### Animal and Plant Health Inspection Service

[Docket No. APHIS-2011-0037]

#### Notice of Decision To Allow Interstate Movement of Rambutan From Puerto Rico into the Continental United States

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Notice.

**SUMMARY:** We are advising the public of our decision to begin allowing the interstate movement into the continental United States of fresh rambutan fruit from Puerto Rico. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we believe that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the interstate movement of rambutan from Puerto Rico.

**DATES:** *Effective Date:* October 7, 2011.

**FOR FURTHER INFORMATION CONTACT:** Mr. Philip Grove, Regulatory Coordinator, PPQ, APHIS, 4700 River Road Unit 156, Riverdale, MD 20737-1231; (301) 734-6280.

#### SUPPLEMENTARY INFORMATION:

##### Background

Under the regulations in “Subpart—Regulated Articles From Hawaii and the Territories” (7 CFR 318.13-1 through 318.13-26, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the interstate movement of fruits and vegetables into

the United States from Hawaii, Puerto Rico, the U.S. Virgin Islands, Guam, and the Commonwealth of the Northern Mariana Islands to prevent plant pests and noxious weeds from being introduced into and spread within the continental United States. (The continental United States is defined in 318.13-2 of the regulations as the 48 contiguous States, Alaska, and the District of Columbia.)

Section 318.13-4 contains a performance-based process for approving the interstate movement of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS publishes a notice in the **Federal Register** announcing the availability of the pest risk analysis that evaluates the risks associated with the interstate movement of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS may begin allowing the interstate movement of the fruit or vegetable subject to the identified designated measures if: (1) No comments were received on the pest risk analysis; (2) the comments on the pest risk analysis revealed that no changes to the pest risk analysis were necessary; or (3) changes to the pest risk analysis were made in response to public comments, but the changes did not affect the overall conclusions of the analysis and the Administrator’s determination of risk.

In accordance with that process, we published a notice<sup>1</sup> in the **Federal Register** on June 16, 2011 (76 FR 35186-35187, Docket No. APHIS-2011-0037), in which we announced the availability, for review and comment, of a pest risk analysis that evaluates the risks associated with the interstate movement of rambutan fruit (*Nephilium lappaceum* L.) from Puerto Rico into the continental United States. We solicited comments on the notice for 60 days ending on August 15, 2011. We received no comments by that date.

Therefore, in accordance with the regulations in 318.13-4, we are announcing our decision to begin allowing the interstate movement of rambutan from Puerto Rico into the continental United States subject to the following phytosanitary measures:

- Inspection and certification by an inspector in Puerto Rico that the rambutan are free of all quarantine pests

likely to follow the pathway of interstate movement of the rambutan;

- Movement of the rambutan as commercial consignments only; and
- Distribution of the rambutan only within a defined area (a prohibition on movement to Hawaii, the Virgin Islands, or Guam) and marking of the boxes or containers in which the rambutan is distributed to indicate those distribution restrictions.

These conditions will be listed in the Puerto Rico Manual, found on the Internet at [http://www.aphis.usda.gov/import\\_export/plants/manuals/ports/downloads/puerto\\_rico.pdf](http://www.aphis.usda.gov/import_export/plants/manuals/ports/downloads/puerto_rico.pdf). In addition to those specific measures, rambutan from Puerto Rico will be subject to the general requirements listed in 318.13-3 that are applicable to the interstate movement of all fruits and vegetables from Puerto Rico.

**Authority:** 7 U.S.C. 7701-7772 and 7781-7786; 7 CFR 2.22, 2.80, and 371.3.

Dated: Done in Washington, DC, this 3rd day of October 2011.

**Kevin Shea,**

### Commodity Credit Corporation

#### Domestic Sugar Program—2011-Crop Cane Sugar and Beet Sugar Marketing Allotments and Company Allocations

**AGENCY:** Commodity Credit Corporation, USDA.

**ACTION:** Notice.

**SUMMARY:** The Commodity Credit Corporation (CCC) is issuing this notice to publish the fiscal year (FY) 2012 State sugar marketing allotments and company allocations to sugarcane and sugar beet processors, which apply to all domestic sugar marketed for human consumption in the United States from October 1, 2011, through September 30, 2012. Although CCC already has announced most of the information in this notice through a United States Department of Agriculture (USDA) news release, CCC is required to publish the determinations establishing, adjusting, or suspending sugar marketing allotments in the **Federal Register**.
