DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Registry of Evidence-Based Programs and Practices

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice Regarding Substance Abuse and Mental Health Services Administration's National Registry of Evidence-based Programs and Practices (NREPP): Open Submission Period for Fiscal Year 2012.

SUMMARY: The mission of the Substance Abuse and Mental Health Services Administration (SAMHSA) is to reduce

the impact of substance abuse and mental illness on America's communities. Established in 1992, the Agency was directed by Congress to target effective substance abuse and mental health services to the people most in need, and to translate research in these areas more effectively and more rapidly into the general health care system. The National Registry of Evidence-based Programs and Practices (NREPP) is a key public resource SAMHSA has developed to help meet this directive. This notice announces NREPP's open submission period for Fiscal Year 2012, during which developers of interventions may submit an application for a potential review. The notice explains how submissions will be screened and selected, and provides guidance on the submission process. Potential applicants should be aware that this notice includes updated information relating to the eligibility of interventions and the review process that supersedes guidance provided in earlier **Federal Register** notices.

FOR FURTHER INFORMATION CONTACT:

Kevin D. Hennessy, Ph.D., Science to Service Coordinator, Center for Behavioral Health Statistics and Quality, SAMHSA, 1 Choke Cherry Road, Room 2-1017, Rockville, MD 20857, telephone 240-276-2234.

Substance Abuse and Mental Health Services Administration's National Registry of Evidence-Based Programs and Practices (NREPP): Open Submission Period for Fiscal Year 2012

Background

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Registry of Evidence-based Programs and Practices (NREPP) is a voluntary rating system designed to provide the public with reliable information about interventions that promote mental health or prevent or treat mental disorders, substance abuse, substance use disorders, and/or co-occurring disorders. Programs and practices that are accepted for inclusion in the registry undergo two independent review processes in which their (1) Quality of research and (2) readiness for dissemination are evaluated and rated. The results of these reviews are published on the NREPP Web site (<http://nrepp.samhsa.gov>).

It should be noted that inclusion in NREPP does not constitute endorsement of an intervention by SAMHSA. Moreover, since NREPP has not reviewed all interventions, the use of

NREPP as an exclusive or exhaustive list of interventions is not appropriate. Policymakers and funders in particular are discouraged from limiting contracted providers and/or potential grantees to selecting only among NREPP interventions.

This notice announces the next open submission period during which SAMHSA will consider and accept new applications for review, describes the minimum requirements and other considerations that will be used in screening and selecting interventions, and provides guidance on the submission process.

Dates of Open Submission Period

SAMHSA has established a 3-month period for receipt of NREPP submissions for Fiscal Year 2012 that will begin November 1, 2011, and end February 1, 2012. Interventions submitted after February 1, 2012, will not be considered during this submission cycle. Program developers, researchers, and others interested in submitting an intervention should read this notice for information about current minimum requirements, and examine the information provided on the NREPP Web site about the review process and criteria (<http://nrepp.samhsa.gov/Reviews.aspx>) and guidance for preparing an intervention for submission ([http://nrepp.samhsa.gov/](http://nrepp.samhsa.gov/SubmissionCourse.aspx)

[SubmissionCourse.aspx](http://nrepp.samhsa.gov/SubmissionCourse.aspx)). The selection of interventions will take place after the closing of the open submission period, and applicants will be informed of their acceptance status at that time. The number of reviews conducted will depend on the availability of funds, with the final selection of interventions and the timing of reviews to be determined at the discretion of SAMHSA.

In submitting an intervention, applicants understand that the results of NREPP reviews are considered public information and will be posted on the NREPP Web site. Once a review is completed, the applicant will be provided with a summary document ("intervention summary") that presents ratings and descriptive information about the intervention. Anyone that consents to a review is expected to authorize publication of the intervention summary on the NREPP Web site. If a summary is completed and consent is not given to publish the summary, a statement to that effect will be posted on the NREPP Web site.

Applicants are encouraged to view examples of NREPP intervention summaries on the NREPP Web site to become familiar with the end product of the review process.
