[Document Identifier: OS-0990-New; 60-Day Notice]

Agency Information Collection Request; 60-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed information collection request for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the

proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to *Sherette.funncoleman@hhs.gov*, or call the Reports Clearance Office on (202) 690-6162. Written comments and recommendations for the proposed information collections must be directed to the OS Paperwork Clearance Officer at the above e-mail address within 60-days.

Proposed Project: Patient Centered Care Collaboration to Improve Minority Health, OMB# 0990-New, Office of Minority Health.

Abstract: The Office of Minority Health (OMH) in the Office of the Assistant Secretary for Health (OASH), Office of the Secretary (OS) is requesting approval from the Office of Management and Budget (OMB) for new data collection activities for the Patient Centered Care Collaboration to Improve Minority Health project (PCCC). This dissemination and adoption initiative funded in 2010, under the ARRA, 2009, through the Office of Minority Health and the Agency for Health Care Quality supports dissemination and adoption priorities as outlined in the HHS Report to Congress on Comparative Effectiveness Research. The PCCC evaluation will assess whether disseminating a diabetes education intervention in a community based health clinic and offering a medication management and adherence intervention through home visits to seniors, improves the health and well being of racial and ethnic minority

program participants; if the approach taken through the implementation of proven PCOR findings such as using community health workers and educators, and pharmacists to deliver the interventions improves the likelihood of patients changing their behaviors to improve their health status; and to determine if participants learned new information and skills that would help them to manage their health conditions and improve their health status.

Primary data for the evaluation will come from two waves of in person data collection from patients in a community health center in Chicago, Illinois and patients living in public housing in Houston, Texas. Data will be collected through a baseline survey at beginning of intervention, and a follow up survey at approximately three months post-baseline in the two sites. Data collection for the entire evaluation is expected to last 6 months, from the time the first participant is enrolled until the last 4 month follow up survey is administered.

The funding for this request is derived from American Reinvestment and Recovery Act of 2009 with hard and non-negotiable deadlines for expenditures and completion. The end date for completion of all activities funded under this initiative is June 12, 2012. Thus, a rapid approval of OMB is requested, or the benefits of this initiative cannot be evaluated and HHS would not be able to report the benefits and outcome to the Congress as required.

ESTIMATED ANNUALIZED BURDEN TABLE

Forms	Type of respondent	Number of respondents	Number of responses per respondent	Average burden (in hours) per response	Total burden hours
Chicago					
Screening Questionnaire	Individuals	165	1	5/60	14
Intake Questionnaire	Individuals	50	1	40/60	33
Post Questionnaire	Individuals	40	1	40/60	27
Sub-Total	255	1	74
Houston					
Eligibility Screening Form: Hypertension and Diabetes.	Individual	200	1	15/60	50
First Home Visit Forms: Hypertension, Diabetes, or Hypertension and Diabetes.	Individual	200	1	40/60	133
Telephone Follow-up: Being Active and Managing Stress.	Individual	180	1	20/60	60
Telephone Follow-up: Healthy Eating	Individual	180	1	20/60	60
Post Intervention Follow-up Form: Hypertension, Diabetes, or Hypertension and Diabetes.	Individual	180	1	20/60	60
Sub-total	940	363

ESTIMATED ANNUALIZED BURDEN TABLE—Continued

Forms	Type of respondent	Number of respondents	Number of responses per respondent	Average burden (in hours) per response	Total burden hours
Total	Individual	1195	437

Agency Information Collection Request; 60-Day Public Comment Request

AGENCY: Office of the Assistant Secretary for Planning and Evaluation, Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed information collection request for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information

technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to Sherrette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-6162. Written comments and recommendations for the proposed information collections must be directed to the OS Paperwork Clearance Officer at the above e-mail address within 60 days.

Proposed Project: Multi-Payor Claims Database (New—XXXXXXX).

Office of the Assistant Secretary for Planning and Evaluation (ASPE)—American Recovery and Reinvestment Act-funded Comparative Effectiveness Research Program.

Abstract

The Multi-Payor Claims Database (MPCD) project is one of a number of initiatives related to comparative effectiveness research (CER) funded by the American Recovery and Reinvestment Act of 2009. The Act provided \$1.1 billion to build the necessary infrastructure and capacity to support CER. Approximately 25% of the \$400 million allocated to the Office of the Secretary for Health and Human Services went towards data

infrastructure projects such as the MPCD. Within HHS, ASPE was tasked with managing the MPCD project in partnership with the Center for Medicare and Medicaid Services (CMS).

The project represents a private/public partnership with the goal of consolidating access to longitudinal data on health services financed by both public and private payers to help facilitate CER. Inclusion of data from multiple sources should allow for adequate coverage of priority patient populations, less common medical conditions, health care interventions, and geographic areas. As the title of the project suggests, the MPCD will initially include claims data, since these data are most readily available. Over time, data with additional clinical detail from other sources, such as EHRs, may be incorporated into the database.

The contract to develop the MPCD is a 3-year contract between Ingenix Public Sector Solutions (as the primary contractor) and ASPE. We envision several types of respondents, accessing data at different tiers within the MPCD, as shown in the table below. The respondents will not be accessing data on any regular frequency, but rather on an ad hoc basis. The affected public will be individual researchers, health policy analysts and researchers at affiliated with MPCD data contributors as well as key stakeholder staff and analysts within HHS.

ESTIMATED ANNUALIZED BURDEN TABLE

Forms	Type of respondent	Number of respondents	Number of responses per respondent	Average burden (in hours) per response	Total burden hours
Tiers 1, 2 and 3	Principal Investigators, Project Data Analysts and Project Directors.	293	3	35/60	513
Tiers 1 and 2	Healthcare Organization administrators and analysts.	125	3	20/60	125
Tier 1	Patients and consumers	50	4	5/60	17
Total	655
