MCSAC Subcommittee (EOBR Technical Issues)

During the MCSAC's June 20–22, 2011, public meeting, FMCSA tasked the group to review the functional specifications included in the April 5, 2010, final rule and provide suggestions to address stakeholder concerns about the technical requirements for EOBRs. A copy of the task statement and all MCSAC materials related to the assignment are posted at <http://mcsac.fmcsa.dot.gov>. The Agency assigned this task to the MCSAC after making a preliminary determination that additional information would be needed to ensure that roadside inspection officials are able to obtain and/or retrieve EOBR data in order to assess drivers' compliance with the HOS regulations. After the 2010 final rule was published, stakeholders in the CMV safety enforcement and EOBR supplier communities urged that certain requirements of the rule be revisited. Some communications methods that were presumed to be viable when the rule was developed appear less appropriate now as technology and government information technology security standards have evolved.

The MCSAC established a subcommittee to explore these complex issues. The subcommittee's meetings were announced in the **Federal Register** and open to all interested parties [(76 FR 38268), June 29, 2011]. Following its October 27, 2011 session, the subcommittee will submit its report to the full MCSAC. The MCSAC will review and discuss the subcommittee's report at MCSAC's December 2011 public meeting and submit to the Agency its recommendations concerning functional specifications. The Agency will consider the MCSAC report in any future rulemaking to re-establish functional specifications for EOBRs.

Finger Lakes Railway Corp.— Acquisition and Operation Exemption—CSX Transportation, Inc.

Finger Lakes Railway Corp. (FGLK), a Class III carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to acquire from CSX Transportation, Inc. (CSXT) and to operate a 0.73-mile line of railroad extending between milepost QCS 2.88 and milepost QCS 3.61 near Solvay, Onondaga County, N.Y., and lease from CSXT the underlying real property.¹

Thus, FGLK may consummate the transaction and commence operating the line on or after that date.

In its notice, FGLK states that it will continue to interchange traffic with CSXT. FGLK further states that there are no interchange commitments with respect to its existing interchange with CSXT, and that no interchange

¹ FGLK states that it is also acquiring 2.17 miles of track in the Solvay Yard, which is adjacent to the subject rail line, but further states that acquisition of this yard track does not require Board authorization.

commitments will be required as part of the instant transaction.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Stay petitions must be filed no later than October 17, 2011 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 35545, must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. SUPPLEMENTARY INFORMATION:

The OCC is requesting comment on the following information collection:

Title: Electronic Operations.

OMB Control No.: 1557-0301.

As part of the comprehensive package of financial regulatory reform measures enacted, Title III of the Dodd-Frank Act provides for the transfer of the powers, authorities, rights and duties of the Office of Thrift Supervision (OTS) to other banking agencies, including the OCC, as of the transfer date, July 21, 2011. Affected Public: Businesses or other for-profit.
