

release of the application by being as specific as possible in identifying the information they consider proprietary. Please note that, in many instances, identification of entire pages of documentation would not be appropriate.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

5. *Performance Measures:* The overall purpose of the Supporting Effective Educator Development Grant Program is to support projects by national non-profit organizations that are supported by at least moderate evidence, as defined in this notice, to recruit, select, and prepare or provide professional enhancement activities for teachers or for teachers and principals. We have established the following performance measures for the Supporting Effective Educator Development Grant Program: For absolute priorities 1 and 2, the percentage of teacher and principal participants who serve concentrations of high-need students, are highly effective, and serve for at least two years, and the cost per such participant. For absolute priority 3, the percentage of teacher participants who receive advanced certification or advanced credentialing and are highly effective, and the cost per such participant. Grantees will report annually on each component of these measures.

6. *Continuation Awards:* Contingent upon the availability of funds and each grantee's substantial progress towards accomplishing the goals and objectives of the project as described in its approved application, after the initial 12 month project period we may make continuation awards to grantees for the remaining 24 months of the program. Review of each grantee's progress may include consideration of evidence of

promising practices and a strong evaluation design.

Additionally, in making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made "substantial progress toward meeting the objectives in its approved application." This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
