Office of the Chief Security Officer, Fraud and Investigation Unit, 1201 Maryland Avenue, SW., Washington, DC 20024.

NOTIFICATION PROCEDURE:

You must first verify your identity, meaning that you must provide your full name, current address and date and place of birth. You must sign your request, and your signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, you may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, <http://www.dhs.gov> or 1-866-431-0486. - If your request is seeking records pertaining to another living individual, you must include a statement from that individual certifying his/her agreement for you to access his/her records.

Without this bulleted information the component(s) may not be able to conduct an effective search, and your request may be denied due to lack of specificity or lack of compliance with applicable regulations.

Security/U.S. Citizenship and Immigration Services 015 Electronic Immigration System-2 Account and Case Management System of Records." This system of records will allow the Department of Homeland Security/U.S. Citizenship and Immigration Services to collect and maintain records on an individual after he or she submits a benefit request and/or updates account information to create or update U.S. Citizenship and Immigration Services Electronic Immigration System accounts; gather any missing information; manage workflow; assist U.S. Citizenship and Immigration Services in making a benefit determination; and provide a repository of data to assist with the efficient processing of future benefit requests. SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) U.S. Citizenship and Immigration Services (USCIS) proposes to establish a new DHS system of records titled, "DHS/USCIS-015 Electronic Immigration System-2 Account and Case Management System of Records."

DHS and USCIS are promulgating the regulation "Immigration Benefits Business Transformation, Increment I" (August 29, 2011, 76 FR 53764) to allow for USCIS to transition to an electronic environment. This regulation will assist USCIS in the transformation of its operations by removing references and processes that inhibit the use of electronic systems or constrain USCIS's ability to respond to changing workloads, priorities, or statutory requirements.

DHS/USCIS is creating a new electronic environment known as the Electronic Immigration System (USCIS ELIS). USCIS ELIS allows individuals requesting a USCIS benefit to register online and submit certain benefit requests through the online system. This system will improve customer service; increase efficiency for processing benefits; better identify potential national security concerns, criminality, and fraud; and create improved access controls and better auditing capabilities.

Applicants and petitioners (Applicants); co-applicants, beneficiaries, derivatives, dependents, or other persons on whose behalf a benefit request is made or whose immigration status may be derived because of a relationship to an Applicant (Co-Applicants); and their attorneys and representatives accredited by the Board of Immigration Appeals (Representatives) may create individualized online accounts. These online accounts help Applicants and their Representatives file for benefits, track the status of open benefit requests, schedule appointments, change their addresses and contact information, and receive notices and notifications regarding their particular cases. Through USCIS ELIS, individuals may submit evidence electronically. Once an individual provides biographic information for one benefit request, USCIS ELIS uses that information to pre-populate any future benefit requests by the same individual. This eases the

burden on an individual so he or she does not have to repeatedly type in the same information and also reduces the number of possible errors. USCIS is publishing three SORNs to cover the three distinct phases of the benefit request process of this new electronic environment and the privacy and security protections incorporated into USCIS ELIS. The SORNs address the new electronic environment in the following different processes:

1. *Temporary Accounts and Draft Benefit Requests:* The Electronic Immigration System-1 Temporary Accounts and Draft Benefit Requests SORN (DHS/USCIS-014) addresses temporary data provided by Applicants or Representatives. This temporary data includes temporary accounts for first-time Applicants and draft benefit request data from first-time Applicants, Applicants with permanent accounts, and Representatives. Applicants first interact with USCIS ELIS by creating a temporary account, setting notification preferences, and drafting the first benefit request. If a first-time Applicant does not formally submit a benefit request within 30 days of opening the temporary account, USCIS ELIS automatically deletes the temporary account and all draft benefit request data. If a first-time Applicant submits the benefit request within 30 days, USCIS ELIS automatically changes the status of the account from temporary to permanent. Applicants with permanent USCIS ELIS accounts or Representatives may also draft benefit requests. USCIS ELIS deletes all draft benefit requests if they are not submitted within 30 days of initiation.

2. *Account and Case Management:* The Electronic Immigration System-2 Account and Case Management SORN (DHS/USCIS-015) addresses the activities undertaken by USCIS after Applicants or Representatives submit a benefit request. USCIS ELIS uses information provided on initial and subsequent benefit requests and subsequent collections through the Account and Case Management process to create or update USCIS ELIS accounts; collect any missing information; manage workflow; assist USCIS adjudicators as they make a benefit determination; and provide a repository of data to assist with future benefit requests. In addition, USCIS ELIS processes and tracks all actions related to the case, including scheduling appointments and issuing decision notices and/or proofs of benefit.

3. *Automated Background Functions:* The Electronic Immigration System-3 Automated Background Functions SORN (DHS/USCIS-016) addresses the

actions USCIS ELIS takes to detect duplicate and related accounts and identify potential national security concerns, criminality, and fraud to ensure that serious or complex cases receive additional scrutiny.

This SORN addresses the USCIS ELIS account and case management process for applicants. Information for Electronic Immigration System-2 Account and Case Management (USCIS ELIS Account and Case Management) is derived from multiple sources. The main source of information is the benefit request formally submitted by the Applicant or Representative (see Electronic Immigration System-1 Temporary Accounts and Draft Benefits Requests SORN). Upon the formal submission of a benefit request to USCIS, this information will no longer be considered temporary and is subject to the retention schedules provided for in this SORN.

