BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Western Area Power Administration

Boulder Canyon Project

AGENCY: Western Area Power Administration, DOE. **ACTION:** Notice of base charge and rates.

SUMMARY: In this notice, the Deputy Secretary of Energy approves the Fiscal Year (FY) 2012 Base Charge and Rates (Rates) for Boulder Canyon Project (BCP) electric service provided by the Western Area Power Administration (Western). The Rates will provide sufficient revenue to pay all annual costs, including interest expense, and repay investments within the allowable period.

DATES: The Rates will be effective the first day of the first full billing period beginning on or after October 1, 2011. These Rates will stay in effect through September 30, 2012, or until superseded by other rates.

FOR FURTHER INFORMATION CONTACT: Mr. Jack Murray, Rates Manager, Desert Southwest Customer Service Region, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005– 6457, (602) 605–2442, e-mail *jmurray@wapa.gov*.

SUPPLEMENTARY INFORMATION: Hoover Dam, authorized by the *Boulder Canyon Project Act* (45 Stat. 1057, December 21, 1928), sits on the Colorado River along the Arizona and Nevada border. Hoover Power Plant has nineteen (19) generating units (two for plant use) and an installed capacity of 2,078,800 kW (4,800 kW for plant use). High-voltage transmission lines and substations make it possible for consumers in southern Nevada, Arizona, and southern California to receive power from the Project. BCP electric service rates are adjusted annually using an existing rate formula established on April 19, 1996.

Rate Schedule BCP–F8, Rate Order No. WAPA–150, effective October 1, 2010, through September 30, 2015, allows for an annual recalculation of the rates.¹ This notice sets forth the recalculated rates for FY 2012. Under Rate Schedule BCP–F8, the existing composite rate effective on October 1, 2010, was 19.73 mills per kilowatthour (mills/kWh). The base charge was \$75,182,522, the energy rate was 9.86 mills/kWh, and the capacity rate was \$1.90 per kilowattmonth (kW-month).

The re-calculated rates for BCP electric service, effective October 1, 2011, will result in an overall composite rate of 21.11 mills/kWh. The proposed rates were calculated using the FY 2011 Final Master Schedule. This results in an increase of approximately 6.99 percent when compared with the existing BCP electric service composite rate. The increase is due to an increase in the annual revenue requirement. The

¹FERC confirmed and approved Rate Order No. WAPA-150 on December 9, 2010, in Docket No. EF10-7-000, See United States Department of Energy, Western Area Power Administration, Boulder Canyon Project, 133 FERC ¶ 62,229 (December 9, 2010).
