring conditions, and quality of life for those impacted by TS. Health education programs have been developed for 3 groups of audiences: Health professionals, education professionals, and people with TS and their families.

The format includes general education programs for the 3 groups, as well as two more in-depth medical training programs for physicians on TS and on the Comprehensive Behavioral Intervention for Tics (CBIT) treatment. In addition, a range of professional health education materials in various formats have been developed as educational resources and will be disseminated.

CDC requests OMB approval to collect program evaluation information from workshop participants and recipients of

educational materials over a three-year period. Participants of the workshops and recipients of educational resources will be completing program evaluation forms to provide information on whether the workshop or resource met the educational goals. The information will be used to improve future workshops.

There are no costs to respondents other than their time. The total estimated annual burden hours are 277.

Title: ACF-535 LIHEAP Quarterly Allocation Estimates.

OMB No.: 0970-0037.

Description: The LIHEAP Quarterly Allocation Estimates, ACF Form-535 is a one-page form that is sent to 50 State grantees and to the District of Columbia. It is also sent to Tribal Government grantees that receive over \$1 million annually for the Low Income Home Energy Assistance Program (LIHEAP). Grantees are asked to complete and submit the form in the 4th quarter of each year. The data collected on the form are grantees estimates of obligations they expect to make each quarter for the upcoming fiscal year for the LIHEAP program. This is the only method used to request anticipated distributions of the grantees LIHEAP

funds. The information is used to develop apportionment requests to OMB and to make grant awards based on grantees anticipated needs. Information collected on this form is not available through any other Federal source. Submission of the form is voluntary.

Respondents: State Governments.
