The areas described above aggregate approximately 12,200 acres of public lands in San Diego County.

The BLM has determined that this temporary segregation is necessary to ensure the orderly administration of the public lands by maintaining the status quo while it processes Tule's ROW application for the above described lands. The temporary segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the Mining Law, if one of the following events occurs: (1) The BLM issues a decision granting, granting with modifications, or denying Tule's ROW authorization request; (2) Publication in the **Federal Register** of a notice terminating this segregation; or (3) No further administrative action occurs at the end of this segregation. Any segregation made under this authority is effective only for a period of up to 2 years.

Comments on the Draft EIR/EIS received from the public and internal BLM review were considered and incorporated as appropriate into the Final EIR/EIS. Public comments resulted in the addition of clarifying text, but did not significantly change the analysis.

Authority: 40 CFR 1506.6 and 1506.10.
