

1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The OMB is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Type of Review: Extension.

Title of Collection: DC School Choice Incentive Program.

OMB Control Number: 1855-0015.

Agency Form Number(s): N/A.

Frequency of Responses: Annually.

Affected Public: Individuals or households; not-for-profit institutions.

Total Estimated Number of Annual Responses: 3,000.

Total Estimated Annual Burden Hours: 1,000.

Abstract: The DC School Choice Incentive Program, authorized by the Consolidated Appropriations Act of 2004, awarded a grant to the DC Children and Youth Investment Trust Corporation that will administer scholarships to students who reside in the District of Columbia and come from households whose incomes do not exceed 185% of the poverty line. Priority is given to students who are currently attending schools in need of improvement, as defined by Title I. To assist in the student selection and assignment process, the information to be collected will be used to determine the eligibility of those students who are interested in the available scholarships. Also, since the authorizing statute requires an evaluation we are proposing to collect certain family demographic information because they are important predictors of school success. Finally, we

are asking to collect information about parental participation and satisfaction because these are key topics that the statute requires the evaluation to address.

Federal Energy Regulatory Commission

[Project No. 67-126]

Southern California Edison Company; Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Request for temporary variance of the minimum reservoir elevation requirement for Shaver Lake Reservoir, pursuant to Article 37 (c) of the Big Creek No. 2A and No. 8 Hydroelectric Project.

b. *Project No.:* 67-126.

c. *Date Filed:* August 8, 2011.

d. *Applicant:* Southern California Edison Company.

e. *Name of Project:* Big Creek No. 2A and No. 8 Hydroelectric Project (P-67)

f. *Location:* The Big Creek No. 2A and No. 8 Hydroelectric Project is located on various streams which are tributaries of the San Joaquin River in Fresno County, California. The project occupies federal lands within the Sierra National Forest.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r)

h. *Applicant Contact:* Mr. Michael Murphy, Southern California Edison Company, P.O. Box 100, Big Creek, California 93605, Tel: (559) 893-2033, *Micheal.murphy@sce.com*.

i. *FERC Contact:* Kelly Houff, (202) 502-6393, *Kelly.Houff@ferc.gov*.

j. *Deadline for filing comments, motions to intervene, and protests:* 15 days from the issuance date of this notice.

All documents may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters,

without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at *FERCOnlineSupport@ferc.gov* or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please include the project number (P-67-126) on any documents or motions filed.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* Southern California Edison Company requests a temporary variance of its minimum reservoir elevation requirement of Shaver Lake, pursuant to Article 37 (c) of the license. Southern California Edison requests to completely dewater the Shaver Lake Reservoir from October 1, 2011 to April 30, 2012, to facilitate the installation of a geomembrane liner on the bottom half of the upstream face of Shaver Dam. Southern California Edison Company proposes to drain Shaver Lake to natural stream flow by way of the low level outlet valve on the dam and tunnel five through Powerhouse No. 2A. The millpond cofferdam used when Shaver Lake was filled in 1927 may be used to impound some water but because it is so old, inflatable cofferdams will be used if necessary to insure the construction site remains dewatered.

Southern California Edison Company states in its temporary variance request that as the lake is drawn down, daily inspections will be performed to determine the impact on fish species as well as conducting fish rescues if stranding is found. Once lake levels have stabilized, a qualified biologist will survey the area four times as week to collect and record any fish mortality. Any fish mortality that occurred during the dewatering of the lake will be replaced.
