SUPPLEMENTARY INFORMATION:

Background

On May 25, 2007, the President signed into law the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (the Act), [Pub. L. 110–28, 121 Stat. 112, 183, May 25, 2007]. Section 6901 of the Act requires that certain actions be taken by the Department of Transportation (the Department) as a condition of obligating or expending appropriated funds to grant authority to Mexico-domiciled motor carriers to operate beyond the municipalities in the United States on the United States-Mexico international border or the commercial zones of such municipalities (border commercial zones).

On July 8, 2011, FMCSA announced in the **Federal Register** [76 FR 40420] its intent to proceed with the initiation of a U.S.-Mexico cross-border long-haul trucking pilot program to test and demonstrate the ability of Mexico-domiciled motor carriers to operate safely in the United States beyond the border commercial zones as detailed in the Agency’s April 13, 2011, **Federal Register** notice [76 FR 20807]. The pilot program is a part of FMCSA’s implementation of the North American Free Trade Agreement (NAFTA) cross-border long-haul trucking provisions in compliance with section 6901(b)(2)(B) of the Act. FMCSA reviewed, assessed, and evaluated the required safety measures as noted in the July 8, 2011, notice and considered all comments received on or before May 13, 2011, in response to the April 13, 2011, notice. Additionally, to the extent practicable, FMCSA considered comments received after May 13, 2011.

In accordance with section 6901(b)(2)(B)(i) of the Act, FMCSA is required to publish in the **Federal Register**, and provide sufficient opportunity for public notice and comment, comprehensive data and information on the PASAs conducted of motor carriers domiciled in Mexico that are granted authority to operate beyond the border commercial zones. This notice serves to fulfill this requirement.

FMCSA is publishing for public comment the data and information relating to one PASA that was completed on August 25, 2011. FMCSA announces that the Mexico-domiciled motor carrier in Table 1 successfully completed its PASA. Notice of this completion was also published in the FMCSA Register.

Tables 2, 3 and 4 “Successful Pre-Authorization Safety Audit (PASA) Information” set out additional information on the carrier noted in Table 1. A narrative description of each column in the tables is provided as follows:

A. *Row Number in the Appendix for the Specific Carrier*: The row number for each line in the tables.

B. *Name of Carrier*: The legal name of the Mexico-domiciled motor carrier that applied for authority to operate in the United States (U.S.) beyond the border commercial zones and was considered for participation in the long-haul pilot program.

C. *U.S. DOT Number*: The identification number assigned to the Mexico-domiciled motor carrier and required to be displayed on each side of the motor carrier’s power units. If granted provisional operating authority, the Mexico-domiciled motor carrier will be required to add the suffix “X” to the ending of its assigned U.S. DOT Number for those vehicles approved to participate in the pilot program.

D. *PASA Initiated*: The date the PASA was initiated.

E. *PASA Completed*: The date the PASA was completed.

F. *PASA Results*: The results upon completion of the PASA. The PASA receives a quality assurance review before approval. The quality assurance process involves a dual review by the FMCSA Division Office supervisor of the auditor assigned to conduct the PASA and by the FMCSA Service Center New Entrant Specialist designated for the specific FMCSA Division Office. This dual review ensures the successfully completed PASA was conducted in accordance with FMCSA policy, procedures and guidance. Upon approval, the PASA results are uploaded into the FMCSA’s Motor Carrier Management Information System (MCMIS). The PASA information and results are then recorded in the Mexico-domiciled motor carrier’s safety performance record in MCMIS.

G. *FMCSA Register*: The date FMCSA published notice of a successfully completed PASA in the FMCSA Register. The FMCSA Register notice advises interested parties that the application has been preliminarily granted and that protests to the application must be filed within 10 days of the publication date. Protests are filed with FMCSA Headquarters in Washington, DC. The notice in the FMCSA Register lists the following information:

a. Current registration number (e.g., MX–123456);

b. Date the notice was published in the FMCSA Register;

c. The applicant's name and address; and

d. Representative or contact information for the applicant.

H. *U.S. Drivers*: The total number of the motor carrier's drivers approved for long-haul transportation in the United States beyond the border commercial zones.

I. *U.S. Vehicles*: The total number of the motor carrier's power units approved for long-haul transportation in the United States beyond the border commercial zones.

