SUPPLEMENTARY INFORMATION: *Title:* National Childhood Injury and Occupational Injury Survey of Farm Operators.

OMB Control Number: 0535-0235.

Expiration Date of Approval: 12/31/2011.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The National Childhood Injury and Adult Occupational Injury Survey of Farm Operators is designed to: (1) Provide estimates of childhood nonfatal injury incidence and description of injury occurring to children less than 20 years of age who reside, work, or visit farms and (2) describe the occupational injury experience of farm operators. These surveys are being conducted as part of a cooperative agreement between the Center for Disease Control (CDC) and the National Agricultural Statistics Service (NASS). In 2012 the survey will concentrate on farm operations that have access to all terrain vehicles (ATVs) and any injuries associated with these vehicles. In 2013 NASS will not be conducting an injury survey, since we will be concentrating on the Census of Agriculture survey (OMB # 0535-0226). In 2014 NASS plans to conduct the General Adult and Child Injury Survey.

DATA COLLECTION FOR THE THREE YEAR APPROVAL PERIOD

Survey targeted group	Reference year	Survey year	Sample size
Farm Operators with ATVs	2011	2012	25,000
No Survey Conducted this Year	2012	2013	0
General Adult and Child Injury Survey	2013	2014	100,000

Data will be collected by telephone from all 50 states. Questions will relate to on farm injuries occurring during the reference calendar year. These data will update and enhance existing data series used by the National Institute of Occupational Safety and Health (NIOSH) to: (1) Establish a measure of the number and rate of childhood injuries associated with farming operations and study the specific types of injuries sustained and (2) describe the scope and magnitude of occupational injuries associated with farming operations. The collection combines the youth and occupational injury studies to reduce the number of contacts on the targeted farm population. Reports will be generated and information disseminated to all interested parties concerning the findings from this study.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Public Law 104-13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Reporting burden for this collection of information is estimated to average 12 minutes per response; screen-outs will be allowed early in the interview process if no injuries were incurred in the reference year. Burden is based on a minimum response rate of 80%. NASS will be utilizing several pieces of publicity and informational materials to encourage respondents to participate in this important survey.

Respondents: Farm Operators.
Estimated Annual Number of Respondents: 42,000.

Estimated Total Annual Burden on Respondents: 12,800 hours.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS—OMB Clearance Officer, at (202) 690-2388 or at ombofficer@nass.usda.gov.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods. DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.
Title: 2008 Panel of the Survey of Income & Program Participation, Wave 11 Topical Module.

OMB Control Number: 0607-0944.
Form Number(s): SIPP-281105(L) Director's Letter; SIPP/CAPI Automated Instrument; SIPP28003 Reminder Card.

Type of Request: Revision of a currently approved collection.

Burden Hours: 143,303.
Number of Respondents: 94,500.

Average Hours Per Response: 30 minutes.

Needs and Uses: The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) to conduct a topical module during the Wave 11 interview for the 2008 Panel of the Survey of Income and Program Participation (SIPP). The core SIPP and reinterview instruments were cleared under Authorization No. 0607-0944.

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single and unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983, permitting levels of economic well-being and changes in these levels to be measured over time.

The survey is molded around a central "core" of labor force and income questions that remain fixed throughout the life of a panel. The core is supplemented with questions designed to answer specific needs, such as estimating eligibility for government programs, examining pension and health care coverage, and analyzing individual net worth. These supplemental questions are included with the core and are referred to as "topical modules."

The topical module planned for the 2008 Panel Wave 11 is Retirement and Pension Plan Coverage. This topical module was previously conducted in the SIPP 2004 Panel Wave 7 and the SIPP 2008 Panel Wave 3 instruments. Wave 11 interviews will be conducted from January 1, 2012 through April 30, 2012.

No topical modules are planned for Waves 12 through 17 of the 2008 Panel. We plan to continue fielding the core and reinterview instruments through
