#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On June 8, 2011, the Department of Commerce ("Department") published the preliminary results of the administrative review of the countervailing duty order on citric acid and certain citrate sales from People's Republic of China, covering the period September 19, 2008, through December 31, 2009. *See Citric Acid and Certain Citrate Sales from the People's Republic of China: Preliminary Results of Countervailing Duty Administrative Review*, 76 FR 33219 (June 8, 2011) ("Preliminary Results"). In the *Preliminary Results* we stated that we would issue our final results for the countervailing duty administrative review no later than 120 days after the date of publication of the *Preliminary Results*.

##### **Statutory Time Limits**

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results of an administrative review within 120 days of the publication of the *Preliminary Results*. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend this deadline to a maximum of 180 days.

#### **Extension of Time Limits for Final Results**

The Department has determined that completion of the final results of this review within the original time period (*i.e.*, by October 6, 2011) is not practicable. We are currently verifying the responses of the respondents, and will require time to write verification reports and allow interested parties adequate time to comment. Also, in the instant review, the Department needs additional time to conduct a post-preliminary analysis of lending programs, the respondents' creditworthiness, and inputs supplied for less than adequate remuneration. *See Preliminary Results*, 76 FR at 33238. Therefore, the Department is extending the time limit for completion of the final results to not later than December 5, 2011, which is 180 days from the date of publication of the *Preliminary Results*, in accordance with section 751(a)(3)(A) of the Act.

We are issuing and publishing this notice in accordance with sections 751(a) and 777(i)(1) of the Act.

Dated: September 6, 2011.

#### **SUPPLEMENTARY INFORMATION:**

##### **Case History**

As noted above, on March 4, 2011, the Department published the *Preliminary Results* of this administrative review. Between March 9, 2011, and March 31, 2011, the Department requested that Camimex, Minh Phu Seafood Corporation (and its affiliates Minh Qui Seafood Co., Ltd., and Minh Phat Seafood Co., Ltd.) (collectively "the Minh Phu Group"), and Nha Trang Seaproduct Company (and its affiliates, NT Seafoods Corporation, Nha Trang Seafoods—F.89 Joint Stock Company, and NTSF Seafoods Joint Stock Company) (collectively, "Nha Trang Seafoods Group") (hereinafter collectively "mandatory respondents"), submit publicly ranged quantities of their reported U.S. transactions. On March 14, 2011, through April 1, 2011, the mandatory respondents submitted the publicly ranged quantities of their reported U.S. transactions to the Department.

On March 24, 2011, the Department received post-*Preliminary Results* surrogate value information to value factors of production ("FOP") for the final results from the Petitioners,<sup>2</sup> the Processors,<sup>3</sup> and the Respondents.<sup>4</sup> On

<sup>2</sup> This includes the Ad Hoc Shrimp Trade Action Committee ("Petitioners").

<sup>3</sup> This includes the American Shrimp Processors Association ("ASPA") and Louisiana Shrimp Association ("LSA") (collectively, "Processors").

<sup>4</sup> This includes: the mandatory respondents, Bac Lieu Fisheries Joint Stock Company, Ca Mau Seafood Joint Stock Company, Can Tho Agricultural and Animal Products Imex Company, Cuulong Seaproducts Company, Danang Seaproducts Import Export Corporation, Investment Commerce Fisheries Corporation, Minh Hai Export Frozen Seafood Processing Joint Stock Company, Cadovimex Seafood Import- Export and Processing Joint Stock Company, Minh Hai Joint-Stock Seafoods Processing Company, Nha Trang Fisheries Joint Stock Company, Phu Cuong Jostoco Corp., Phuong Nam Foodstuff Corp., Soc Trang Seafood

April 4, 2011, the Department received information to rebut the post-*Preliminary Results* surrogate value information from the Processors.