J. *Passed Verification 5 Elements (Yes/No)*: A Mexico-domiciled motor carrier will not be granted provisional operating authority if FMCSA cannot verify all of the following five mandatory elements. FMCSA must:

a. Verify a controlled substances and alcohol testing program consistent with 49 CFR part 40.

b. Verify a system of compliance with hours-of-service rules of 49 CFR part 395, including recordkeeping and retention;

c. Verify the ability to obtain financial responsibility as required by 49 CFR 387, including the ability to obtain insurance in the United States;

d. Verify records of periodic vehicle inspections; and

e. Verify the qualifications of each driver the carrier intends to use under such authority, as required by 49 CFR parts 383 and 391, including confirming the validity of each driver's Licencia Federal de Conductor and English language proficiency.

K. *If No, Which Element Failed*: If FMCSA cannot verify one or more of the five mandatory elements outlined in 49 CFR part 365, Appendix A, Section III, this column will specify which mandatory element(s) cannot be verified.

Please note that for items L through P below, during the PASA, after verifying the five mandatory elements discussed in item J above, FMCSA will gather information by reviewing a motor carrier's compliance with "acute and critical" regulations of the Federal Motor Carrier Safety Regulations (FMCSRs) and Hazardous Materials Regulations (HMRs). Acute regulations are those where noncompliance is so severe as to require immediate corrective actions by a motor carrier regardless of the overall basic safety management controls of the motor carrier. Critical regulations are those where noncompliance relates to management and/or operational controls. These regulations are

indicative of breakdowns in a carrier's management controls. A list of acute and critical regulations is included in 49 CFR part 385, Appendix B, Section VII.

Parts of the FMCSRs and HMRs having similar characteristics are combined together into six regulatory areas called "factors." The regulatory factors are intended to evaluate the adequacy of a carrier's management controls.

L. *Passed Phase 1, Factor 1*: A "yes" in this column indicates the carrier has successfully met Factor 1 (listed in part 365, Subpart E, Appendix A, Section IV(f)). Factor 1 includes the General Requirements outlined in parts 387 (Minimum Levels of Financial Responsibility for Motor Carriers) and 390 (Federal Motor Carrier Safety Regulations—General).

M. *Passed Phase 1, Factor 2*: A "yes" in this column indicates the carrier has successfully met Factor 2, which includes the Driver Requirements outlined in parts 382 (Controlled Substances and Alcohol Use and Testing), 383 (Commercial Driver's License Standards; Requirements and Penalties) and 391 (Qualifications of Drivers and Longer Combination Vehicle (LCV) Driver Instructors).

N. *Passed Phase 1, Factor 3*: A "yes" in this column indicates the carrier has successfully met Factor 3, which includes the Operational Requirements outlined in parts 392 (Driving of Commercial Motor Vehicles) and 395 (Hours of Service of Drivers).

O. *Passed Phase 1, Factor 4*: A "yes" in this column indicates the carrier has successfully met Factor 4, which includes the Vehicle Requirements outlined in parts 393 (parts and Accessories Necessary for Safe Operation) and 396 (Inspection, Repair and Maintenance) and vehicle inspection and out-of-service data for the last 12 months.

P. *Passed Phase 1, Factor 5*: A "yes" in this column indicates the carrier has successfully met Factor 5, which includes the hazardous material requirements outlined in parts 171 (General Information, Regulations, and Definitions), 177 (Carriage by Public Highway), 180 (Continuing Qualification and Maintenance of Packagings) and 397 (Transportation of Hazardous Materials; driving and parking rules).

Q. *Passed Phase 1, Factor 6*: A "yes" in this column indicates the carrier has successfully met Factor 6, which includes Accident History. This factor is the recordable accident rate during the past 12 months. A recordable "accident" is defined in 49 CFR 390.5,

and means an accident involving a commercial motor vehicle operating on a public road in interstate or intrastate commerce which results in: a fatality; a bodily injury to a person who, as a result of the injury, immediately received medical treatment away from the scene of the accident; or one or more motor vehicles incurring disabling damage as a result of the accident requiring the motor vehicle to be transported away from the scene by a tow truck or other motor vehicle.

R. *Number U.S. Vehicles Inspected*: The total number of vehicles (power units) the motor carrier is approved to operate in the United States beyond the border commercial zones and that received a vehicle inspection during the PASA. During a PASA, FMCSA inspected all power units to be used by the motor carrier in the pilot program and applied a current Commercial Vehicle Safety Alliance (CVSA) inspection decal. This number reflects the vehicles that were inspected, irrespective of whether the vehicle received a CVSA inspection decal as a result of a passed inspection.

S. *Number U.S. Vehicles Issued CVSA Decal*: The total number of inspected vehicles (power units) the motor carrier is approved to operate in the United States beyond the border commercial zones that received a CVSA inspection decal as a result of an inspection during the PASA.

