SUPPLEMENTARY INFORMATION:

I. Background

On July 18, 1997, EPA promulgated a revised 8-hour ozone NAAQS (62 FR 38856) and a new PM_{2.5} NAAQS (62 FR 38652). The revised ozone NAAQS is based on 8-hour average concentrations. The 8-hour averaging period replaced the previous 1-hour averaging period, and the level of the NAAQS was changed from 0.12 parts per million (ppm) to 0.08 ppm. The new PM_{2.5} NAAQS established a health-based PM_{2.5} standard of 15.0 micrograms per cubic meter (µg/m³) based on a 3-year average of annual mean PM_{2.5} concentrations, and a twenty-four hour standard of 65 µg/m³ based on a 3-year average of the 98th percentile of 24-hour concentrations. EPA strengthened the 24-hour PM_{2.5} NAAQS from 65 µg/m³ to 35 µg/m³ on October 17, 2006 (71 FR 61144).

Section 110(a) of the CAA requires States to submit State Implementation Plans (SIPs) that provide for the implementation, maintenance, and enforcement of new or revised NAAQS within three years following the

promulgation of such NAAQS. In March of 2004, Earthjustice initiated a lawsuit against EPA for failure to take action against states that had not made SIP submissions to meet the requirements of sections 110(a)(1) and (2) for the 1997 8-hour ozone and PM_{2.5} NAAQS, *i.e.*, failure to make a “finding of failure to submit the required SIP 110(a) SIP elements.” On March 10, 2005, EPA entered into a Consent Decree with Earthjustice that obligated EPA to make official findings in accordance with section 110(k)(1) of the CAA as to whether states have made required complete SIP submissions, pursuant to sections 110(a)(1) and (2), by December 15, 2007 for the 1997 8-hour ozone NAAQS and by October 5, 2008 for the 1997 PM_{2.5} NAAQS. EPA made such findings for the 1997 8-hour ozone NAAQS on March 27, 2008 (73 FR 16205) and on October 22, 2008 (73 FR 62902) for the 1997 PM_{2.5} NAAQS. These completeness findings did not include findings relating to: (1) Section 110(a)(2)(C) to the extent that such subsection refers to a permit program as

required by part D Title I of the CAA; (2) section 110(a)(2)(I); and (3) section 110(a)(2)(D)(i), which had been addressed by a separate finding issued by EPA on April 25, 2005 (70 FR 21147). Therefore, this action does not cover these specific elements.

This action also does not include the portions of sections 110(a)(2)(C), (D)(i)(II), and (J) as they pertain to the PSD permit program, and the portion of section 110(a)(2)(D)(i)(II) as it pertains to visibility. These portions of these elements will be addressed by separate actions.

II. Summary of State Submittal

Maryland provided multiple submittals to satisfy the section 110(a)(2) requirements that are the subject of this proposed action for the 1997 8-hour ozone NAAQS and the 1997 and 2006 PM_{2.5} NAAQS. The submittals shown in Table 1 address the infrastructure elements, or portions thereof, identified in section 110(a)(2) that EPA is proposing to approve.

EPA analyzed the above identified submissions and other related submissions. Based upon this analysis, EPA is proposing to make a determination that such submittals meet the requirements of section 110(a)(2)(A), (B), (C), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M), or portions thereof, for the 1997 8-hour ozone and PM_{2.5} NAAQS and the 2006 PM_{2.5} NAAQS. A detailed summary of EPA’s review of and rationale for approving Maryland’s submittals may be found in the Technical Support Document (TSD) for this action, which is available online at <http://www.regulations.gov>, Docket number EPA–R03–OAR–2011–0476.

III. Proposed Action

EPA is proposing to approve Maryland’s submittals that provide the basic program elements specified in the CAA sections 110(a)(2)(A), (B), (C), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M), or portions thereof, necessary to implement, maintain, and enforce the

1997 8-hour ozone and PM_{2.5} NAAQS and the 2006 PM_{2.5} NAAQS. EPA is soliciting public comments on the issues discussed in this notice and the related TSD. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under

Executive Order 12866 (58 FR 51735, October 4, 1993);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule, pertaining to Maryland's section 110(a)(2) infrastructure requirements for the 1997 8-hour ozone and PM_{2.5} NAAQS, and the 2006 PM_{2.5} NAAQS, does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) portion of the California State Implementation Plan (SIP). These revisions concern volatile organic compound (VOC) emissions from polyester resin operations. We are approving a local rule that regulates

these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action. In a separate interim final action published in the Rules section in today's **Federal Register**, we are deferring related CAA sanctions that would otherwise apply to the SJVUAPCD.

DATES: Any comments must arrive by October 12, 2011.

ADDRESSES: Submit comments, identified by docket number EPA-R09-OAR-2011-0733, by one of the following methods:

I. The State's Submittal

A. What rule did the State submit?

By letter dated July 22, 2011, CARB submitted to EPA on behalf of SJVUAPCD a proposed rule, with request for parallel processing.¹ See June 22, 2011 letter to Jared Blumenfeld, Regional Administrator, EPA Region 9, from James N. Goldstene, Executive Officer, CARB.

Table 1 lists the rule addressed by this proposal with the rule title.

TABLE 1—RULE SUBMITTED BY CALIFORNIA FOR PARALLEL PROCESSING

Local agency	Rule No.	Rule title
SJVUAPCD	4684	Polyester Resin Operations.

CARB's July 22, 2011 parallel processing request includes the District Notice of Public Hearing to be held on August 18, 2011 and the amended District Rule 4684. SJVUAPCD amended Rule 4684 on June 16, 2011. Due to procedural issues with the local public notification process, SJVUAPCD readopted these amendments on August 18, 2011 and expects CARB to submit them to EPA soon.

EPA is granting CARB's request that EPA "parallel process" our review and propose action on the rule. All of the relevant documents are available for

¹ Under EPA's "parallel processing" procedure, EPA proposes rulemaking action concurrently with the State's proposed rulemaking. If the State's proposed rule is changed, EPA will evaluate that subsequent change and may publish another notice of proposed rulemaking. If no significant change is made, EPA will publish a final rulemaking on the rule after responding to any submitted comments. Final rulemaking action by EPA will occur only after the rule has been fully adopted by California and submitted formally to EPA for incorporation into the SIP. See 40 CFR part 51, appendix V.
