

continuing and timely national statistical data on wholesale trade activity for the period between economic censuses. The AWTS covers employer firms with establishments located in the United States and classified in the Wholesale Trade sector as defined by the 2007 NAICS. The 2011 AWTS will collect data for three components of wholesale activity: Wholesale distributors; manufacturers' sales branches and offices; and agents, brokers, and electronic markets. For wholesale distributors, the Census Bureau will collect data covering sales, e-commerce sales, year-end inventories held inside and outside the United States, purchases, and total operating expenses. For manufacturers' sales branches and offices, the Census Bureau will collect data covering annual sales, e-commerce sales, year-end inventories held inside and outside the United States and total operating expenses. For agents, brokers, and electronic markets, the Census Bureau will collect data covering commissions, total operating revenue, gross selling value, and total operating expenses. The Census Bureau has determined that the conduct of this survey is necessary as these data are not available publicly on a timely basis from non-governmental or other government sources.

A new sample of firms will be selected for the 2011 AWTS. It is expected that approximately 60–70% of the companies that are asked to report will be doing so for the first time (and, consequently, 60–70% of the old sample will no longer be asked to report). In order to link estimates from the new and prior samples, we will be asking companies to provide data for 2011 and 2010. The 2012 AWTS and subsequent years will request one year of data until a new sample is once again introduced.

Firms were selected for the AWTS survey using a stratified random sample based on industry groupings and annual sales size. We will provide report forms to the firms covered by this survey in January 2012 and will require their responses within 30 days after receipt. Firms' responses to the AWTS are required by law (Title 13 U.S.C. Sections 182, 224, and 225). The sample of firms selected will provide, with measurable reliability, statistics on annual sales, e-commerce sales, purchases, total operating expenses, year-end inventories held both inside and outside the United States, commissions, total operating revenue, and gross selling value, for 2011.

The data collected in this survey will be similar to that collected in the past and within the general scope and nature of those inquiries covered in the

economic census. These data are collected to provide a sound statistical basis for the formation of policy by various government agencies. Results will be available for use for a variety of public and business needs, such as economic and market analysis, company performance, and forecasting future demand.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C. 3501–3521, OMB approved the AWTS under OMB control number 0607–0195.

Based upon the foregoing, I have directed that the annual survey be conducted for the purpose of collecting these data.
