[Project No., 14238-000]

NorthHydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 29, 2011, NorthHydro, LLC (NorthHydro or applicant) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Scootene Wasteway Hydroelectric project (project) near Richland in Franklin County, Washington. The wasteway was constructed by the U.S. Bureau of Reclamation as part of the Columbia Basin Project, and is situated within and operated by the South Columbia Basin Irrigation District. The wasteway functions as a diversion of surplus water from the irrigation system to the existing Scootene reservoir. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The project would collect all surplus flows below the Scootene wasteway outlet structure. The following new facilities are proposed: (1) A 63-inch, 2,850-foot-long underground penstock that would collect water from the Scootene wasteway; (2) a powerhouse containing one turbine/generator unit with a capacity of 1,110 kilowatts; (3) a

4.2-mile-long, 115-kilovolt transmission line connecting to the existing Ringold substation; and (4) appurtenant facilities. The estimated annual generation of the project would be 4.8 gigawatt-hours.

Applicant Contact: Mr. Darius Ruen, P.E., NorthHydro, LLC, 3201 Huetter Road, Suite 102, Coeur d'Alene, Idaho 83814; phone (208) 292-0820.

FERC Contact: Patrick Murphy; phone (202) 502-8755.

Deadline for Filing Comments, Motions to Intervene, Competing Applications (Without Notices of Intent), or Notices of Intent to File Competing Applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14238-000) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: September 29, 2011.

NorthHydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 29, 2011, NorthHydro, LLC (NorthHydro or applicant) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the 46A Wasteway Hydroelectric project (project) near Richland in Franklin County, Washington. The wasteway was constructed by the U.S. Bureau of Reclamation as part of the Columbia Basin Project, and is situated within and operated by the South Columbia Basin Irrigation District. The wasteway functions as a diversion of surplus water from the irrigation system. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The project would collect all excess flows below the 46A wasteway outlet structure. The following new facilities are proposed: (1) A diversion structure that would collect water from the wasteway; (2) two 63-inch-diameter, 750-foot-long underground penstocks connecting the diversion structure with a powerhouse; (3) two turbine/generator units with a combined capacity of 1,600 kilowatts; (4) a 7.5-mile-long, 115-kilovolt transmission line connecting to the existing Ringold substation; and (5) appurtenant facilities. The estimated annual generation of the project would be 6.75 gigawatt-hours.

Applicant Contact: Mr. Darius Ruen, P.E., NorthHydro, LLC, 3201 Huetter Road, Suite 102, Coeur d'Alene, Idaho 83814; phone (208) 292-0820.

[Project No. 14236-000]

NorthHydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 29, 2011, NorthHydro, LLC (NorthHydro or applicant) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), to study the feasibility of developing the proposed 16.4 Wasteway Hydroelectric project (project) near Richland in Franklin County, Washington. The wasteway was constructed by the U.S Bureau of Reclamation as part of the Columbia Basin Project, and is situated within and operated by the South Columbia Basin Irrigation District. The wasteway functions as a diversion of surplus water from the irrigation system. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application

during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The project would collect all excess flows below the wasteway outlet structure. The following new facilities are proposed: (1) A diversion structure that would collect water from the wasteway; (2) three 63-inch diameter, 4,900 foot-long underground penstocks connecting the diversion structure with a powerhouse; (3) three turbine/generator units with a combined capacity of 1,750 kilowatts; (4) a 7.5-mile-long, 115-kilovolt transmission line connecting to the existing Ringold substation; and (5) appurtenant facilities. The estimated annual generation of the project would be 10.0 gigawatt-hours.

Applicant Contact: Mr. Darius Ruen, P.E., NorthHydro, LLC, 3201 Huetter Road, Suite 102, Coeur d'Alene, Idaho 83814; phone (208) 292-0820.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9475-4]

Clean Water Act Section 303(d): Availability of List Decisions

AGENCY: Environmental Protection Agency.

ACTION: Notice of Availability.

SUMMARY: This notice announces the availability of EPA's Responsiveness Summary Concerning EPA's April 13, 2011 Public Notice of Proposed Decisions to Add Waters and Pollutants to Louisiana's 2008 Section 303(d) List.

On April 13, 2011 EPA published a notice in the **Federal Register** at 76 FR 20664-20665 providing the public the opportunity to review its decision to partially approve and proposal to partially disapprove Louisiana's 2008 Section 303(d) List. Specifically, EPA approved Louisiana's listing of 409 waterbody pollutant combinations, and associated priority rankings. EPA proposed to disapprove Louisiana's decisions not to list three waterbodies. These three waterbodies were added by EPA because the applicable numeric water quality standards marine criterion for dissolved oxygen was not attained in these segments.

Based on the Responsiveness Summary, EPA finds no new information or persuasive arguments as to why the three waters should not be added to the 2008 Louisiana Section 303(d) List as proposed. Therefore, EPA is taking Final Action on the addition of three waterbody pollutant combinations to the final Louisiana 2008 Section 303(d) List. The basis for these decisions is described in EPA's Responsiveness Summary and the Record of Decision.

ADDRESSES: Copies of EPA's Responsiveness Summary Concerning EPA's September 28, 2011 Public Notice of Final Decisions to Add Waters and Pollutants to Louisiana's 2008 Section 303(d) List can be obtained at EPA Region 6's Web site at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm#303dlists>, or by writing or calling Ms. Diane Smith at Water Quality Protection Division, U.S. Environmental Protection Agency