The Department invited interested parties to comment on the *Preliminary Results*. Between April 4, 2011, and April 25, 2011, the Department received case and rebuttal briefs from the Petitioners, the Processors, the Respondents, and CamRanh/Contessa.<sup>5 6</sup> On June 22, 2011, the Department extended the time limit for completion of the final results of this administrative review until August 16, 2011.<sup>7</sup> On June 23, 2011, following the Court of Appeals for the Federal Circuit's decision in *Dorbest*,<sup>8</sup> the Department invited comments from parties regarding the Department's wage rate methodology.<sup>9</sup> Between July 7, 2011, and July 15, 2011, the Department received labor wage rate comments and rebuttals from Petitioners, Processors, and certain Vietnamese Respondents. As a result of our analysis, the Department has made changes to the *Preliminary Results*. On August 11, 2011, the Department extended the time limit for completion of the final results of this administrative review until August 31, 2011.<sup>10</sup>

### Scope of the Order

The scope of the order includes certain warmwater shrimp and prawns, whether frozen, wild-caught (ocean harvested) or farm-raised (produced by aquaculture), head-on or head-off, shell-on or peeled, tail-on or tail-off,<sup>11</sup> deveined or not deveined, cooked or raw, or otherwise processed in frozen form.

The frozen warmwater shrimp and prawn products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the

United States ("HTS"), are products which are processed from warmwater shrimp and prawns through freezing and which are sold in any count size.

The products described above may be processed from any species of warmwater shrimp and prawns. Warmwater shrimp and prawns are generally classified in, but are not limited to, the *Penaeidae* family. Some examples of the farmed and wild-caught warmwater species include, but are not limited to, whiteleg shrimp (*Penaeus vannamei*), banana prawn (*Penaeus merguensis*), fleshy prawn (*Penaeus chinensis*), giant river prawn (*Macrobrachium rosenbergii*), giant tiger prawn (*Penaeus monodon*), redspotted shrimp (*Penaeus brasiliensis*), southern brown shrimp (*Penaeus subtilis*), southern pink shrimp (*Penaeus notialis*), southern rough shrimp (*Trachypenaeus curvirostris*), southern white shrimp (*Penaeus schmitti*), blue shrimp (*Penaeus stylirostris*), western white shrimp (*Penaeus occidentalis*), and Indian white prawn (*Penaeus indicus*).

Frozen shrimp and prawns that are packed with marinade, spices or sauce are included in the scope of the order. In addition, food preparations (including dusted shrimp), which are not "prepared meals," that contain more than 20 percent by weight of shrimp or prawn are also included in the scope of the order. Excluded from the scope are: (1) Breaded shrimp and prawns (HTS subheading 1605.20.1020); (2) shrimp and prawns generally classified in the *Pandalidae* family and commonly referred to as coldwater shrimp, in any state of processing; (3) fresh shrimp and prawns whether shell-on or peeled (HTS subheadings 0306.23.0020 and 0306.23.0040); (4) shrimp and prawns in prepared meals (HTS subheading 1605.20.0510); (5) dried shrimp and prawns; (6) canned warmwater shrimp and prawns (HTS subheading 1605.20.1040); and (7) certain battered shrimp. Battered shrimp is a shrimp-based product: (1) That is produced from fresh (or thawed-from-frozen) and peeled shrimp; (2) to which a "dusting" layer of rice or wheat flour of at least 95 percent purity has been applied; (3) with the entire surface of the shrimp flesh thoroughly and evenly coated with the flour; (4) with the non-shrimp content of the end product constituting between four and 10 percent of the product's total weight after being dusted, but prior to being frozen; and (5) that is subjected to individually quick frozen ("IQF") freezing immediately after application of the dusting layer. When dusted in accordance with the definition of dusting above, the battered

shrimp product is also coated with a wet viscous layer containing egg and/or milk, and par-fried.

The products covered by the order are currently classified under the following HTS subheadings: 0306.13.0003, 0306.13.0006, 0306.13.0009, 0306.13.0012, 0306.13.0015, 0306.13.0018, 0306.13.0021, 0306.13.0024, 0306.13.0027, 0306.13.0040, 1605.20.1010, and 1605.20.1030. These HTS subheadings are provided for convenience and for customs purposes only and are not dispositive, but rather the written description of the scope of the order is dispositive.

### Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties are addressed in "Fifth Administrative Review of Certain Frozen Warmwater Shrimp from the Socialist Republic of Vietnam: Issues and Decision Memorandum for the Final Results," (August 31, 2011) ("I&D Memo"). A list of the issues which parties raised, and to which the Department responded in the I&D Memo, is attached to this notice as an Appendix. The I&D Memo is a public document and is on file in the Central Records Unit ("CRU"), main Commerce Building, Room 7046, and is accessible on the Department's Web site at <http://www.trade.gov/ia>. The paper copy and electronic version of the memorandum are identical in content.

### Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties regarding our *Preliminary Results*, the Department has made certain revisions to the margin calculation for Camimex, the Nha Trang Seafoods Group, and the Minh Phu Group. For further analysis of these revisions, see the I&D Memo and company specific analysis memoranda. For changes to the surrogate values, see the I&D Memo and "Memorandum to the File, through Scot T. Fullerton, Program Manager, AC/CVD Operations, Office 9, from Jerry Huang, International Trade Analyst, AD/CVD Operations, Office 9, Fifth Antidumping Duty Administrative Review of Certain Frozen Warmwater Shrimp from the Socialist Republic of Vietnam: Surrogate Values for the Final Results," (August 31, 2011).

### Final Partial Rescission

In the *Preliminary Results*, the Department preliminarily rescinded the review with respect to Gallant Ocean (Vietnam) Co., Ltd., Kien Cuong Seafood Processing Import Export Joint-Stock

Joint Stock Company, Thuan Phuoc Seafoods and Trading Corporation and UTXI Aquatic Products Processing Corporation (collectively, "Respondents").

Company, Quoc Viet Seaproducts Processing Trading Import and Export Co., Ltd., Viet Hai Foods Co., Ltd. and its branch Nam Hai Foodstuff and Export Company Ltd.,<sup>12</sup> Vinh Loi Import Export Company, and Vinh Hoan Corporation. These companies reported that they had no shipments of subject merchandise to the United States during the POR. As stated in the *Preliminary Results*, the Department's examination of shipment data from U.S. Customs and Border Protection ("CBP") for these companies confirmed that there were no entries of subject merchandise from them during the POR.<sup>13</sup> The Department did not receive any comments regarding the preliminary rescission of these companies. Therefore, the Department is rescinding the administrative review with respect to these companies.

### Separate Rates

In proceedings involving NME countries, it is the Department's practice to begin with a rebuttable presumption that all companies within the country are subject to government control and thus should be assessed a single antidumping duty rate. See *Separate Rates and Combination Rates in Antidumping Investigations Involving Non-Market Economy Countries*, 70 FR 17233 (April 5, 2005); see also *Notice of Final Determination of Sales at Less Than Fair Value, and Affirmative Critical Circumstances, In Part: Certain Lined Paper Products From the People's Republic of China*, 71 FR 53079, 53080 (September 8, 2006); and *Final Determination of Sales at Less Than Fair Value and Final Partial Affirmative Determination of Critical Circumstances: Diamond Sawblades and Parts Thereof from the People's Republic of China*, 71 FR 29303, 29307 (May 22, 2006).

In our *Preliminary Results*, we determined that, in addition to the mandatory respondents, the following 27 companies met the criteria for separate rate status: Amanda Foods (Vietnam) Limited; Bac Lieu Fisheries Joint Stock Company; C.P. Vietnam Livestock Corporation; Cafatex Fishery Joint Stock Corporation, aka Cafatex Corp.; Cadovimex Seafood Import-Export and Processing Joint Stock Company, aka CADOVIMEX-VIETNAM; Ca Mau Seafood Joint Stock Company, aka Seaprimexco Vietnam; Camranh Seafoods and Branch of Cam Ranh; Can Tho Import Export Fishery

Limited Company, aka CAFISH; CATACO Sole Member Limited Liability Company, aka CATACO; Coastal Fisheries Development Corporation, aka COFIDEX; Cuulong Seaproducts Company, aka Cuulong Seapro; Danang Seaproducts Import Export Corporation, aka Seaprodex Danang and its branch Tho Quang Seafood Processing and Export Company; Grobest & I-Mei Industrial Vietnam Co., Ltd., aka Grobest; Investment Commerce Fisheries Corporation, aka INCOMFISH; Kim Anh Company, Limited; Minh Hai Export Frozen Seafood Processing Joint Stock Company, aka Minh Hai Jostoco; Minh Hai Joint-Stock Seafoods Processing Company, aka Seaprodex Minh Hai; Ngoc Sinh Private Enterprise and its branch, Ngoc Sinh Seafoods Processing and Trading Enterprise, aka Ngoc Sinh Seafoods; Nhat Dhuc Co., Ltd.; Nha Trang Fisheries Joint Stock Company, aka Nha Trang Fisco; Phu Cuong Jostoco Seafood Corporation; Phuong Nam Foodstuff Corp., aka Phuong Nam Co., Ltd.; Sao Ta Foods Joint Stock Company, aka FIMEX VN; Soc Trang Seafood Joint Stock Company, aka STAPIMEX; Thuan Phuoc Seafoods and Trading Corporation; UTXI Aquatic Products Corporation, aka UTXICO; and Viet Hai Seafood Co., Ltd., a/k/a Vietnam Fish One Co., Ltd. The Department has not received any information since the issuance of the *Preliminary Results* that provides a basis for reconsideration of this treatment. Therefore, the Department continues to find that the above-named companies meet the criteria for a separate rate.

