

development resources for potential new therapeutics for the treatment of cancer. The outcome of the evaluation will provide information to internal NCI committees that will decide whether NCI should support requests and make available contract resources for development of the potential therapeutic to improve the treatment of various forms of cancer. The research proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the proposed research projects, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel, NCI Experimental Therapeutics Program (NExT).
Date: December 7, 2011.

Time: 8:30 a.m.–4:30 p.m.

Agenda: To evaluate the NCI Experimental Therapeutics Program Portfolio.

Place: Marriott North Conference Center, 5701 Marinelli Road, Rockville, MD 20852.

Contact Person: Dr. Barbara Mroczkowski, Executive Secretary, NCI Experimental Therapeutics Program, National Cancer Institute, NIH, 31 Center Drive, Room 3A44, Bethesda, MD 20817, (301) 496–4291, mroczkowskib@mail.nih.gov.

Center for Scientific Review; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial

property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Center for Scientific Review Special Emphasis Panel, Small Business: Digestive Sciences.

Date: November 14, 2011.

Time: 8 a.m. to 6 p.m.

Agenda: To review and evaluate grant applications.

Place: Bethesda North Marriott Hotel & Conference Center, 5701 Marinelli Road, Bethesda, MD 20852.

Contact Person: Mushtaq A. Khan, D.V.M., PhD, Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 2176, MSC 7818, Bethesda, MD 20892, (301) 435–1778, khanm@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel, Program Project: Program in Virus Translational Control.

Date: November 17–18, 2011.

Time: 8 a.m. to 12 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: David R. Jollie, PhD, Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 4150, MSC 7806, Bethesda, MD 20892, (301) 435–1722, jollieda@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel, Member Conflict: Brain Diseases—Multiple Sclerosis, Amyotrophic Lateral Sclerosis, Frontal Temporal Dementia.

Date: November 17, 2011.

Time: 1 p.m. to 3 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 Telephone Conference Call).

Contact Person: Samuel C. Edwards, PhD, IRG Chief, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 5210, MSC 7846, Bethesda, MD 20892, (301) 435–1246, edwardss@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel, Program Project: NMR and Computational Studies of Biomolecules.

Date: November 21–23, 2011.

Time: 9 a.m. to 11:59 a.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: James W. Mack, PhD, Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 4154, MSC 7806, Bethesda, MD 20892, (301) 435–2037, mackj2@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel, Member Conflict: Viral Pathogenesis and Immunity.

Date: December 1–2, 2011.

Time: 11 a.m. to 6 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Kenneth M. Izumi, PhD, Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge, Rm 3204, MSC 7808, Bethesda, MD 20892, (301) 496–6980, izumikm@csr.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine; 93.333, Clinical Research; 93.306, 93.333, 93.337, 93.393–93.396, 93.837–93.844, 93.846–93.878, 93.892, 93.893; National Institutes of Health, HHS)

Dated: October 21, 2011.

National Institute on Deafness and Other Communication Disorders Draft 2012–2016 Strategic Plan

AGENCY: National Institute on Deafness and Other Communication Disorders (NIDCD), National Institutes of Health (NIH), Department of Health and Human Services (DHHS).

ACTION: Notice.

SUMMARY: The National Institute on Deafness and Other Communication Disorders (NIDCD), National Institutes of Health (NIH) is requesting public comment on the draft 2012–2016 NIDCD Strategic Plan. The NIDCD supports and conducts research and research training in the areas of hearing and balance; smell and taste; and voice, speech, and language. The Strategic Plan serves as a guide to the NIDCD in prioritizing its research investment, illustrates the current state-of-the-science, and highlights recent advances in the communication sciences. The draft Plan presents a series of goals and objectives that represent the most promising research needs within the NIDCD's mission areas. The draft Plan is available for download at: <http://www.nidcd.nih.gov/about/plans/strategic/pages/publiccomments.aspx>.

DATES: Comments will be accepted through November 23, 2011.

ADDRESSES: Comments must be submitted electronically via the Web-based form at: <http://www.nidcd.nih.gov/about/plans/strategic/pages/publiccomments.aspx>. The Web-based form accepts text but cannot accept attachments. You will receive an electronic confirmation acknowledging receipt of your response, but will not receive individualized feedback from NIDCD on any comments.

FOR FURTHER INFORMATION CONTACT: Specific questions about this Notice should be directed to: NIDCDStrategicPlan@mail.nih.gov.

