

alternatives that are in addition to those listed herein.

3. *Public Involvement.* Public involvement, an essential part of the SEIS process, is integral to assessing the environmental consequences of the proposed action and improving the quality of the environmental decisionmaking. The public includes affected and interested Federal, State, and local agencies, Indian Tribes, concerned citizens, stakeholders, and other interested parties. Public participation in the SEIS process will be strongly encouraged, both formally and informally, to enhance the probability of a more technically accurate, economically feasible, and socially and politically acceptable SEIS. Public involvement will include but is not limited to: information dissemination; identification of problems, needs and opportunities; idea generation; public education; problem solving; providing feedback on proposals; evaluation of alternatives; conflict resolution by consensus; public and scoping notices and meetings; public, stakeholder and advisory groups consultation and meetings; and making the SEIS and supporting information readily available in conveniently located places, such as libraries and on the world wide Web.

4. *Scoping.* Scoping, an early and open process for identifying the scope of significant issues related to the proposed action and alternatives to be addressed in the SEIS, will be used to: (a) Identify the affected public and agency concerns; (b) facilitate an efficient SEIS preparation process; (c) define the issues and alternatives that will be examined in detail in the SEIS; and (d) save time in the overall process by helping to ensure that the draft SEIS adequately addresses relevant issues. The USACE anticipates conducting a public scoping meeting for this SEIS in October 2011. The exact date, time, and location of this meeting, which will be held in the general project area, have not yet been determined. This information will be publicized once the meeting arrangements have been made.

5. *Coordination.* The USACE and the U.S. Fish and Wildlife Service (USFWS) have formally committed to work together to conserve, protect, and restore fish and wildlife resources while ensuring environmental sustainability of our Nation's water resources under the January 22, 2003, Partnership Agreement for Water Resources and Fish and Wildlife. The USFWS will provide a Fish and Wildlife Coordination Act Report. Coordination will be maintained with the USFWS and the National Marine Fisheries Service (NMFS) regarding threatened and

endangered species under their respective jurisdictional responsibilities. Coordination will be maintained with the NMFS regarding essential fish habitat. Coordination will be maintained with the U.S. Coast Guard (USCG) regarding navigation issues. In addition, USFWS, NMFS, USCG and the U.S. Geological Survey will be invited to be cooperating agencies. Coordination will be maintained with the Natural Resources Conservation Service regarding prime and unique farmlands. The U.S. Department of Agriculture will be consulted regarding the "Swampbuster" provisions of the Food Security Act. Coordination will be maintained with the U.S. Environmental Protection Agency concerning compliance with Executive Order 12898, "Federal Action to Address Environmental Justice in Minority Populations and Low-Income Populations." Coordination will be maintained with the Advisory Council on Historic Preservation and the State Historic Preservation Officer. The Federal Aviation Administration will be consulted regarding potential impacts to local airports. The Louisiana Department of Natural Resources will be consulted regarding consistency with the Coastal Zone Management Act. The Louisiana Department of Environmental Quality will be consulted concerning potential impacts to water quality. The Louisiana Department of Wildlife and Fisheries will be consulted concerning potential impacts to Natural and Scenic Rivers and to fish and wildlife resources.

5. *Availability of Draft SEIS.* The earliest that the draft SEIS will be available for public review would be in the fall of 2012. The draft SEIS or a notice of availability will be distributed to affected Federal, State, and local agencies, Indian Tribes, and other interested parties.

Dated: August 11, 2011.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP11-532-000]

### Pivotal LNG, Inc.; Notice of Application

Take notice that on August 8, 2011, Pivotal LNG, Inc. (Pivotal), Ten Peachtree Place, Suite 1000, Atlanta, Georgia 30309, filed with the Federal Energy Regulatory Commission (Commission) an application under section 7(c) of the Natural Gas Act (NGA) and Parts 157 and 284 of the regulations of the FERC, requesting: (i) To the extent necessary, a limited jurisdiction blanket transportation certificate for the purpose of authorizing incidental transportation of natural gas as a by-product of the operation of non-jurisdictional liquefied natural gas (LNG) liquefaction and storage facility in support of its LNG vehicular and other end-use fuel business; (ii) a waiver of all regulatory, accounting, and reporting requirements applicable to natural gas companies under the NGA and Natural Gas Policy Act, and (iii) expedited consideration and action by the Commission as the requested approvals are a condition to closing on the proposed acquisition by Pivotal of the LNG facility, all as more fully described in the application. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number

field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any Questions regarding this application should be directed to Shannon Omia Pierce, AGL Resources Inc., Ten Peachtree Place, Suite 1000, Atlanta, Georgia 30309 or by e-mailing [spierce@aglresources.com](mailto:spierce@aglresources.com), or to Lisanne Crowley, Troutman Sanders LLP, 401 Ninth Street, NW., Suite 1000, Washington, DC 20004 or by e-mailing [lisanne.crowley@troutmansanders.com](mailto:lisanne.crowley@troutmansanders.com).

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments

considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. PR11-123-000]

#### Moss Bluff Hub, LLC; Notice of Baseline Filing

Take notice that on August 17, 2011, Moss Bluff Hub, LLC submitted a

revised Statement of Operating Conditions, that governs storage and interruptible hub services under Section 311 of the Natural Gas Policy Act of 1978 (NGPA), to reflect the addition of Big Sandy Pipeline, LLC to the list of entities whose service agreements constitute a Valid Service Agreement.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.
