

(76 FR 3922), then extended the comment period to March 21, 2011, in response to public requests for more review time. We received comments on the Draft CCP/EIS from 213 individuals, agencies, and groups. We addressed the comments in the Final CCP/EIS, primarily by changing parts of Alternative 2, our preferred alternative. The changes we made to Alternative 2 follow.

- On the South Bay Units, we would restore 621 acres of historic estuarine habitats (open water, intertidal flats, and salt marsh), instead of the 749 acres previously identified in the Draft CCP/EIS, restoring only parts of the units' estuarine habitat. Also on the Riekkola Unit, instead of removing all of the short grass fields, we would manage 93 acres of short-grass fields for Canada geese and Roosevelt elk.

- Instead of removing all goose hunting blinds from the Riekkola Unit, we would maintain three goose hunting blinds, including a barrier-free blind, and add two waterfowl hunting blinds, including a barrier free blind, to the unit. Walk-in access to the blinds for hunting would be provided in accordance with State hunting regulations. During the nonhunting season, all Refuge visitors could use the blinds.

- In addition to previously proposed opportunities for wildlife observation, photography, and interpretive trails; the parking area, cartop boat launch, and a new trail to Porter Point would be open year round to all Refuge visitors.

**SUPPLEMENTARY INFORMATION:** *Title:* 30 CFR Part 1220, OCS Net Profit Share Payment Reporting.

*OMB Control Number:* 1012-0009.

*Bureau Form Number:* None.

*Abstract:* The Secretary of the U.S. Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary is required by various laws to manage mineral resources production on Federal and Indian lands and the OCS, collect royalties due, and distribute the funds collected under those laws. The ONRR performs the royalty management functions for the Secretary.

Public laws pertaining to mineral leases on Federal and Indian lands and the OCS are posted at [http://www.onrr.gov/Laws\\_R\\_D/PublicLawsAMR.htm](http://www.onrr.gov/Laws_R_D/PublicLawsAMR.htm).

### I. General Information

The ONRR collects and uses this information to determine all allowable direct and allocable joint costs and credits under § 1220.011 incurred during the lease term, appropriate overhead allowance permitted on these costs under § 1220.012, and allowances for capital recovery calculated under § 1220.020. The ONRR also collects this information to ensure royalties or net profit share payments are accurately valued and appropriately paid. This ICR affects only oil and gas leases on submerged Federal lands on the OCS.

### II. Information Collections

Title 30 CFR part 1220 covers the net profit share lease (NPSL) program and establishes reporting requirements for determining the net profit share base under § 1220.021 and calculating net

profit share payments due the Federal Government for the production of oil and gas from leases under § 1220.022.

#### A. NPSL Bidding System

To encourage exploration and development of oil and gas leases on submerged Federal lands on the Outer Continental Shelf (OCS), the Bureau of Ocean Energy Management, Regulations, and Enforcement (BOEMRE, the former Offshore Energy and Minerals Management [OEMM] of Minerals Management Service [MMS]) promulgated regulations at 30 CFR part 260—Outer Continental Shelf Oil and Gas Leasing. Also, BOEMRE promulgated specific implementing regulations for the NPSL bidding system at § 260.110(d). The BOEMRE established the NPSL bidding system to balance a fair market return to the Federal Government for the lease of its public lands with a fair profit to companies risking their investment capital. The system provides an incentive for early and expeditious exploration and development and provides for sharing the risks by the lessee and the Federal Government. The NPSL bidding system incorporates a fixed capital recovery system as a means through which the lessee recovers costs of exploration and development from production revenues, along with a reasonable return on investment.

#### B. NPSL Capital Account

The Federal Government does not receive a profit share payment from an NPSL until the lessee shows a credit balance in its capital account; that is, cumulative revenues and other credits exceed cumulative costs. Lessees multiply the credit balance by the net profit share rate (30 to 50 percent), resulting in the amount of net profit share payment due the Federal Government.

The ONRR requires lessees to maintain an NPSL capital account for each lease under § 1220.010, which transfers to a new owner when sold. Following the cessation of production, lessees are also required to provide either an annual or a monthly report to the Federal Government, using data from the capital account until the lease is terminated, expired, or relinquished.

#### C. NPSL Inventories

The NPSL lessees must notify ONRR of their intent to perform an inventory and file a report after each inventory of controllable material under § 1220.032.

#### D. NPSL Audits

When non-operators of an NPSL call for an audit, they must notify ONRR. When ONRR calls for an audit, the lessee must notify all non-operators on the lease. These requirements are located at § 1220.033.

### III. OMB Approval

The information we collect under this ICR is essential in order to determine when net profit share payments are due and to ensure lessees properly value and pay royalties or net profit share payments.

We are requesting OMB approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge fiduciary duties and may also result in the inability to confirm the accurate royalty value. Proprietary information submitted to ONRR under this collection is protected, and no items of a sensitive nature are included in this information collection.

*Frequency:* Annually, monthly, and on occasion.

*Estimated Number and Description of Respondents:* 6 lessees.

*Estimated Annual Reporting and Recordkeeping "Hour" Burden:* 1,046 hours.

All six lessees report monthly because all current NPSLs are in producing status. Because the requirements for establishment of capital accounts at § 1220.010(a) and capital account annual reporting at § 1220.031(a) are necessary only during non-producing status of a lease, we included only one response annually for these requirements, in case a new NPSL is established. We have not included in our estimates certain requirements performed in the normal course of business, which are considered usual and customary. The following table shows the estimated annual burden hours by CFR section and paragraph.