USCIS ELIS collects information previously collected on different forms. In the first release of USCIS ELIS, USCIS collects information from the following legacy forms:

- I-90—Application to Replace Permanent Residence Card (1615-0082), 08/31/12;
 - I-129—Petition for a Nonimmigrant Worker (1615-0009), 10/31/13;
 - I-131—Application for Travel Document (1615-0013), 03/31/12;
 - I-140—Immigrant Petition for Alien Worker (1615-0015), 01/31/13;
 - I-539—Application to Extend/Change Nonimmigrant Status (1615-0003), 02/29/12;
 - I-539—Application to Extend/Change Nonimmigrant Status (On-Line Application) (Pending);
 - I-765—Application for Employment Authorization (1615-0040), 09/30/11;
 - I-821—Application for Temporary Protected Status (1615-0043), 10/31/13;
 - I-907—Request for Premium Processing Service (1615-0048), 08/31/11;
 - AR-11—Alien Change of Address Card System (1615-0007), 09/30/11; and
 - G-28—Notice of Entry of Appearance as Attorney or Accredited Representative (1615-0105), 04/30/12.
- Additional forms from which information will be collected will be posted to the USCIS ELIS website as the system develops.

The information collected throughout the USCIS ELIS Account and Case Management process is necessary to conduct an accurate and thorough adjudication of a request for immigration benefits. USCIS ELIS will use information provided in an Applicant's benefit request, account

updates, responses to a request for evidence, obtained during an interview, or during a biometrics collection at an Application Support Center. The information provided by the Applicant or his or her Representative will be used to create or update USCIS ELIS accounts; gather any missing information; manage workflow; generate reports; assist USCIS in making a benefit determination; and provide a repository of data to assist with future benefit requests. Pursuant to 8 CFR 103.2(a)(3), Co-Applicants may not access, modify, or participate in benefit requests submitted by the Applicant. However, Co-Applicants may create their own USCIS ELIS accounts as Applicants and submit their own benefit requests. USCIS personnel may input information as they process a case, including information from commercial sources, like LexisNexis or Dun and Bradstreet, to verify information provided by an Applicant or Co-Applicant in support of a request for a benefit. The USCIS ELIS Account and Case Management process will be used to process and track all actions related to the case, including scheduling appointments and issuing decision notices and/or proofs of benefit. USCIS ELIS will generate notices and notifications that will be available to individuals online, via e-mail, text message, or postal mail. These notices will also be stored in the Applicant's USCIS ELIS account.

Results from Electronic Immigration System-3 Automated Background Functions (USCIS ELIS Automated Background Functions) will also be stored in the individual's USCIS ELIS account and/or case. This includes information from other USCIS, DHS, and federal government systems to confirm identity, determine eligibility, and perform background checks. USCIS ELIS Account and Case Management may store information from DHS systems including: DHS/USCIS-001—Alien File, Index, and National File Tracking System of Records; DHS/USCIS-007—Benefits Information System (BIS); DHS/USCIS/010—Asylum Information and Pre-Screening; DHS/USCIS-006—Fraud Detection and National Security Data System (FDNS-DS); DHS/CBP-011—U.S. Customs and Border Protection TECS; DHS/ICE-001—Student and Exchange Visitor Information System (SEVIS); DHS/ICE-011—Immigration Enforcement Operational Records System (ENFORCE); DHS/USVISIT-001—Arrival and Departure Information System (ADIS); and DHS/USVISIT-0012—DHS Automated Biometric Identification System (IDENT).

Furthermore, USCIS ELIS Account and Case Management may store information from systems outside of DHS, including: Department of State Consular Consolidated Database (CCD); JUSTICE/EOIR-001—Records and Management Information System; JUSTICE/FBI-002—FBI Central Records System; JUSTICE/FBI-009—Fingerprint Identification Records System (FIRS); and TREASURY/FMS-017—Collections Records—Treasury/Financial Management Service.

To protect Applicant, Co-Applicant, and Representative information, USCIS ELIS will employ role-based access controls to ensure internal users of the system do not have access to information beyond the functions of their employment. USCIS ELIS will also maintain audit logs of account access information by recording user identification and the date and time of access. Case and account histories are kept in order to track who created, deleted, or edited a record and when the change was made.

USCIS collects, uses, and maintains account and case management information pursuant to Sections 103 and 290 of the Immigration and Nationality Act (INA), as amended (8 U.S.C. 1103 and 1360), and the regulations issued pursuant thereto; and Section 451 of the Homeland Security Act of 2002 (Pub. L. 107-296).

Consistent with DHS's information sharing mission, information stored in the Electronic Immigration Services-2 Account and Case Management SORN may be shared with other DHS components, as well as appropriate federal, state, local, tribal, territorial, foreign, or international government agencies. This sharing will only take place after DHS determines that the receiving component or agency has a need-to-know the information to carry out national security, law enforcement, immigration, intelligence, or other functions consistent with the routine uses set forth in this system of records notice. USCIS provides information related to the immigration status of persons to employers participating in the USCIS E-Verify program (*see* DHS/USCIS-011 E-Verify Program SORN). In addition, USCIS provides the immigration status of persons applying for benefits from a government agency through the USCIS Systematic Alien Verification for Entitlements (SAVE) program (*see* DHS/USCIS-004 Systematic Alien Verification for Entitlements Program SORN).

DHS is issuing a Notice of Proposed Rulemaking to exempt this system of records from certain provisions of the Privacy Act pursuant to 5 U.S.C.

552a(k)(2), elsewhere in the **Federal Register**. Additionally, many of the functions in this system require retrieving records from law enforcement systems. Where a record received from another system has been exempted in that source system under 5 U.S.C. § 552a(j)(2), DHS will claim the same exemptions for those records that are claimed for the original primary systems of records from which they originated and claims any additional exemptions in accordance with this rule. This newly established system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which the U.S. Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/USCIS-015 Electronic Immigration System-2 Account and Case Management System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.
