

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**[Docket No. FAA-2011-0558; Airspace
Docket No. 11-AEA-13]**Establishment of Class E Airspace;
Lebanon, PA****AGENCY:** Federal Aviation
Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This action establishes Class E airspace at Lebanon, PA, to accommodate new Standard Instrument Approach Procedures that have been developed for Keller Brothers Airport. This action also corrects a typographic error in the latitude coordinates of the airport. This action enhances the safety and management of Instrument Flight Rules (IFR) operations at the airport.

DATES: Effective 0901 UTC, December 15, 2011. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-6364.

SUPPLEMENTARY INFORMATION:**History**

On July 5, 2011, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace 700 feet above the surface, at Lebanon, PA (76 FR 39038). Subsequent to publication, the FAA found that the geographic coordinates needed to be adjusted. This action makes that adjustment. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends Class E airspace extending

upward from 700 feet above the surface to support new standard instrument approach procedures developed at Keller Brothers Airport, Lebanon, PA. The geographic coordinates of the airport also are being adjusted to coincide with the FAA's aeronautical database. This enhances the safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace at Keller Brothers Airport, Lebanon, PA.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (Air).

Adoption of the Amendment:

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, effective September 15, 2011, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AEA PA E5 Lebanon, PA [New]

Keller Brothers Airport
(Lat. 40°17'30" N., long. 76°19'43" W.)

That airspace extending upward from 700 feet above the surface within a 10-mile radius of Keller Brothers Airport.

Issued in College Park, Georgia, on September 19, 2011.

Mark D. Ward,

Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

BILLING CODE 4910-13-P

**DEPARTMENT OF HEALTH AND
HUMAN SERVICES****Food and Drug Administration****21 CFR Part 73**

[Docket No. FDA-2009-C-0543]

**Listing of Color Additives Exempt
From Certification; Reactive Blue 69;
Confirmation of Effective Date**

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; confirmation of effective date.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date of June 6, 2011, for the final rule that appeared in the **Federal Register** of May 4, 2011 (76 FR 25234). The final rule amended the color additive regulations to provide for the safe use of disodium 1-amino-4-[[4-[(2-bromo-1-oxoallyl)amino]-2-sulphonatophenyl]amino]-9,10-dihydro-9,10-dioxanthracene-2-sulphonate (CAS Reg. No. 70209-99-3), also known as Reactive Blue 69, as a color additive in contact lenses.

DATES: *The effective date confirmed:* June 6, 2011.

FOR FURTHER INFORMATION CONTACT: Raphael A. Davy, Center for Food Safety

and Applied Nutrition (HFS-265), Food and Drug Administration, 5100 Paint Branch Pkwy., College Park, MD 20740-3835, 240-402-1272.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of May 4, 2011 (76 FR 25234), FDA amended the color additive regulations to add 21 CFR 73.3129 to provide for the safe use of disodium 1-amino-4-[[4-[(2-bromo-1-oxoallyl)amino]-9,10-dihydro-9,10-dioxoanthracene-2-sulphonate (CAS Reg. No. 70209-99-3), also known as Reactive Blue 69, as a color additive in contact lenses.

FDA gave interested persons until June 3, 2011, to file objections or requests for a hearing. The agency received no objections or requests for a hearing on the final rule. Therefore, FDA finds that the effective date of the final rule that published in the **Federal Register** of May 4, 2011, should be confirmed.

List of Subjects in 21 CFR Part 73

Color additives, Cosmetics, Drugs, Medical devices.

Therefore, under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 341, 342, 343, 348, 351, 352, 355, 361, 362, 371, 379e) and under authority delegated to the Commissioner of Food and Drugs, and redelegated to the Director, Office of Food Additive Safety, notice is given that no objections or requests for a hearing were filed in response to the May 4, 2011, final rule. Accordingly, the amendments issued thereby became effective June 6, 2011.

Dated: September 16, 2011.

Leslie Kux,

Acting Assistant Commissioner for Policy.