### Separate Rate Calculation

The separate rate is determined based on the estimated weighted-average antidumping margins established for exporters and producers individually investigated, excluding zero and *de minimis* margins or margins based entirely on facts available.<sup>14 15</sup> We note that it is the Department's practice to calculate the rate based on the average of the margins calculated for those companies selected for individual review, weighted by each company's publicly-ranged quantity of reported U.S. transactions.<sup>16</sup> Due to requests to protect business proprietary

information, we were unable to apply our normal methodology of calculating a weighted-average margin in the *Preliminary Results*, and instead calculated a simple average.<sup>17</sup> Since the *Preliminary Results*, the Department has obtained publicly-ranged quantities of reported U.S. transactions. Therefore, for these final results, the Department has assigned to the separate rate respondents a weighted-average of the Minh Phu Group and Camimex's margin to the companies not selected for individual examination.

### Vietnam-Wide Entity

In the *Preliminary Results* the Department treated certain Vietnamese exporters/producers as part of the Vietnam-wide entity because they did not demonstrate that they operate free of government control.<sup>18</sup> Since the *Preliminary Results*, the Department has received comments noting that several companies were incorrectly included in the Vietnam-wide entity.<sup>19</sup> As discussed in the I&D Memo, the Department inadvertently included certain company names in the Vietnam-wide entity.<sup>20</sup> For the final results, the Department has updated the list indicating which companies are to be included in the Vietnam-wide entity.<sup>21</sup> No additional information was placed on the record with respect to the remaining 41 companies after the *Preliminary Results*. Because the Department begins with the presumption that all companies within a NME country are subject to government control, and because only the companies listed under the "Final Results of Review" section below have overcome that presumption, the Department is applying a single antidumping rate, *i.e.*, the Vietnam-wide entity rate, to all other exporters of subject merchandise from Vietnam. The Vietnam-wide rate applies to all entries of the merchandise under consideration, except for those from companies which have received a separate rate.

### Revocation

In the *Preliminary Results*, the Department noted that four companies<sup>22</sup> requested revocation pursuant to 19 CFR 351.222. Also, in the *Preliminary Results*, the Department denied these requests for revocation. The Department has not received any

### Assessment

Upon issuance of the final results, the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review. Pursuant to 19 CFR 351.212(b)(1), the Department will calculate importer-specific (or customer) per unit duty assessment rates based on the ratio of the total amount of the dumping margins calculated for the examined sales to the total entered value of those same sales. The Department will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate is above *de minimis*.

### Cash Deposit Requirements

The following cash-deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Tariff Act of 1930, as amended (“the Act”): (1) For the exporters listed above, the cash deposit rate will be the rate established in these final results of review (except, if the rate is zero or *de minimis*, *i.e.*, less than 0.5 percent, a zero cash deposit rate will be required for that company); (2) for previously investigated or reviewed

Vietnamese and non-Vietnamese exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all Vietnamese exporters of subject merchandise which have not been found to be entitled to a separate rate, the cash deposit rate will be the Vietnamese-wide rate of 25.76 percent; and (4) for all non-Vietnamese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Vietnamese exporters that supplied that non-Vietnamese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

### Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

### Administrative Protective Orders

This notice also serves as a final reminder to parties subject to administrative protective order (“APO”) of their responsibility concerning the return or destruction of proprietary

information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: August 31, 2011.

[Docket No.: 110727437-1433-01]

#### Soliciting Input on Research and Development Priorities for Desirable Features of a Nationwide Public Safety Broadband Network

**AGENCY:** National Institute of Standards and Technology, Department of Commerce.

**ACTION:** Notice and request for comment.

**SUMMARY:** The U.S. Department of Commerce's (DoC) National Institute of Standards and Technology (NIST) is seeking input on various possible features of a new nationwide interoperable public safety broadband network. This input will be used by NIST to help determine research and development priorities in anticipation of the President's Wireless Innovation (WIN) Fund to help drive innovation of next-generation network technologies.

