NATIONAL TRANSPORTATION SAFETY BOARD

Sunshine Act Meeting

TIME AND DATE: 9:30 a.m., Tuesday, September 27, 2011.

PLACE: NTSB Conference Center, 429 L'Enfant Plaza, SW., Washington, DC 20594.

STATUS: The ONE item is open to the public.

MATTER TO BE CONSIDERED: 8205A *Marine Accident Report*—Collision of Tankship *EAGLE OTOME* with Cargo Vessel *GULL ARROW* and Subsequent Collision with the *DIXIE VENGEANCE* Tow Sabine-Neches Canal, Port Arthur, Texas, January 23, 2010.

NEWS MEDIA CONTACT: Telephone: (202) 314-6100.

The press and public may enter the NTSB Conference Center one hour prior to the meeting for set up and seating.

Individuals requesting specific accommodations should contact Rochelle Hall at (202) 314-6305 by Friday, September 23, 2011.

The public may view the meeting via a live or archived Webcast by accessing a link under "News & Events" on the NTSB home page at <http://www.nts.gov>.

FOR FURTHER INFORMATION CONTACT: Candi Bing, (202) 314-6403 or by e-mail at bingc@ntsb.gov.

September 9, 2011.

Candi R. Bing,

Federal Register Liaison Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-341; NRC-2011-0215]

Detroit Edison Company, Fermi 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. NPF-43, issued to Detroit Edison Company (the licensee), for operation of the Fermi 2, located in Monroe County, Michigan, in accordance with Title 10 of the Code of Federal Regulations (10 CFR) 50.90. Therefore, as required by 10 CFR 51.21, the NRC performed an environmental assessment. Based on the results of the environmental assessment, the NRC is issuing a finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would revise the Radiological Emergency Response Preparedness Plan (RERP) to increase the staff augmentation times for the Operational and Technical Support Centers-related functions from 30 to 60 minutes, and for Emergency Operations Facility (EOF)-related functions from 60 to 90 minutes.

The proposed action is in accordance with the licensee's application dated September 24, 2010 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML102700478), as supplemented by letter dated March 4, 2011 (ADAMS Accession No. ML110660050).

The Need for the Proposed Action

The proposed change increases the emergency plan (EP) staff augmentation times from 30 and 60 minutes to 60 and 90 minutes. Specifically, the proposed change requests a revision to the Fermi 2 Emergency Plan Table B-1, "Fermi 2 Emergency Response Organization [ERO]," to increase the staff augmentation times for Technical Support Center-related functions from 30 to 60 minutes, and for EOF-related functions from 60 to 90 minutes.

The proposed change is needed to address concerns for the safety of ERO personnel when responding to the site due to the increase in population and redistribution within the 10-mile Emergency Planning Zone (EPZ). When considering that two lane roads comprise the majority of highways within the EPZ, this has created increased traffic congestion and increased traffic control delays.

Consequently, personnel that respond to the site have encountered more delays than when the plant was first licensed. Additional delays may occur in the future based on continued population growth.

Improvements have been made to equipment, procedures, and training since initial approval of the Fermi 2 EP that have resulted in a significant increase in the on-shift capabilities and knowledge such there would be no degradation or loss of EP function as a result of the proposed change. A functional analysis was also performed on the effect of the proposed change on the timeliness of performing major tasks for the major functional areas of RERP plan. The analysis concluded that extension of staff augmentation times would not significantly affect the ability to perform the required tasks.

Environmental Impacts of the Proposed Action

The NRC has completed its environmental assessment of the proposed exemption. The staff has concluded that the proposed action to increase the staff augmentation times for the Operational and Technical Support Centers-related functions from 30 to 60 minutes, and for EOF-related functions from 60 to 90 minutes would not significantly affect plant safety and would not have a significant adverse effect on the probability of an accident occurring.

The proposed action would not result in an increased radiological hazard beyond those previously analyzed in the updated Safety Analysis Report. There will be no change to radioactive effluents that effect radiation exposures to plant workers and members of the public. No changes will be made to plant buildings or the site property. Therefore, no changes or different types of radiological impacts are expected as a result of the proposed exemption.