SUPPLEMENTARY INFORMATION: The NIDCD's mission is to conduct and support biomedical research, behavioral research, and research training in the normal and disordered processes of hearing, balance, smell, taste, voice, speech, and language. The institute also conducts and supports research and research training related to disease prevention and health promotion; addresses special biomedical and behavioral problems associated with people who have communication impairments or disorders; and supports efforts to create devices that substitute for lost and impaired sensory and communication function. To accomplish these goals, the NIDCD manages a broad portfolio of both basic and clinical research. The portfolio is organized into three program areas: Hearing and balance; smell and taste; and voice, speech, and language. The three program areas seek to answer fundamental scientific questions about normal function and disorders and to identify patient-oriented scientific discoveries for preventing, screening, diagnosing, and treating disorders of human communication.

The draft 2012–2016 NIDCD Strategic Plan has been developed over the past 12 months by NIDCD staff in consultation with scientific experts, the National Deafness and Other Communication Disorders Advisory Council, and the public. (Details of the development process are included in Appendix C of the draft Plan.) The goals listed in the draft Plan are an assessment of research areas that present the greatest scientific opportunities and public health needs over the next five years for the three program areas: Hearing and balance; smell and taste; and voice, speech and language.

The NIDCD has identified four Priority Areas that have the potential to increase our understanding of the normal and disordered processes of hearing, balance, smell, taste, voice, speech, and language and to further our

knowledge in human communication sciences. They are:

- **Priority Area 1—Understanding Normal Function:** Deepen our understanding of the mechanisms underlying normal function of the systems of human communication. By defining what is normal in both animal models and humans, we can better understand mechanisms of disease.
- **Priority Area 2—Understanding Diseases and Disorders:** Increase our knowledge of the mechanisms of diseases, disorders, and dysfunctions that impair human communication and health. Understanding mechanisms that underlie diseases and disorders is an important step in developing better prevention and treatment strategies.
- **Priority Area 3—Improving Diagnosis, Treatment, and Prevention:** Develop, test, and improve diagnosis, treatment, and prevention of diseases, disorders, and dysfunctions of human communication and health. Diagnosis considers normal function and provides targets for prevention and treatment. Improvements in prevention and treatment lead to better outcomes with fewer side effects.
- **Priority Area 4—Improving Outcomes for Human Communication:** Accelerate the translation of research discoveries into practice; increase access to health care; and enhance the delivery, quality, and effectiveness of care to improve personal and public health. Scientifically-validated prevention and treatment models will lead to better personal and public health only if they are translated effectively into routine practice.

The goals presented in the Plan are a guide for:

- **Scientists:** To better understand the directions that NIDCD research may take in the future;
- **The NIDCD:** To assist in developing funding opportunity announcements and to identify projects for high program priority nomination; and
- **The Public:** To understand the state of communication sciences and to discover the scientific breakthroughs that are possible with sustained investments in biomedical research.

Responses to this Notice are voluntary. Proprietary, classified, confidential, or sensitive information should not be included in your response. The Government reserves the right to use any non-proprietary technical information in any resultant solicitation(s). Names and affiliation (when submitted) may be subject to release in response to requests made under the U.S. Freedom of Information Act.

This Notice is for information and planning purposes only and should not be construed as a solicitation or as an obligation on the part of the Federal Government, or the NIH. The NIH does not intend to award a grant or contract to pay for the preparation of any information submitted or for the NIH's use of such information. No basis for claims against the NIH shall arise as a result of a response to this request for information or the NIH's use of such information as part of the NIDCD Strategic Plan.

The NIDCD anticipates that the finalized plan will be published on the NIDCD Web site in January 2012.

Dated: October 20, 2011.

James F. Battey,

Director, NIDCD, National Institutes of Health.

Announcement of Requirements and Registration for the NIBIB Design by Biomedical Undergraduate Teams (DEBUT) Challenge

Authority: 15 U.S.C. 3719.

AGENCY: National Institute of Biomedical Imaging and Bioengineering, National Institutes of Health (NIH), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The National Institute of Biomedical Imaging and Bioengineering (NIBIB) DEBUT Challenge is open to teams of undergraduate students working on projects that develop innovative solutions to unmet health and clinical problems. NIBIB's mission is to improve health by leading the development and accelerating the application of biomedical technologies. The goals of the DEBUT Challenge are (1) to provide undergraduate students valuable experiences such as working in teams, identifying unmet clinical needs, and designing, building, and debugging solutions for such open-ended problems; (2) to generate novel, innovative tools to improve health care, consistent with NIBIB's purpose to support research, training, dissemination of health information, and other programs with respect to biomedical imaging and engineering and associated technologies and modalities with biomedical
