Abstract: The National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Pesticide Active Ingredient Production were proposed on November 10, 1997 (62 FR 60579), and promulgated on June 23, 1999, (64 FR 33550).

Owners or operators of pesticide active ingredient (PAI) production facilities to which this regulation applies must choose one of the compliance options that are described in the rule or install and monitor a specific control system that reduces hazardous air pollutant (HAP) emissions to the compliance level. The respondents are subject to sections of subpart A of 40 CFR part 63 relating to NESHAP. These requirements include those associated with the applicability determination; the notification that the facility is subject to the rule; the notification of testing [control device performance test and continuous monitoring system (CMS) performance evaluation]; the results of performance testing and CMS performance evaluations; startup, shutdown, and malfunction reports; semiannual or quarterly summary reports, and/or excess emissions reports; and CMS performance reports. In addition to the requirements of subpart A, many respondents are required to submit pre-compliance plan and leak detection and repair (LDAR) reports; and plants that wish to implement emissions averaging provisions must submit an emission-averaging plan.

Respondents electing to comply with the emission limit or emission reduction requirements for process vents, storage tanks, or wastewater must record the values of equipment operating parameters as specified in 40 CFR 63.1367 of the rule.

Owners or operators of PAI production facilities subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of each measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart MMM, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 57 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Pesticide active ingredient production.
Estimated Number of Respondents: 15.

Frequency of Response: Initially, quarterly, and semiannually.

Estimated Total Annual Hour Burden: 3,666.

Estimated Total Annual Cost: \$366,098, which includes \$346,223 in labor costs, no capital/startup costs, and \$19,875 in operation and maintenance (O&M) costs.

Changes in the Estimates: The adjustment decrease in burden from the most recently approved ICR is due to a more accurate estimate of existing and anticipated new sources. After consulting with the EPA Office of Air Quality Planning and Standards (OAQPS), and a number of trade associations, our data indicates that there are approximately fifteen sources subject to the rule, as compared with the active ICR that shows eighty-eight sources. There are no new facilities expected to be constructed over the next three years of this ICR. The decline in the number of sources is due to: (1) Plant closures, including the cost to retrofit aging facilities increased due to the down turn in the economy; (2) corporate mergers; and (3) foreign competition. Therefore, there is a net decrease in the burden to industry.

Because there are no new sources with reporting requirements, no capital/

startup costs are incurred. The only cost that is incurred is for the operation and maintenance (O&M) of the monitoring equipment, which have decreased by \$333,125 due to the decline in the number of sources, as explained above.

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

AGENCY: Board of Governors of the Federal Reserve System, Federal Reserve System.

SUMMARY: Notice is hereby given of the final approval of a proposed information collection by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

OMB Desk Officer—Shagufta Ahmed—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street, NW., Washington, DC 20503.

Final approval under OMB delegated authority of the extension for three years, without revision, of the following report:

Report title: The Recordkeeping, Reporting and Disclosure Requirements in Connection with Regulation BB (Community Reinvestment Act (CRA)).

Agency form number: Reg BB.

OMB control number: 7100-0197.

Frequency: Annually.

Reporters: State member banks (SMBs).

Annual reporting hours: 52,127 hours.

Estimated average hours per response: Recordkeeping Requirement, small business and small farm loan register, 219 hours. Optional Recordkeeping Requirements, consumer loan data, 326 hours and other loan data, 25 hours. Reporting Requirements, assessment area delineation, 2 hours; small business and small farm loan data, 8 hours; community development loan data, 13 hours; and Home Mortgage Disclosure Act (HMDA) out of Metropolitan Statistical Areas (MSA) loan data, 253 hours. Optional Reporting Requirements, data on lending by a consortium or third party, 17 hours; affiliate lending data, 38 hours; strategic plan, 275 hours; and request for designation as a wholesale or limited purpose bank, 4 hours. Disclosure Requirement, public file, 10 hours.

Number of respondents:

Recordkeeping Requirement, small business and small farm loan register, 72. Optional Recordkeeping Requirements, consumer loan data, 24 and other loan data, 4. Reporting Requirements, assessment area delineation, 72; small business and small farm loan data, 72; community development loan data, 72; and HMDA out of MSA loan data, 72. General description of report: This information collection is authorized by section 806 of the CRA which permits the board to issue regulations to carry out the purpose of CRA (12 U.S.C. 2905), Section 11 of the Federal Reserve Act (FRA), which permits the Board to require such statements as reports of SMBs as it deems necessary (12 U.S.C. 248(a)(1)), and section 9 of the FRA, which permits the Board to examine SMBs (12 U.S.C. 325). The requirements are generally mandatory, depending on bank size and other factors. The data that are reported to the Federal Reserve are not considered confidential.

Abstract: This submission covers an extension of the Federal Reserve's currently approved information collections in their CRA regulations (12

CFR part 228). The submission involves no change to the regulation or to the information collection. The Federal Reserve System needs the information collected to fulfill their obligations under the CRA to evaluate and assign ratings to the performance of institutions in connection with helping to meet the credit needs of their communities, including low- and moderate-income neighborhoods, consistent with safe and sound banking practices. The Federal Reserve System uses the information in the examination process and in evaluating applications for mergers, branches, and certain other corporate activities. Financial institutions maintain and provide the information to the Federal Reserve System.

Current Actions: On July 21, 2011, the Federal Reserve published a notice in the **Federal Register** (76 FR 43686) requesting public comment for 60 days on the extension, without revision, of the recordkeeping, reporting and disclosure requirements in connection with Regulation BB. The comment period for this notice expired on September 19, 2011. The Federal Reserve did not receive any comments.

Board of Governors of the Federal Reserve System, October 4, 2011.

Jennifer J. Johnson,
Secretary of the Board.

Findings of Research Misconduct

AGENCY: Office of the Secretary, HHS.
ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has taken final action in the following case:

Shamarendra Sanyal, PhD Duke University: Based on an inquiry conducted by Duke University (Duke), admissions by the Respondent, and additional analysis conducted by ORI in its oversight review, ORI and Duke found that Dr. Shamarendra Sanyal, former postdoctoral scholar, Duke, engaged in research misconduct by falsifying data in a grant application submitted to the National Heart, Lung, and Blood Institute (NHLBI) of the National Institutes of Health (NIH).

Specifically, ORI found that the Respondent falsified Figure 2C of grant application 1 R01 HL107901-01, "Store-operated calcium entry in airway inflammation," by altering the gain settings in the instrument used to measure store-operated current (SOC) densities in a whole cell patch clamp experiment comparing Stim 1^{+/+} mouse airway cells and wild type mouse airway cells.
