

now proposed, ADIS will be a DHS-wide system to serve certain programs, including those of the intelligence community, that require information, in support of the DHS mission, on individuals who seek to enter or who have arrived in or departed from the U.S. US-VISIT has conducted this PIA update based on these proposed changes.

System: DHS/TSA/PIA-0018(b) Secure Flight Program Update.

Component: TSA.

Date of approval: August 15, 2011.

The Secure Flight program will match identifying information of aviation passengers and certain non-travelers against the No Fly and Selectee portions of the consolidated and integrated terrorist watch list and, if warranted by security considerations, other watch lists maintained by the Federal government. The TSA published a Final Rule and PIA in October 2008, outlining TSA's expected implementation of the Secure Flight program. This update reflects changes in the Secure Flight operational environment. Unless otherwise noted, the information provided in previously published PIAs remain in effect. Individuals are encouraged to read all program PIAs to have an understanding of TSA's privacy assessment of the Secure Flight program.

System: DHS/ALL/PIA-040 Electronic Patient Care Reporting System (ePCR).

Component: DHS.

Date of approval: August 25, 2011.

The DHS Office of Health Affairs (OHA) is implementing a Web-based Commercial off the Shelf Internet software service called the ePCR. The ePCR system will establish a standardized approach to document care rendered by DHS Emergency Medical Services (EMS) medical care providers in pre-hospital environments. The system will also enhance OHA's capability to evaluate quality of care delivery, quality assurance, performance improvement, and risk management activities. OHA conducted this PIA because accurate documentation and quality assurance of EMS care provided necessarily includes gathering PII from patient encounters.

System: DHS/USCIS/PIA-0015(a) Computer Linked Application Information Management System (CLAIMS 4) Update.

Component: USCIS.

Date of approval: August 31, 2011.

The USCIS is publishing this update to the PIA for the CLAIMS 4 dated September 5, 2008. CLAIMS 4 is an electronic case management system used to track and process applications for naturalization. The purpose of this

update is to: (1) Discuss the disposition of the Change of Address subsystem; (2) discuss the disposition of the Complete File Review subsystem; (3) describe the new privacy impacts associated with the exchange of zip codes between the Site Profile System and CLAIMS 4; (4) describe the new privacy impacts associated with the capturing of certain digitized biometric images through the Benefits Biometric Support System; and (5) provide notice of a pilot program under which DHS is expanding the sharing of CLAIMS 4 data with the National Counterterrorism Center in support of DHS's mission to protect the U.S. from potential terrorist activities.

SUPPLEMENTARY INFORMATION:

The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA), Public Law 109–205, as amended by the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110–53, established an annual requirement for a State Preparedness Report (SPR). A State receiving Federal preparedness assistance administered by the Federal Emergency Management Agency (FEMA) must submit a report to the FEMA Administrator on the State's level of preparedness. Each report must include an assessment of current capability levels and a description of target capability levels, and an assessment of resources needed to meet the preparedness priorities established under PKEMRA Section 646(e). The resource assessments must include (i) An estimate of the amount of expenditures required to attain the preparedness priorities; and (ii) the extent to which the use of Federal assistance during the preceding fiscal year achieved the preparedness priorities.

In order to comply with PKEMRA's requirement for annual assessments, the SPR data needs to be collected from States by the end of calendar year 2011. The use of normal clearance procedures will not allow timely collection of this information until 2012. Emergency authorization is thus necessary to comply with the requirements of PKEMRA.
