are coordinating with local trucking associations to minimize freight traffic disruptions. The Indiana Department of the Revenue and the INDOT have suspended all oversize permits routed on I–64 and are redirecting permitted loads to cross the Ohio River at the following locations: Evansville US 41 Bridge, Rockport US 231 Bridge, and Lawrenceburg I–275 Bridge.

The KYTC is currently directing oversize and overweight permitted loads to avoid all of the Louisville bridges and seek alternate routes. Interested parties may apply for such permits to cross the Ohio River at the following locations: Henderson US 41 Bridge, Paducah I–24 Bridge, Owensboro US 231 Bridge, and Northern KY I–275 Bridge.

Commercial motor vehicles of the dimensions and configurations described in 23 CFR 658.13 and 658.15 which serve the affected area may use the alternate routes listed above. Vehicles servicing the businesses bordering the impacted area will still be able to do so by also using the alternate routes noted above and local signage to circulate around the restricted area.

The United States Coast Guard has not placed any restrictions on the Ohio River traffic around the area of the Sherman-Minton Bridge at this time. **Authority:** 23 U.S.C. 127, 315 and 49 U.S.C. 31111, 31112, and 31114; 23 CFR part 658.
