SUPPLEMENTARY INFORMATION:

A. Purpose

The Affidavit of Individual Surety (Standard Form (SF) 28) is used by all executive agencies, including the Department of Defense, to obtain information from individuals wishing to serve as sureties to Government bonds. To qualify as a surety on a Government bond, the individual must show a net worth not less than the penal amount of the bond on the SF 28. It is an elective decision on the part of the maker to use individual sureties instead of other available sources of surety or sureties for Government bonds.

The information on SF 28 is used to assist the contracting officer in determining the acceptability of individuals proposed as sureties.

A notice published in the **Federal Register** at 76 FR 22706, April 22, 2011

and two comments were received. Both commenters support the extension of this information collection. In addition to supporting the extension, both commenters suggested some revisions/enhancements to the current Standard Form 28. These suggestions will be taken into consideration.

The decrease in the total burden hours is a result of the change in the "Response per Respondent" and "Hours per Response" categories. The 1.43, responses per respondent, has been lowered to 1. to adequately reflect this category. A respondent has to respond completely not partially when submitting this form. The "Hours per Response" category has been decreased to .3 (18 minutes) from .4 (24 minutes) to reflect the benefit of the electronic capability of fillable-fileable forms. Respondents no longer have to print, scan, and then electronically submit or print and then physically mail forms through the post office, they can now submit electronically.

B. Annual Reporting Burden

Respondents: 500.

Responses Per Respondent: 1.

Total Responses: 500.

Hours Per Response: 0.3.

Total Burden Hours: 150.
