

such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart TTTT, and 40 CFR part 63, subpart A, as authorized in sections 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information estimated to average 33 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Leather finishing operations.

**Estimated Number of Respondents:** 10.

**Frequency of Response:** Initially, occasionally, and annually.

**Estimated Total Annual Hour Burden:** 334.

**Estimated Total Annual Cost:** \$31,495.00, inclusion of labor costs. There are no capital/startup costs, and no operation and maintenance (O&M) costs.

**Changes in the Estimates:** There is no change in the labor hours in this ICR as compared to the Previous ICR. This situation is due to two considerations: (1) the regulations have not changed over the past three years and not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative, or non-existent, so there is no significant change in the overall burden. There is, however, an increase in the estimated burden cost as currently identified in the OMB Inventory of Approved ICR Burdens. The increase is not due to any program changes. The change in burden

cost is due to the use of the most updated labor rates.

**SUPPLEMENTARY INFORMATION:**

#### How can I access the docket and/or submit comments?

The EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OW-2008-0357, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Water Docket is 202-566-2426.

Use <http://www.regulations.gov> to obtain a copy of the draft collection of

information, submit or view public comments, access the index listing of the contents of the docket, and access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified in this document.

#### What information is the EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, the EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that the EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

#### What should I consider when I prepare my comments for the EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by the EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your

response. You may also provide the name, date, and **Federal Register** citation.

#### What information collection activity or ICR does this apply to?

*Affected entities:* Entities potentially affected by this action are environmental and public health agencies in coastal and Great Lakes states, territories, and tribes.

*Title:* Reporting Requirements for BEACH Act Grants (Renewal).

*ICR numbers:* EPA ICR No. 2048.04, OMB Control No. 2040-0244.

*ICR status:* This ICR is currently scheduled to expire on January 31, 2012. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* The Beaches Environmental Assessment and Coastal Health (BEACH) Act amends the Clean Water Act (CWA) in part and authorizes the U.S. Environmental Protection Agency (EPA) to award BEACH Act Program Development and Implementation Grants to coastal and Great Lakes states, tribes, and territories (collectively referred to as states) for their beach monitoring and notification programs. The grants will assist those states to develop and implement a consistent approach to monitor recreational water quality; assess, manage, and communicate health risks from waterborne microbial contamination; notify the public of pollution occurrences; and post beach advisories and closures to prevent public exposure to microbial pathogens. To qualify for a BEACH Act Grant, a state must submit information to the EPA documenting that its beach monitoring and notification program is consistent with nine performance criteria outlined in the *National Beach Guidance and Required Performance Criteria for Grants*. For the EPA to award a BEACH Implementation Grant, a state must document that its coastal monitoring and notification program includes or will include the following:

- A risk-based beach evaluation and classification plan.

- A sampling design and monitoring implementation plan.
- Monitoring report submission and delegation procedures.
- Methods and assessment procedures.
- A public notification and risk communication plan.
- Measures to notify the EPA and local governments.
- Measures to notify the public.
- Notification report submission and delegation procedures.
- Public evaluation of the program.

Beach program information will be collected by the EPA's Office of Science and Technology and the applicable EPA regions. All information except the monitoring and notification reports will be stored in the applicable regions. The monitoring and notification information will be stored in the eBEACHES Database and displayed on the EPA's Beaches Web site for use by the public, state environmental and public health agencies, and the EPA.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2,400 hours per respondent. This burden represents reports and accompanying data to be submitted each year by the 37 eligible states and territories. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

*Estimated total number of potential respondents:* 37.

*Frequency of response:* Submitting monitoring and notification reports: quarterly; all other reporting: annual.

*Estimated total average number of responses for each respondent:* 4.

*Estimated total annual burden hours:* 88,812.

*Estimated total annual costs:* \$11,463,642. This includes an estimated burden cost of \$7,520,562 and an

estimated cost of \$3,943,080 for maintenance and operational costs.

#### Are there changes in the estimates from the last approval?

There is an increase of 26 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects the EPA's expectation that states will voluntarily report monitoring and notification data more frequently, in order to improve public health protection at beaches through increased timeliness of water quality results at beaches nationwide. This change also reflects the EPA's expectation that no new jurisdictions will become eligible for BEACH Act grant in the next three years.

#### What is the next step in the process for this ICR?

The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, the EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