BILLING CODE 4160-01-P

POSTAL SERVICE

39 CFR Part 111

Intelligent Mail Package Barcode (IMpb) Implementation for Commercial Parcels

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) throughout various sections to require the use of an Intelligent Mail unique tracking barcode on all commercial parcels, except Standard Mail® parcels, claiming presort or destination entry pricing; to encourage

use of IMpb unique tracking barcodes by providing end-to-end tracking including confirmation of delivery on all commercial parcels except Standard Mail and Package Services parcels; and to require the use of an IMpb on parcels bearing PC Postage®.

DATES: *Effective date:* January 22, 2012. The Postal Service will initially implement the standards referenced in this final rule on January 22, 2012, and will provide an optional-use transitional period for specific requirements until July 2, 2012. The Postal Service finalizes its implementation effective January 7, 2013.

FOR FURTHER INFORMATION CONTACT: Juliaann Hess at 202-268-7663 or Kevin Gunther at 202-268-7208.

SUPPLEMENTARY INFORMATION: The Postal Service is enhancing its operational capability to track commercial parcels by scanning IMpbs and other extra services barcodes with automated processing equipment and Intelligent Mail scanning devices. Once all of the changes described in this final rule are fully implemented, tracking data, that includes acceptance, enroute, and delivery status data, will be available to commercial mailers who use extra services on their packages.

Mailers using IMpb will receive piece-level visibility throughout USPS® processing and delivery operations. New IMpb enhancements include:

- Incorporation of a routing code to facilitate the processing of packages on automated sorting equipment.
- Use of a channel-specific Application Identifier (AI) that associates the barcode to the payment method, supporting revenue assurance.
- A 3-digit service type code, which will identify the mail class and extra service combination and eliminate the need for multiple barcodes on a package.
- The use of either a 6-digit or 9-digit numeric Mailer ID (MID), to accommodate all mailers.
- Inclusion of specific “mail class only” service type codes that may be used for packages without extra services.

To promote the use of IMpb or other unique tracking barcodes, effective January 22, 2012 the Postal Service will provide end-to-end tracking, including confirmation of delivery, at no additional charge on all commercial parcels (except Standard Mail and Package Services parcels). Merchandise Return Service (MRS) parcels and Business Reply Mail® (BRM) parcels will also qualify for end-to-end tracking, including confirmation of delivery, at no extra charge.

Also effective January 22, 2012, the Postal Service will require the use of a unique tracking barcode on all commercial parcels, except Standard Mail parcels, claiming presort or destination entry pricing; and will require all parcels shipped using PC Postage systems to bear an IMpb and to use version 1.6 of the electronic shipping services manifest files. The PC Postage requirement does not extend to users of PC Postage stamp products. The Postal Service considers these postage imprints to be in the same category as the imprints generated by postage meter systems.

To allow commercial parcel and PC Postage mailers sufficient time to effect the necessary changes to their software and systems, the Postal Service will provide a transitional period, until July 2, 2012, during which the failure to comply with these new standards will not be penalized.

On January 7, 2013, the Postal Service finalizes the implementation of this final rule by requiring an Intelligent Mail package barcode (IMpb) for all commercial mailpieces that include a tracking or extra service barcode and on all parcels (except Standard Mail parcels) claiming presort or destination entry pricing. This January 7, 2013 IMpb requirement also applies to all domestic Express Mail® pieces, except those paying postage through an Express Mail corporate account (EMCA). In addition, the Postal Service will require the use of version 1.6 electronic shipping services manifest files and require that these files include each destination ZIP + 4® code, or each destination delivery address by January 7, 2013. This new file format will also require a new version of the customer extract file.

The Postal Service recognizes that some mailers may have difficulty preparing their systems and processes in time to meet January 22, 2012 implementation (required after July 2, 2012), and further recognizes that some mailers may be unable to meet the January 7, 2013 deadline for use of IMpb and the version 1.6 electronic manifest file. Therefore the Postal Service will provide limited exceptions for those mailers who may require additional time to finalize their transition to the use of unique tracking barcodes or IMpb. Mailers requiring an exception may direct their request to vice president, Product Information, USPS Headquarters, Room 3667, 475 L'Enfant Plaza, SW., Washington, DC 20260-5626.

The Postal Service will provide no charge end-to-end tracking, including confirmation of delivery, for all Parcel Select mailpieces (including the Parcel
