Proposed Project: Generic Clearance for Communications Testing for Comprehensive Communication Campaign for HITECH Act—Revision—OMB No. 0990-0376—Office of the National Coordinator for Health Information Technology.

Abstract: As part of the Health Information Technology for Economic and Clinical Health Act (HITECH Act) of 2009, ONC is proposing to conduct a nationwide communication campaign to meet the Congressional mandate to educate the public about privacy and security of electronically exchanged personal health information. ONC requires formative and process information about different segments of the public to conduct the campaign effectively. Data collection will occur continuously through the 24 months of

the campaign and be used to inform campaign strategies, messages, materials and Web sites. Due to the growing use of mobile devices in exchanging personal health information electronically, ONC is proposing a revision of the currently approved collection to increase focus group burden hours and explore consumer attitudes and preferences regarding the communication of personal health information electronically using mobile devices. Additionally, an increase in burden hours is necessary to understand attitudes and preferences regarding how privacy and security information is presented to consumers electronically. ONC is collaborating with the HHS Office of Civil Rights to oversee the education and communication activities to build approval for HIT adoption and meaningful use, educate the public about privacy and security and increase participation in health information exchange.

Electronic health information exchange promises an array of potential benefits for individuals and the U.S. health care system through improved health care quality, safety, and efficiency. At the same time, this environment also poses new challenges and opportunities for protecting health information, including methods for individuals to engage with their health care providers and affect how their health information may be exchanged.
