Transmittal No. 11-26

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

- (i) Prospective Purchaser: Qatar.
- (ii) Total Estimated Value:

Major Defense Equipment * \$300 million Other400 million

 * As defined in Section 47(6) of the Arms Export Control Act.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: 6 MH–60R SEAHAWK Multi-Mission Helicopters, 13 T–700 GE 401C Engines (12 installed and 1 spare), communication equipment, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support.

- (iv) Military Department: Navy (SAF).
- (v) Prior Related Cases, if any: None.
- (vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Annex attached.

(viii) Date Report Delivered to Congress: 21 Sep 2011.

Policy Justification

Qatar—MH–60R Multi-Mission Helicopters

The Government of Qatar has requested a possible sale of 6 MH–60R SEAHAWK Multi-Mission Helicopters, 13 T–700 GE 401C Engines (12 installed and 1 spare), communication equipment, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$750 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political and economic progress in the Middle East. Qatar is host to the US AFCENT forces and serves as a critical forwarddeployed location in the region.

The proposed sale of the MH–60R SEAHAWK helicopters will improve Qatar's capability to meet current and future anti-surface warfare threats. Qatar will use the enhanced capability to strengthen its homeland defense. The MH–60R helicopters will supplement and eventually replace the Qatar Air Force's aging maritime patrol helicopters. Qatar will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Corporation in Stratford, Connecticut, Lockheed Martin in Owego, New York, and General Electric in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of ten contractor representatives to Qatar on an intermittent basis over the life of the case to support delivery of the MH–60R helicopters and provide support and equipment familiarization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 11-26

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity of Technology: 1. The MH-60R SEAHAWK Multi-Mission Helicopter contains new generation technology. It is equipped for a range of missions including Anti-Surface Warfare (ASuW), Search and Rescue, Naval Gun Fire Support, Surveillance, Communications Relay, Logistics Support, Personnel Transfer, and Vertical Replenishment. The fully integrated glass cockpit is equipped with four 8 inch by 10 inch full color multi-function mission and flight displays that are night vision goggle compatible and sun light readable. The pilots and aircrew have common programmable keysets, mass memory unit, mission and flight management

computers, and MH-60R dedicated operational software. The navigation suite includes the LN-100G inertial navigation system with embedded global positioning system (GPS). The helicopter is equipped with mission systems including the APS-153 Multi-Mode Radar, the AN/ALQ-210 Electronic Support Measures System (ESM), and the AN/AAS-44 Multi-Spectral Targeting Forward Looking Infrared (MTS FLIR) system. Self Protection systems include the AN/ AAR-47 Missile Warning Set, AN/ALQ-144A IR Counter Measure System (IRCM), and the AN/ALE-47chaff and flare decoy dispenser.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

The Honorable John A. Boehner Speaker of the House U.S. House of Representatives Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control

Act, as amended, we are forwarding herewith Transmittal No. 11-17, concerning the Department
of the Air Force's proposed Letter(s) of Offer and Acceptance to the United Arab Emirates for
major defense equipment estimated to cost \$401 million. After this letter is delivered to your
office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely, William & Landauper

William E. Landay III Vice Admiral, USN

Director

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: 21 Sep 2011.

Policy Justification

United Arab Emirates—MIDS/LVT LINK 16 Terminals

The Government of the United Arab Emirates (UAE) has requested a possible sale of 107 Link 16 Multifunctional Information Distribution System/Low Volume Terminals (MIDS/LVT) to be installed on the United Arab Emirates F-16 aircraft and ground command and control sites, engineering/integration services, aircraft modification and installation, testing, spare and repair parts, support equipment, repair and return support, personnel training, contractor engineering and technical support, interface with ground command and control centers and ground repeater sites, and other related elements of program support. The estimated cost is \$401 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be an important force for political stability and economic progress in the Middle East.

The MIDS terminal will increase pilot operational effectiveness by at-a-glance portrayal of targets, threats, and friendly forces on an easy-to-understand relative position display. This proposed system will increase combat effectiveness while reducing the threat of friendly fire. The system will foster interoperability with the U.S. Air Force and other countries. The MIDS/LVT will provide allied forces greater situational awareness in any coalition operation. The United Arab Emirates will have no difficulty absorbing this additional capability into its Air Force.

The proposed sale of this weapon system will not alter the basic military balance in the region.

There are several manufacturers of the Link 16 MIDS–LVT. A prime contractor will be selected during the negotiating process. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government and contractor representatives to the UAE. The number of U.S. Government and contractor representatives will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 11–17

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity of Technology: 1. The Multifunctional Information Distribution System/Low Volume Terminals (MIDS-LVT) Communication Security (COMSEC) device provides improved situational awareness and sensor cueing in support of air superiority and interdiction missions. The Link 16 tactical data link provides networking with other Link 16-capable aircraft, command, and control systems. The MIDS/LVT and MIDS On Ship Terminal hardware, publications, performance specifications, operational capability, parameters, vulnerabilities to countermeasures, and software documentation are classified Confidential. The classified information

to be provided consists of that which is necessary for the operation, maintenance, and repair (through intermediate level) of the data link terminal, installed systems, and related software.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