**DATES:** Comments are requested by 5 p.m. EDT on October 12, 2011.

**ADDRESSES:** Comments should be sent to Dereck Orr, [dereck.orr@nist.gov](mailto:dereck.orr@nist.gov).

**FOR FURTHER INFORMATION CONTACT:** Dereck Orr, Office of Law Enforcement Standards, National Institute of Standards and Technology, 325 Broadway, Boulder, Colorado 80305, telephone number (303) 497-5400. Mr. Orr's e-mail address is [dereck.orr@nist.gov](mailto:dereck.orr@nist.gov).

**SUPPLEMENTARY INFORMATION:** The public safety community (law enforcement, fire, and emergency medical service) is experiencing a generational shift in technology that will revolutionize the way it communicates. Traditionally, emergency responders have used land mobile radio technology. This technology has limited data capabilities and suffers from a large installed base of thousands of stand-alone proprietary systems with non-contiguous spectrum assignments. As a result, public safety has long struggled with effective cross-agency/jurisdiction communications and lags far behind the commercial sector in data capability. Congressional legislation has made broadband spectrum that was cleared by the transition from analog to digital broadcast television (referred to as the

Digital Television (DTV) Transition) available to public safety for broadband communications. The newly available spectrum will allow for a unified system operating on common spectrum bands, fostering nationwide roaming, interoperability, and access to broadband data. However, public safety has several unique requirements that are not currently reflected in broadband technology.

In August 2010, the U.S. Department of Justice Community Oriented Policing Services (COPS) office held the National Forum on Public Safety Broadband Needs. More than 20 public safety practitioners identified the following 15 operational requirements, each of which relate to at least four overarching themes (resiliency, availability and reliability, security, and affordability/commercial alignment):

(1) A dedicated high-quality network connection always available for sending and receiving continual data streams to support monitoring and resource tracking;

(2) At a minimum, access to initial and updated basic incident information (voice- and text-based incident data);

(3) An infrastructure that is hardened and secure, providing a high level of system availability;

(4) When voice is converged for normal operations and in the event the infrastructure is compromised, public safety communications must remain stable and with clear voice communications;

- Infrastructure-less communications, with talk-around for the ability to talk one-to-one and one-to-many
- Optimal audio quality during adverse field conditions
- No latency on mission critical voice applications

(5) Geographic coverage that has no limitations within the footprint of the National Public Safety Broadband Network;

(6) Dynamic management and control of the network;

(7) Interoperability, including with existing public safety-based systems;

(8) Ability to send and receive large amounts of information;

(9) A non-proprietary network based on industry standards;

(10) Single devices that support voice, video, and data;

(11) Access to and from external information sources;

(12) Easy integration with other technologies;

(13) Automatic management and control of the network;

(14) Current and future enhancements available to commercial consumers are provided to public safety with no limitations; and

(15) Ability to send, receive, and process information from the public (citizens and media).

Since then, the Obama Administration has announced its support for legislation that would create a not-for-profit Public Safety Broadband Corporation to oversee the deployment of a nationwide network that meets the needs of local, state, Tribal, and Federal public safety communities.<sup>1</sup> The Administration has also proposed a \$3 billion WIN Fund to help drive innovation through research, experimentation, testbeds, and applied development. Of the \$3 billion, \$500 million will be devoted to research and development (R&D) for the new public safety broadband network.<sup>2</sup> The Public Safety Innovation Fund (PSIF), NIST's component of the proposed WIN Fund, helps spur the development of cutting-edge wireless technologies. NIST is working with industry, its Federal partners and public safety organizations to conduct R&D to support new standards, technologies and applications to advance public safety communications. Core components of this program include documenting public safety requirements and driving the adoption of those requirements into the appropriate standards; developing the capability for communications between currently deployed public safety narrowband systems and the future nationwide broadband network; and establishing a roadmap that seeks to capture and address public safety's needs beyond what can be provided by the current generation of broadband technology and driving technological progress in that direction. Through pre-competitive research, development, reference applications, and demonstration projects, NIST will accomplish these goals.

In pursuit of these goals, NIST seeks comments on the following possible features of the nationwide public safety broadband network. These more
