

Department received a NSR request from GGB Bearing Technology (Suzhou) Co., Ltd. (“GGB”). GGB’s request was made in June 2011, which is the anniversary month of the *Order*. See 19 CFR 351.214(d).

In its submission, GGB certified that it is the exporter and producer of the subject merchandise upon which the request was based. Pursuant to section 751(a)(2)(B)(i)(I) of the Act and 19 CFR 351.214(b)(2)(i), GGB certified that it did not export TRBs to the United States during the period of investigation (“POI”). In addition, pursuant to section 751(a)(2)(B)(i)(II) of the Act and 19 CFR 351.214(b)(2)(iii)(A), GGB certified that, since the initiation of the investigation, it has not been affiliated with a PRC exporter or producer who exported TRBs to the United States during the POI, including those not individually examined during the investigation. As required by 19 CFR 351.214(b)(2)(iii)(B), GGB also certified that its export activities were not controlled by the central government of the PRC.

In addition to the certifications described above, pursuant to 19 CFR 351.214(b)(2)(iv), GGB submitted documentation establishing the following: (1) The date on which GGB first shipped TRBs for export to the United States and the date on which the TRBs were first entered, or withdrawn from warehouse, for consumption; (2) the volume of its first shipment; and (3) the date of its first sale to an unaffiliated customer in the United States.

The Department conducted U.S. Customs and Border Protection (“CBP”) database queries in an attempt to confirm that GGB’s shipments of subject merchandise had entered the United States for consumption and that liquidation of such entries had been properly suspended for antidumping duties. The Department also examined whether the CBP data confirmed that such entries were made during the NSR POR.¹ The information which the Department examined was consistent with that provided by GGB in its request. See Memorandum to the File titled “Initiation of Antidumping New Shipper Review: Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, from the People’s Republic of China, A-570-601,” (“Initiation Checklist”) dated concurrently with this notice.

Period of Review

In accordance with 19 CFR 351.214(g)(1)(i)(A), the POR for a NSR

¹ See July 14, 2011, memorandum to the file, regarding “U.S. Customs and Border Protection Data.”

initiated in the month immediately following the anniversary month will be the twelve-month period immediately preceding the anniversary month. Therefore, the POR for this NSR is June 1, 2010, through May 31, 2011. The sales and entries into the United States of subject merchandise produced and exported by GGB occurred during this twelve-month POR.

Initiation of New Shipper Review

Pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(b), the Department finds that the request submitted by GGB meets the threshold requirements for initiation of a NSR for the shipment of TRBs from the PRC produced and exported by GGB. See Initiation Checklist. However, if the information supplied by GGB is later found to be incorrect or insufficient during the course of this proceeding, the Department may rescind the review or apply adverse facts available pursuant to section 776 of the Act, depending upon the facts on record. The Department intends to issue the preliminary results of this NSR no later than 180 days from the date of initiation, and the final results no later than 90 days from the issuance of the preliminary results. See section 751(a)(2)(B)(iv) of the Act.

It is the Department’s usual practice, in cases involving non-market economies, to require that a company seeking to establish eligibility for an antidumping duty rate separate from the country-wide rate provide evidence of *de jure* and *de facto* absence of government control over the company’s export activities. Accordingly, the Department will issue a questionnaire to GGB which will include a section requesting information with regard to GGB’s export activities for separate rates purposes. The review will proceed if the response provides sufficient indication that GGB is not subject to either *de jure* or *de facto* government control with respect to its export of subject merchandise.

The Department will instruct CBP to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise from GGB in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). Because GGB certified that it produced and exported the subject merchandise, the Department will apply the bonding privilege to GGB for all subject merchandise produced and exported by GGB.

To assist in its analysis of the *bona fides* of GGB’s sales, upon initiation of

this new shipper review, the Department will require GGB to submit on an ongoing basis complete transaction information concerning any sales of subject merchandise to the United States that were made subsequent to the POR.

Interested parties requiring access to proprietary information in this NSR should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 19 CFR 351.306. This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 19 CFR 351.221(c)(1)(i).

Dated: July 27, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Filing Information

As a courtesy, we are making information related to Sunset proceedings, including copies of the pertinent statute and Department's regulations, the Department schedule for Sunset Reviews, a listing of past revocations and continuations, and current service lists, available to the public on the Department's Internet Web site at the following address: <http://ia.ita.doc.gov/sunset/>. All submissions in these Sunset Reviews must be filed in accordance with the Department's regulations regarding format, translation, and service of documents. These rules can be found at 19 CFR 351.303.

