SUPPLEMENTARY INFORMATION: In 2003, Homeland Security Presidential Directive-8: National Preparedness (HSPD–8) called for establishing a system that would assess the Nation's overall preparedness and provide an annual status report of national preparedness. Three years later, the Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) included requirements to establish a "comprehensive system to assess, on an ongoing basis, the Nation's prevention capabilities and overall preparedness."

The National Preparedness Directorate (NPD) within FEMA is charged with developing the Comprehensive Assessment System (CAS). The CAS will, as mandated by 6 U.S.C. 749, assess compliance with the national preparedness system, the National Incident Management System (NIMS), and other related plans; assess capability levels against target levels; assess resource needs to meet target levels; and assess the performance of training, exercises, and operations.

Collection of Information

Title: PrepCAST.

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660–0087.

Form Titles and Numbers: None.

Abstract: PrepCAST is a collection instrument that will collect preparedness information at the State, local, and Tribal jurisdiction level. It also collects National Incident Management System (NIMS) compliance information. It is being deployed to eliminate the redundant data calls on national preparedness to reduce the burden on respondents. Ultimately the collection will provide insight into the overall preparedness level of the Nation.

Affected Public: State, local, or Tribal Government.

Estimated Total Annual Burden

Hours: 19,630 hours.

Estimated Cost: There is no annual reporting and recordkeeping cost associated with this collection.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) Evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the

accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Gary L. Anderson,

Acting Chief Administrative Officer, Mission Support Bureau, Federal Emergency Management Agency, Department of Homeland Security.