The proposed action does not result in changes to land use or water use, or result in changes to the quality or quantity of non-radiological effluents. No changes to the National Pollution Discharge Elimination System permit are needed. No effects on the aquatic or terrestrial habitat in the vicinity or the plant, or to threatened, endangered, or protected species under the Endangered Species Act, or impacts to essential fish habitat covered by the Magnuson-Stevens Act are expected. There are no impacts to the air or ambient air quality. There are no impacts to historical and cultural resources. There would be no noticeable effect on socioeconomic conditions in the region. Therefore, no changes or different types of non-

radiological environmental impacts are expected as a result of the proposed action. Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

The details of the staff's safety evaluation will be provided as part of the letter to the licensee approving issuance of the license amendment.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the NRC staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for the Enrico Fermi Atomic Power Plant, Unit 2, NUREG-0769, dated August 1981, as supplemented with Addendum No. 1 in March 1982.

Agencies and Persons Consulted

In accordance with its stated policy, on August 19, 2011, the NRC staff consulted with the State official, Mr. Ken Yale, of the Michigan Department of Natural Resources and Environment regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated September 24, 2010, as supplemented by letter dated March 4, 2011. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in

accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or send an e-mail to pdr.resource@nrc.gov.

Dated at Rockville, Maryland, this 6th day of September, 2011.

For the Nuclear Regulatory Commission.

Mahesh Chawla,

Project Manager, Plant Licensing Branch 3-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

OVERSEAS PRIVATE INVESTMENT CORPORATION

Sunshine Act Meeting Cancellation—OPIC September 14, 2011 Public Hearing

OPIC's Sunshine Act notice of its Public Hearing in Conjunction with each Board meeting was published in the **Federal Register** (Volume 76, Number 167, Page 53702) on August 29, 2011. No requests were received to provide testimony or submit written statements for the record; therefore, OPIC's public hearing scheduled for 2 p.m., September 14, 2011 in conjunction with OPIC's September 22, 2011 Board of Directors meeting has been cancelled.

CONTACT PERSON FOR INFORMATION:

Information on the hearing cancellation may be obtained from Connie M. Downs at (202) 336-8438, or via e-mail at Connie.Downs@opic.gov.

Dated: September 12, 2011.

Connie M. Downs,

OPIC Corporate Secretary.

PEACE CORPS

Submission for OMB Review; Request for Comments

AGENCY: Peace Corps.

ACTION: 60-Day notice and request for comments.

SUMMARY: The Peace Corps will be submitting the following information collection requests to the Office of Management and Budget (OMB) for revision of a currently approved information collection. In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Peace Corps invites the general public to comment on the revision of a currently approved information collection OMB Control No. 0420-0510: Health History

(PC-1789) and Report of Medical Examination (PC-1790 and PC-1790 S).

DATES: Comments must be submitted on or before November 14, 2011, 60 days from publication in the **Federal Register**.

ADDRESSES: Comments should be addressed to Denora Miller, Freedom of Information Act Officer. Denora Miller can be contacted by telephone at 202-692-1236 or e-mail at pcf@peacecorps.gov. E-mail comments must be made in text and not in attachments.

FOR FURTHER INFORMATION CONTACT:

Denora Miller at Peace Corps address above.

SUPPLEMENTARY INFORMATION:

Title: Health History (PC-1789) and Report of Medical Examination (PC-1790 and PC-1790 S).

OMB Control Number: 0420-0510.

Type of Information Collection: Revision of a currently approved information collection.

Respondents' obligation to reply: Voluntary.

Burden to the public: The revised Health History (PC-1789) is expected to average 30 minutes per Candidate: with an expected 10,000 Candidates completing the form. This is a total average time burden cost of \$95,050. We predict the Report of Medical Examinations (PC-1790 S and PC-1790) would each take an average of 45 minutes with 3800 Invitees required to undergo these exams (Candidates who have accepted an invitation to serve). Peace Corps is unable to accurately estimate how much of this expense will be borne by Candidates but we have made an estimate of about \$228,800 for medical exams.

General description of collection: The Peace Corps Act requires that Volunteers receive health examinations prior to their service. The information collected is required for consideration for Peace Corps Volunteer service. The Health Status Review is used to review the medical history of individual applicants. The Candidate completes the Health History Form (PC-1789) and submits it to the Peace Corps for a preliminary review of their health history and self identified needs for medical support. If a Candidate is invited to serve, the Candidate is sent a Report of Medical Examination (PC-1790 S) and a Report of Dental Evaluation (PC-1790 Dental S) form to be completed by the Candidate and the Candidate's examining physician and dentist. The Health History form and the Report of Medical and Dental Exam forms are reviewed in the Peace Corps
