

Mainstreet Rejuvenation and Housing Act of 2003 (Pub. L. 108–186, 117 Stat. 2685, approved December 16, 2003); and the Omnibus Appropriations Act, 2009 (Pub. L. 111–8, approved March 11, 2009). The purpose of the HOPE VI Main Street program is to provide grants to small communities to assist in the rejuvenation of an historic or traditional central business district or “Main Street” area by replacing unused commercial space in buildings with affordable housing units. The objectives of the program are to (1) redevelop Main Street areas; (2) preserve historic or traditional architecture or design features in Main Street areas; (3) enhance economic development efforts in Main Street areas; and (4) provide affordable housing in Main Street areas.

On November 11, 2009, HUD posted its FY2009 Main Street Grants program NOFA to Grants.gov. This made approximately \$4 million in assistance available for the competition. Prior to the application due date, the Department added \$1.5 million to the competition from assistance appropriated by the Department of Housing and Urban Development Consolidated Appropriations Act, 2010 (Pub. L. 111–117 approved December 16, 2009). The Department reviewed, evaluated and scored the applications received based on the criteria in the FY2009 NOFA. As a result, HUD has funded the applications announced in Appendix A, and in accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is hereby publishing details concerning the recipients of funding awards in Appendix A of this document.

In accordance with Section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the names, addresses, and amounts of the five (5) awards made

under FY 2009–10 HOPE VI Main Street NOFA.

Sandra B. Henriquez,
Assistant Secretary for Public and Indian Housing.

SUPPLEMENTARY INFORMATION:**Introduction**

With this notice, we finalize the CCP process for Mason Neck and Featherstone NWRs. We started this process through a notice of intent in the **Federal Register** (72 FR 28066) on May 18, 2007. We released the draft CCP/environmental assessment (EA) to the public, announcing and requesting comments in a notice of availability in the **Federal Register** (76 FR 582) on January 5, 2011.

Mason Neck and Featherstone NWRs, together with Occoquan Bay NWR, comprise the Potomac River NWR Complex, which is headquartered in Woodbridge, Virginia. Mason Neck NWR was established in 1969 as the first NWR specifically created to protect a Federally listed species. The refuge was created under the authority of the Endangered Species Preservation Act of 1966, the precursor to the Endangered Species Act of 1973. The bald eagle (*Haliaeetus leucocephalus*), which was Federally listed as threatened in 1969, was, and continues to be, the focal species of concern on the refuge. Due to successful recovery efforts throughout its range, the bald eagle was officially removed from the Federal List of Endangered and Threatened Wildlife (50 CFR 17.11(h)) in 2007. It continues to be protected, however, under other Federal laws and State law in Virginia. Mason Neck NWR encompasses 2,277 acres of forest, marsh, and riverine habitat along Occoquan Bay and the mainstem of the tidal Potomac River. Refuge visitors engage in wildlife observation and photography, environmental education and interpretation, and deer hunting.

Featherstone NWR was established in 1979 with land acquired from the District of Columbia. It was further expanded in 1992 with lands donated

by Prince William County. It presently encompasses 325 acres of marsh and forested riverine habitat along the southwest edge of Occoquan Bay. Its wetlands are important habitat for bald eagles, wading birds, waterbirds, and waterfowl, as well as other native species of conservation concern. The refuge has been closed to public use and access since its establishment because there is no public parking available or safe access across active railroad tracks, which lie along the length of the refuge's western boundary.

We announce our decision and the availability of the FONSI for the final CCP for Mason Neck and Featherstone NWRs in accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements. We completed a thorough analysis of impacts on the human environment, which we included in the draft CCP/EA.

The CCP will guide us in managing and administering Mason Neck and Featherstone NWRs for the next 15 years. Alternative B, as described for both refuges in the draft CCP/EA, and with the modifications described below, is the foundation for the final CCP.

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each NWR. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years
