V. Statutory and Executive Order Reviews

My decision will affect not only persons in California but also the manufacturers outside the State who must comply with California's requirements in order to produce new motor vehicles for sale in California. For this reason, I hereby determine and find that this is a final action of national applicability.

This action is not a rule as defined by Executive Order 12866. Therefore, it is exempt from review by the Office of Management and Budget as required for rules and regulations by Executive Order 12866.

In addition, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. 601(2). Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

Further, the Congressional Review Act, 5 U.S.C. 801, *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule for purposes of 5 U.S.C. 804(3).

Finally, the Administrator has delegated the authority to make determinations regarding waivers under § 209(b) of the Act to the Assistant Administrator for Air and Radiation.

Dated: September 26, 2011.

Gina McCarthy,

Assistant Administrator for Air and Radiation.

Exposure Factors Handbook: 2011 Edition; Release of Final Report

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability.

SUMMARY: On September 30, 2011, the EPA publically released the final report entitled *Exposure Factors Handbook: 2011 Edition*. The document was prepared by the National Center for Environmental Assessment (NCEA) within EPA's Office of Research and Development. The *Exposure Factors Handbook: 2011 Edition* provides information on various physiological and behavioral factors commonly used

in assessing exposure to environmental chemicals. The handbook was first published in 1989 and was updated in 1997. This edition incorporates information made available from 1997 up until July 2011. It also reflects the revisions made to the *Child-Specific Exposure Factors Handbook*, which was last updated and published in 2008. Each chapter in the *Exposure Factors Handbook: 2011 Edition* presents recommended values for the exposure factors covered in that particular chapter's exposure route as well as a discussion of the underlying data used in developing the recommendations.

The *Exposure Factors Handbook: 2011 Edition* (EPA/600/R-09/052F) is available via the Internet at <http://www.epa.gov/ncea>.

DATES: This report was posted publically on September 30, 2011.

ADDRESSES: The report is available primarily via the Internet on the National Center for Environmental Assessment's home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. Paper copies of the report are not available. A limited number of CD-ROMs will be available from the Information Management Team, NCEA; telephone: 703-347-8561; facsimile: 703-347-8691. If you are requesting a CD-ROM, please provide your name, your mailing address, and the document title.

FOR FURTHER INFORMATION CONTACT: For additional information, contact the National Center for Environmental Assessment; Jacqueline Moya; telephone: 703-347-8539; or e-mail: moya.jacqueline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Project/ Document

The *Exposure Factors Handbook: 2011 Edition* provides a summary of the available statistical data on various factors used in assessing human exposure. These factors include: drinking water consumption; mouthing behavior; soil ingestion rates; inhalation rates; dermal factors, including skin area and soil adherence factors; consumption of fruits and vegetables, fish, meats, dairy products, and homegrown foods; human milk intake; human activity factors; consumer product use; and building characteristics. This handbook is intended for use by exposure assessors, within the Agency as well as those outside, as a reference tool and primary source of exposure factor information. It may be used by scientists, economists, and other interested parties as a source of data

and/or U.S. EPA recommendations on numeric estimates for behavioral and physiological characteristics needed to estimate exposure to environmental agents. Recommended values are available for the general population and, for most of the exposure factors, are also available by age, sex, as well as for other populations that may have characteristics different from the general population.

Dated: September 23, 2011.

SUPPLEMENTARY INFORMATION:

I. General Information

A. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through <http://www.regulations.gov> or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. Send or deliver information identified as CBI only to the following address: Roberto Morales, U.S. EPA, Office of Air Quality Planning and Standards, Mail Code C404-02, Research Triangle Park, NC 27711, telephone (919) 541-0880, e-mail at morales.roberto@epa.gov, Attention Docket ID No. OAR-2010-1059.

2. **Tips for Preparing Your Comments.** When submitting comments, remember to:

- Identify the docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions. The agency may ask you to respond to specific questions or organize comments by referencing a part or section number in the guidance.
- Explain why you agree or disagree with EPA's guidance; and suggest alternatives and substitute language that would help to clarify or better explain the points made and positions taken in EPA's guidance document.

II. Background

The purpose of this notice is to solicit public comments on EPA's recently

posted draft non-binding guidance titled, "Guidance for 1-Hour SO₂ NAAQS SIP Submissions." This document is available online at <http://www.epa.gov/airquality/sulfurdioxide/implement.html> or within the associated docket, EPA-HQ-OAR-2010-1059.

The draft guidance document is intended to assist state and tribal governments in preparing State Implementation Plan (SIP) submittals under section 110(a)(1) of the Clean Air Act (CAA) to address implementation, maintenance, and enforcement of the 1-hour primary sulfur dioxide (SO₂) National Ambient Quality Standards (NAAQS). The CAA directs states to submit these SIPs to EPA by no later than June 3, 2013, which is 3 years after promulgation of the primary SO₂ NAAQS. To be approved, the EPA would expect the SIP submittals to demonstrate through the use of refined air quality dispersion modeling that the affected areas will attain the standard as expeditiously as practicable. This draft guidance provides the basic information that states, tribes and emission sources would need to address the section 110(a)(1) SIP submittal for the 1-hour SO₂ NAAQS including modeling guidance. After receiving timely submitted public comments on the draft guidance, the EPA plans to issue updated non-binding guidance. In addition, the EPA will continue to work closely with states and tribes to address issues arising under the section 110(a)(1) SIP submittals.

EPA invites public comment on all aspects of this draft guidance during the 30-day comment period. The draft guidance is not a regulation or any other kind of final action and does not establish binding requirements on the EPA or any state, local, or tribal agency or any emissions source. While the EPA has established a docket and is requesting public comment on the draft guidance, this procedure does not alter the nature or effect of the draft guidance and does not constitute a formal rulemaking process or require the EPA to respond to public comments in the updated guidance before the EPA or other agencies may use the guidance in reaching decisions related to SIPs submitted under section 110(a)(1). The EPA retains the discretion to revise its guidance, issue additional guidance, propose regulations as appropriate, and to utilize information submitted in public comments to inform future decisions. Because this draft guidance does not constitute a formal rulemaking action, the EPA is not required to respond to comments, but intends to take significant comments under consideration in amending or updating

the non-binding guidance. To the extent that the EPA determines that comments received during the 30-day comment period justify corrections or clarifications to the guidance, the EPA may revise and reissue the guidance and post the revised document at: <http://www.epa.gov/airquality/sulfurdioxide/implement.html>.

Please refer to the **ADDRESSES** section above in this document for specific instructions on submitting comments.
