Food Safety and Inspection Service

Title: Salmonella Initiative Program.

OMB Control Number: 0583–New.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. The Salmonella initiative Program (SIP) offers incentives to meat and poultry slaughter establishments to control Salmonella in their operations. SIP benefits public health because it encourages establishments to test for microbial pathogens, which is a key feature of effective process control.

Need and Use of the Information: Under SIP, establishments will share their data with the Food Safety and Inspection Service (FSIS); this will help the Agency in formulating its policy. Establishments that want to enter SIP must send a protocol to FSIS informing the Agency about their plans for implementing SIP in their establishment, including data collection, objectives and methods of evaluating the new technology for which they are receiving the regulator waiver.

Stainless Steel Plate in Coils From Belgium: Notice of Preliminary Results of Antidumping Duty Changed Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from the interested party, Aperam Stainless Belgium N.V. ("Aperam"), the Department of Commerce ("the Department") initiated a changed circumstances review ("CCR") of the antidumping duty order of stainless steel plate in coils ("SSPC") from Belgium.¹ We have preliminarily determined that Aperam is the successor-in-interest to ArcelorMittal Stainless Belgium N.V. ("AMSB") with respect to the antidumping duty order on SSPC from Belgium.² We invite interested parties to comment on these preliminary results. Parties who submit comments in these reviews are requested to submit with each argument (1) A statement of the issue and (2) a brief summary of the argument.

DATES: *Effective Date:* October 26, 2011.

FOR FURTHER INFORMATION CONTACT: George McMahon or Stephanie Moore, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1167 and (202) 482-3692, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On May 21, 1999, the Department published in the **Federal Register** an antidumping duty order on stainless steel plate in coils from Belgium. See

Antidumping Order. In the Department's initial less-than-fair-value investigation, the respondent company subject to investigation was ALZ N.V. On June 1, 2009, the Department determined that AMSB was the successor-in-interest to Ugine & ALZ Belgium ("U&A Belgium"), which was a successor-in-interest to ALZ N.V.³ The Department is currently conducting an administrative review of Aperam covering the period of review of May 1, 2010 through April 30, 2011.⁴

On June 14, 2011, Aperam requested that the Department initiate and conduct an expedited changed circumstances review to determine that for purposes of the antidumping law, Aperam is the successor-in-interest to AMSB.⁵ In response to Aperam's request, the Department initiated a changed circumstances review of the antidumping duty order on SSPC from Belgium. See *CCR Initiation Notice*. On August 8, 2011, the Department issued a questionnaire to Aperam and based on our analysis of its response, we preliminarily determine that Aperam is the successor-in-interest to AMSB, which was itself a successor-in-interest to the respondent in the less-than-fair-value investigation, and that, as such, Aperam is entitled to receive the same antidumping duty treatment accorded AMSB. We have received no comments from the petitioners⁶ regarding Aperam's CCR request or questionnaire response.

Scope of the Antidumping Duty Order

The product covered by this order is certain stainless steel plate in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject plate products are flat-rolled products, 254 mm or over in width and 4.75 mm or more in thickness, in coils, and annealed or otherwise heat treated and pickled or
