

Revocation

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested party files a notice of intent to participate, the Department shall issue a final determination revoking the order within 90 days of the initiation of the review. Because no domestic interested party filed a timely notice of intent to participate in the sunset reviews, the Department finds that no domestic interested party is participating in the sunset reviews. Therefore, we are revoking the antidumping duty orders on ball bearings and parts thereof from France, Germany, and Italy. The effective date of revocation is September 15, 2011, the fifth anniversary of the continuation of the antidumping duty orders. See *Tapered Roller Bearings and Parts Thereof from the People's Republic of China and Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Continuation of Antidumping Duty Orders*, 71 FR 54469 (September 15, 2006).

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.222(i)(2)(i), the Department intends to issue instructions to U.S. Customs and Border Protection to terminate the suspension of liquidation of entries of the merchandise subject to the orders which were entered, or withdrawn from warehouse, for consumption on or after September 15, 2011. Entries of subject merchandise prior to September 15, 2011, will continue to be subject to the suspension of liquidation and requirements for deposits of estimated antidumping duties. The Department will conduct administrative reviews of the orders with respect to subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

These final results of the five-year (sunset) reviews and notice are published in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: September 9, 2011.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On June 28, 2011, the Department of Commerce (the Department) published a notice of initiation of an administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Taiwan. The review covers eight firms. Based on a withdrawal of the requests for review of certain companies from United States Steel Corporation (Petitioner), we are now rescinding this administrative review with respect to six of those firms.

DATES: *Effective Date:* September 15, 2011.

FOR FURTHER INFORMATION CONTACT: Steve Bezirgianian or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1131 or (202) 482-0649, respectively.

Background

On June 28, 2011, the Department published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Taiwan covering the period May 1, 2010, through April 30, 2011. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 76 FR 37781 (June 28, 2011). The review covers eight companies. The Petitioner was the sole party to request reviews of these eight companies.

On August 8, 2011, the Petitioner withdrew its request for an administrative review for the following six companies: (1) E United Group; (2) Yieh Corp.; (3) Yieh Hsing Enterprise Co., Ltd.; (4) Far East Machinery Co. Ltd.; (5) Kao Hsing Chang Iron & Steel Corp. (also known as Kao Hsiung Chang Iron & Steel Corp.); and (6) Tension Steel Industries Co. Ltd.

Partial Rescission

The applicable regulation, 19 CFR 351.213(d)(1), states that if a party that requested an administrative review

withdraws the request within 90 days of the publication of the notice of initiation of the requested review, the Secretary will rescind the review. The Petitioner withdrew its review request with respect to six companies within the 90-day deadline, in accordance with 19 CFR 351.213(d)(1).

Therefore, in accordance with section 351.213(d)(1) of the Department's regulations, we are partially rescinding this review with respect to the following six companies: (1) E United Group; (2) Yieh Corp.; (3) Yieh Hsing Enterprise Co., Ltd.; (4) Far East Machinery Co. Ltd.; (5) Kao Hsing Chang Iron & Steel Corp. (also known as Kao Hsiung Chang Iron & Steel Corp.); and (6) Tension Steel Industries Co. Ltd. This review will continue with respect to Yieh Phui Enterprise Co., Ltd. and Chung Hung Steel Corp.

Assessment Instructions

The Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For the companies for which this review is rescinded, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

Notification to Importers

This notice serves as a final reminder to importers for whom this review is being rescinded of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO

materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: September 7, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Background

On April 1, 2011, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on magnesium metal from the PRC for the period April 1, 2010 through March 31, 2011.³ On May 2, 2011, U.S. Magnesium LLC ("U.S. Magnesium"), a domestic producer and Petitioner in the underlying investigation of this case, made a timely request that the Department conduct an administrative review of TMI.⁴ On May 27, 2011, in accordance with section 751(a) of the Tariff Act of 1930, as amended ("the Act"), the Department published in the **Federal Register** a notice of initiation of this antidumping duty administrative review.⁵ On June 14, 2011, TMI submitted a letter to the Department certifying that it did not export magnesium metal for sale in the United States during the POR and that it did not make entries of such merchandise into the United States during the POR.⁶

On June 20, 2011, the Department placed on the record information obtained in response to the Department's query to CBP concerning imports into the United States of subject merchandise during the POR.⁷ This data indicates that there were no entries of subject merchandise during the POR that had been exported by TMI. Scope of the Order

The product covered by this antidumping duty order is magnesium metal from the PRC, which includes primary and secondary alloy magnesium metal, regardless of chemistry, raw material source, form, shape, or size. Magnesium is a metal or alloy containing by weight primarily the element magnesium. Primary magnesium is produced by decomposing raw materials into magnesium metal. Secondary magnesium is produced by recycling magnesium-based scrap into magnesium metal. The magnesium covered by this order includes blends of primary and secondary magnesium.

The subject merchandise includes the following alloy magnesium metal products made from primary and/or secondary magnesium including, without limitation, magnesium cast into ingots, slabs, rounds, billets, and other shapes; magnesium ground, chipped, crushed, or machined into rasping, granules, turnings, chips, powder, briquettes, and other shapes; and products that contain 50 percent or greater, but less than 99.8 percent, magnesium, by weight, and that have been entered into the United States as conforming to an "ASTM Specification for Magnesium Alloy"⁹ and are thus outside the scope of the existing antidumping orders on magnesium from the PRC (generally referred to as "alloy" magnesium).

The scope of this order excludes: (1) All forms of pure magnesium, including chemical combinations of magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight, that do not conform to an "ASTM Specification for Magnesium Alloy"¹⁰; (2) magnesium that is in liquid or molten form; and (3) mixtures containing 90 percent or less magnesium in granular or powder form by weight and one or more of certain non-magnesium granular materials to

⁹ The meaning of this term is the same as that used by the American Society for Testing and Materials in its Annual Book for ASTM Standards: Volume 01.02 Aluminum and Magnesium Alloys.

¹⁰ The material is already covered by existing antidumping orders.
