AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* State Balancing Incentive Payments Program (BIPP); *Use:* The Balancing Incentive Program requires that States undertake three structural changes to their long-term services and supports (LTSS) systems to increase nursing home diversions and access to community-based care: implementation of a No Wrong Door/Single Entry Point System, conflict-free case management, and the use of a core standardized assessment for supporting eligibility determination and service planning. In addition, grantee States must increase their community-based LTSS expenditures relative to their overall expenditures on LTSS to a minimum of 25% or 50%. State Medicaid agencies are responsible for developing the submissions to CMS in order to participate in this opportunity. If the statutory requirements are met, CMS will approve the State's submission, giving the State the authority to implement the changes in the program and to draw down the increased FMAP funds. *Form Number:* CMS-10411 (OMB 0938-1145); *Frequency:* Once; *Affected Public:* State, Local, or Tribal Government; *Number of Respondents:* 56; *Total Annual*