T. *Controlled Substances Collection*: Refers to the applicability and/or country of origin of the controlled substance and alcohol collection facility that will be used by a motor carrier that has successfully completed the PASA.

a. "US" means the controlled substance and alcohol collection facility is based in the United States.

b. "MX" means the controlled substance and alcohol collection facility is based in Mexico.

c. "Non-CDL" means that during the PASA, FMCSA verified that the motor carrier is not utilizing commercial motor vehicles subject to the commercial driver's license requirements as defined in 49 CFR 383.5 (Definition of Commercial Motor Vehicle). Any motor carrier that does not operate commercial motor vehicles as defined in § 383.5 is not subject to DOT controlled substance and alcohol testing requirements.

U. *Name of Controlled Substances and Alcohol Collection Facility*: Shows the name and location of the controlled substances and alcohol collection facility that will be used by a Mexico-domiciled motor carrier who has successfully completed the PASA.

TABLE 1

Row number in Tables 2, 3 and 4 of the Appendix to today's notice	Name of carrier	USDOT No.

To date, no carriers have failed the PASA. Although failure to successfully complete the PASA precludes the carrier from being granted authority to participate in the long-haul pilot program, and the Act only requires publication of data for carriers receiving operating authority, FMCSA will publish this information to show motor carriers that failed to meet U.S. safety standards.

Request for Comments

In accordance with the Act, FMCSA requests public comment from all interested persons on the PASA information presented in this notice. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the ADDRESSES section of this notice. Comments received after the comment closing date will be filed in the public docket and

will be considered to the extent practicable. In addition to late comments, the FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

This notice identifies information collection requests that PHMSA will be submitting to OMB for renewal and extension. These information collections are contained in 49 CFR 171.6 of the Hazardous Materials Regulations (HMR; 49 CFR parts 171-180). PHMSA has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on changes in proposed or final rules published since the information collections were last approved. PHMSA will request a three-year term of approval for each information collection activity and, when approved by OMB, publish a notice of the approval in the **Federal Register**.

PHMSA requests comments on the following information collections:

Title: Testing, Inspection, and Marking Requirements for Cylinders.

OMB Control Number: 2137-0022.

Summary: Requirements in § 173.301 for qualification, maintenance and use of cylinders require that cylinders be periodically inspected and retested to ensure continuing compliance with packaging standards. Information collection requirements address registration of retesters and marking of cylinders by retesters with their identification number and retest date following the completion of required tests. Records showing the results of inspections and retests must be kept by the cylinder owner or designated agent until expiration of the retest period or until the cylinder is re-inspected or retested, whichever occurs first. These requirements are intended to ensure that

retesters have the qualifications to perform tests and to identify to cylinder fillers and users that cylinders are qualified for continuing use. Information collection requirements in § 173.303 require that fillers of acetylene cylinders keep, for at least 30 days, a daily record of the representative pressure to which cylinders are filled.

Affected Public: Fillers, owners, users and retesters of reusable cylinders.

Recordkeeping:

Number of Respondents: 139,352.

Total Annual Responses: 153,287.

Total Annual Burden Hours: 171,642.

Frequency of collection: On occasion.

Title: Hazardous Materials Security Plans.

OMB Control Number: 2137-0612.

Summary: To assure public safety, shippers and carriers must take reasonable measures to plan and implement procedures to prevent unauthorized persons from taking control of, or attacking, hazardous materials shipments. Part 172 of the HMR requires persons who offer or transport certain hazardous materials to develop and implement written plans to enhance the security of hazardous materials shipments. The security plan requirement applies to shipments of: (1) A highway route-controlled quantity of a Class 7 (radioactive) material; (2) more than 25 kg (55 lbs) of a Division 1.1, 1.2, or 1.3 (explosive) material; (3) more than 1 L (1.06 qt) per package of a material poisonous by inhalation in hazard zone A; (4) a shipment of hazardous materials in a bulk packaging with a capacity equal to or greater than 13,248 L (3,500 gal) for liquids or gases, or greater than 13.24 cubic meters (468 cubic feet) for solids; (5) a shipment that requires placarding; and (6) select agents. Select agents are infectious substances identified by CDC as materials with the potential to have serious consequences for human health and safety if used illegitimately. A security plan will enable shippers and carriers to reduce the possibility that a hazardous materials shipment will be used as a weapon of opportunity by a terrorist or criminal.

Affected Public: Shippers and carriers of hazardous materials in commerce.

Recordkeeping:

Number of Respondents: 54,999.

Total Annual Responses: 44,880.

Total Annual Burden Hours: 372,064.

Frequency of collection: On occasion.

Title: Subsidiary Hazard Class and Number/Type of Packagings.

OMB Control Number: 2137-0613.

Summary: The HMR require that shipping papers and emergency response information accompany each shipment of hazardous materials in