This notice serves as a reminder that any party submitting factual information in an AD/CVD proceeding must certify to the accuracy and completeness of that information. See section 782(b) of the Act. Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in all AD/CVD investigations or proceedings initiated on or after March 14, 2011. See *Certification of Factual Information to Import Administration During Antidumping and Countervailing Duty*

Proceedings: Interim Final Rule, 76 FR 7491 (February 10, 2011) ("*Interim Final Rule*") amending 19 CFR 351.303(g)(1) and (2). The formats for the revised certifications are provided at the end of the *Interim Final Rule*. The Department intends to reject factual submissions in investigations/proceedings initiated on or after March 14, 2011 if the submitting party does not comply with the revised certification requirements.

Pursuant to 19 CFR 351.103(d), the Department will maintain and make available a service list for these proceedings. To facilitate the timely preparation of the service list(s), it is requested that those seeking recognition as interested parties to a proceeding contact the Department in writing within 10 days of the publication of the Notice of Initiation.

Because deadlines in Sunset Reviews can be very short, we urge interested parties to apply for access to proprietary information under administrative protective order ("APO") immediately following publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The Department's regulations on submission of proprietary information and eligibility to receive access to business proprietary information under

APO can be found at 19 CFR 351.304-351.306.

Information Required From Interested Parties

Domestic interested parties defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR 351.102(b) wishing to participate in a Sunset Review must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the order without further review. See 19 CFR 351.218(d)(1)(iii).

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in the Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive

response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Please consult the Department's regulations for information regarding the Department's conduct of Sunset Reviews.¹ Please consult the Department's regulations at 19 CFR part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at the Department.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218 (c).

Dated: July 21, 2011.

Notice of Availability for a Finding of No Significant Impact and Environmental Assessment for Emergency Restoration of Seagrass Impacts From the Deepwater Horizon Oil Spill Response

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: Officials of the National Oceanic and Atmospheric Administration of the U.S. Department of Commerce (NOAA); U.S. Department of Interior; and the five states of Florida, Alabama, Mississippi, Louisiana and Texas are all designated, pursuant to section 1006(b) of the Oil Pollution Act of 1990 (OPA), as trustees (Trustees) for natural resources harmed by this

¹ In comments made on the interim final sunset regulations, a number of parties stated that the proposed five-day period for rebuttals to substantive responses to a notice of initiation was insufficient. This requirement was retained in the final sunset regulations at 19 CFR 351.218(d)(4). As provided in 19 CFR 351.302(b), however, the Department will consider individual requests to extend that five-day deadline based upon a showing of good cause.

Incident. NOAA is serving as the Lead Administrative Trustee (LAT) for this emergency seagrass restoration. Under the National Environmental Policy Act, an Environmental Assessment for Emergency Restoration of Seagrass Impacts from the Deepwater Horizon Oil Spill Response (EA) was completed by NOAA, and a Finding of No Significant Impact (FONSI) was signed on July 8, 2011.

DATES: Comments on this EA and FONSI must be received by August 16, 2011.

ADDRESSES: Submit comments to: Kay McGraw, NOAA Restoration Center, Rm 15862, 1315 East West Highway, Silver Spring, MD 20910; or electronically to Kay.McGraw@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Patricia A. Montanio, 301-427-8600.

SUPPLEMENTARY INFORMATION: The purpose of this project is to address injuries to seagrass beds that resulted from Deepwater Horizon (DWH) oil spill response activities. The injuries were caused by motorized boats, and included propeller scars, blowholes from response vessels, and scouring from boom curtains and anchor tethers. The proposed action will restore damaged seagrass beds and decrease risk of secondary injury to nearby seagrass communities. The environmental review process led NOAA to conclude that this action will not have a significant effect on the human environment, therefore an environmental impact statement will not be prepared.

Section 990.26(d) of OPA requires the Trustees to provide notice to the public, to the extent practicable, of any planned emergency restoration actions. Trustees must also provide public notice of the justification for, nature and extent of, and results of emergency restoration actions within a reasonable time frame. NOAA is expediting regulatory clearance of this action due to the emergency nature of it. The Trustees believe the best method to address this requirement is to post a copy of the FONSI and EA on NOAA's Deepwater Horizon Web site at <http://www.gulfspillrestoration.noaa.gov/>. The documents will be available there on August 1, 2011.

NOAA believes it is important to undertake the restoration immediately in order to minimize the possibility of further adverse sea grass impacts that may occur in the absence of immediate action, such as secondary damage that may result from storms or other events. NOAA will accept public comments on this EA and FONSI until August 16,

2011. All comments will be fully considered and included in the administrative record for this action.

Dated: July 26, 2011.

Acting Director, Office of Habitat Conservation, National Marine Fisheries Service.
