## DEPARTMENT OF LABOR

### Employment and Training Administration

[TA-W-75,099]

#### West, A Thomson Reuters Business, Thomson Reuters Legal Division, Including On-Site Leased Workers From Adecco, Albuquerque, New Mexico; Notice of Termination of Reconsideration Investigation

On April 28, 2011, the Department of Labor (Department) issued an Affirmative Determination Regarding Application for Reconsideration for workers and former workers of West, A Thomson Reuters Business, Thomson Reuters Legal Division, including On-Site Leased Workers from Adecco, Albuquerque, New Mexico. The Department's Notice of affirmative determination was published in the **Federal Register** on May 11, 2011 (76 FR 27365).

On July 20, 2011, the Department issued an amended certification applicable to workers and former workers of West, A Thomson Reuters Business, Thomson Reuters Legal, including on-site leased workers from Adecco, including a teleworker located in Albuquerque, New Mexico reporting to Eagan, Minnesota (TA-W-73,198). The Department's Notice of amended certification will soon be published in the **Federal Register**.

Because the petitioning group of workers is covered by an existing certification which expires on June 21, 2012, further investigation in this case would serve no purpose, and the reconsideration investigation has been terminated.

#### Conclusion

After careful review of the administrative record and the findings of the reconsideration investigation, I am terminating the investigation of the petition for worker adjustment assistance filed on behalf of workers and former workers of West, A Thomson Reuters Business, Thomson Reuters Legal Division, including on-site leased workers from Adecco, Albuquerque, New Mexico.

Signed in Washington, DC, on this 29th day of July, 2011.

**Del Min Amy Chen,**

*Certifying Officer, Office of Trade Adjustment Assistance.*

## NATIONAL SCIENCE FOUNDATION

### Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

**AGENCY:** National Science Foundation.

**ACTION:** Notice of Permit Modification Request Received under the Antarctic Conservation Act of 1978, Pub. L. 95-541.

**SUMMARY:** The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated

under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 part 670 of the Code of Federal Regulations. This is the required notice of a requested permit modification.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application by September 12, 2011. Permit applications may be inspected by interested parties at the Permit Office, address below.

**ADDRESSES:** Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

**FOR FURTHER INFORMATION CONTACT:**

Nadene G. Kennedy at the above address or (703) 292-7405.

**SUPPLEMENTARY INFORMATION:** The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

*Description of Permit Modification Requested:* The Foundation issued a permit (2011-002) to David Ainley on May 28, 2010. The issued permit allows the applicant to enter Beaufort Island ASPA 105, Cape Royds ASPA 121, and Cape Crozier ASPA 124 to band 1800 Adelie fledglings, implant PIT tags on 300 Adelie adults, apply TDR/satellite tags, weigh and blood sample 45 Adelie adults, and mark nests as part of a study to determine the effect of age, experience and physiology on individual foraging efficiency, breeding success and survival, and develop a comprehensive model for the Ross-Beaufort island metapopulations incorporating all the factors investigated.

The applicant requests a modification to his permit to allow:

(1) Inject PIT tags under the skin of ≤120 Adelie chicks at Cape Crozier (ASPA 124) and ≤100 chicks at Cape Royds (ASPA 121) which they will attempt to detect with a ground-based antennae to read the tags of the birds when they return to the colony in the future, thus eliminating the need for metal flipper bands to monitor penguin demography.
