Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed on or before 5 p.m. Eastern time on the specified comment date. Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: July 19, 2011.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9445-4; Permit No. AKG-33-000]

Proposed Reissuance of a General NPDES Permit for Facilities Related to Oil and Gas Extraction

AGENCY: Environmental Protection Agency.

ACTION: Proposed reissuance of a general permit.

SUMMARY: On January 2, 2009, the general permit (GP) regulating activities related to the extraction of oil and gas on the North Slope of the Brooks Range in the state of Alaska expired. This proposed reissuance of a general permit, AKG-33-0000, is intended to regulate activities related to the extraction of oil and gas on the North Slope of the Brooks Range in the state of Alaska plus the proposed area expansion described in the Fact Sheet including activities along the Trans Alaskan Pipeline corridor previously covered by Alyeska Pipeline Services, Inc.'s NPDES permit, AK-005056-3. The draft general permit would cover the same discharges as the previous general permit except for domestic wastewater discharges. The covered discharges include gravel pit dewatering, construction dewatering, hydrostatic test water, mobile spill response, and storm water from industrial activities. The proposed reissuance also includes a new outfall designation for the discharge of secondary containment water. When issued, the proposed permit will establish effluent limitations, standards, prohibitions and other conditions on discharges from covered facilities. These conditions are based on existing national effluent guidelines, the state of Alaska's Water Quality Standards and material contained in the administrative record. A description of the basis for the conditions and requirements of the draft general permit is given in the Fact Sheet. This is also notice of the Clean Water Act § 401 draft Certification provided by the state of Alaska and the termination of administrative extensions as described in the Fact Sheet.

The reissuance of this general permit was previously public noticed on July 2, 2009. EPA has changed some permit conditions in this proposal based on the comments received in 2009.

DATES: Interested persons may submit comments on the proposed reissuance of the general permit to EPA, Region 10 at the address below. Comments must be postmarked by September 15, 2011. EPA received many comments on the previous proposal and attempted to

address some of these in the re-proposal so please submit new comments on this action.

ADDRESSES: Comments on the proposed general permit reissuance should be sent to the attention of the Director, Office of Water & Watersheds, EPA—Region 10, 1200 Sixth Avenue, Suite 900 OWW-130, Seattle, WA 98101. Comments may also be submitted electronically to godsey.cindi@epa.gov.

FOR FURTHER INFORMATION CONTACT:

Copies of the proposed general permit and Fact Sheet are available upon request. Requests may be made to Audrey Washington at (206) 553-0523 or to Cindi Godsey at (907) 271-6561. Requests may also be electronically mailed to: washington.audrey@epa.gov or godsey.cindi@epa.gov.

These documents may also be found on the EPA Region 10 Web site at <http://yosemite.epa.gov/r10/WATER.NSF/NPDES+Permits/DraftPermitsAK>.

SUPPLEMENTARY INFORMATION:

Executive Order 12866: The Office of Management and Budget has exempted this action from the review requirements of Executive Order 12866 pursuant to Section 6 of that order.

Regulatory Flexibility Act: Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, a Federal agency must prepare an initial regulatory flexibility analysis "for any proposed rule" for which the agency "is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking." The RFA exempts from this requirement any rule that the issuing agency certifies "will not, if promulgated, have a significant economic impact on a substantial number of small entities." EPA has concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that this GP, as issued, will not have a significant economic impact on a substantial number of small entities.

Dated: July 21, 2011.

Christine Psyk,

Associate Director, Office of Water & Watersheds, Region 10, U.S. Environmental Protection Agency.
