Notice of Lodging of Consent Decree Under the Clean Water Act

Notice is hereby given that on October 31, 2011, a proposed Consent Decree in *United States of America v. E.I. Du Pont de Nemours & Co.*, Case No. 1:11-cv-01057-UNA, D.J. Ref. 90-5-2-1-09746, was lodged with the United States District Court for the District of Delaware.

In this action the United States and Delaware sought civil penalties and injunctive relief in connection with Defendant E.I. Du Pont de Nemours & Co.'s ("Dupont") violations of (1) Sections 301(a), 309(b) and (d), and 402 of the Federal Water Pollution Control Act, also known as the Clean Water Act, 42 U.S.C. 1311(a), 1319(b) and (d), and 1342 (the "CWA"), and (2) the Delaware Environmental Protection Act, 7 Del.OC. §§ 6001 *et seq.*, and Delaware's Regulations Governing the Control of Water Pollution, 7 *Del. Admin. Code* § 7201. The United States and Delaware contend that Dupont violated its National Pollutant Discharge Elimination System permit on numerous occasions at its titanium dioxide production facility in Edge Moor, Delaware ("Edge Moor Plant"), near Wilmington, and also committed violations related to an inadequate Stormwater Pollution Prevention Plan and deficient Best Management Practices.

Under the proposed consent decree, Dupont has obligated itself to perform a comprehensive engineering study of the wastewater treatment plant and wastewater collection system at the Edge Moor Plant to correct any conditions which may result in violations of the above federal and state environmental protection laws. It has also agreed to pay a civil penalty of \$500,000 to resolve its alleged liability. The penalty will be shared equally by the United States and Delaware.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form labels are CPSC, Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice.

4. *Affected Public Who Will be Asked or Required to Respond, as well as a Brief Abstract:* Problem-solving courts at all levels of government. Abstract: The Bureau of Justice Statistics (BJS) proposes to implement a Census of Problem-Solving Courts (CPSC). Problem-solving courts target defendants who have ongoing social and/or psychological conditions that underlie their repeated contact with the criminal justice system. Most of the existing information about problem-solving courts (PSC) consists of court evaluations or outcome analyses. No prior census of these courts has been conducted to date despite the substantial proliferation of such courts during the past thirty years. Hence, the CPSC will allow BJS to provide national level information on problem-solving courts and case processing statistics and it will also create a sampling frame of PSCs thereby enabling BJS to conduct future sample-based research on PSCs.

The CPSC is designed to provide BJS and other interested stakeholders with the first systematic empirical information on problem-solving courts. A goal of the census is to obtain information on problem-solving court operations, administration, and to generate accurate and reliable statistics on adult offenders who enter problem-

solving court programs. The CPSC will collect information on the following categories:

- a. Court Operations:
 - i. Does the court operate within the judiciary, have a dedicated judicial officer, or have a dedicated docket/calendar?
 - ii. Provide the number of problem-solving courts by type (e.g., mental health, drug, etc.)
 - iii. Determine PSCs level of government operations (e.g., local, state, etc.), court jurisdiction (e.g., limited, general, other) and intake of felony, misdemeanor, or status offenses
 - b. Funding: Types and prevalence of PSC funding (e.g., local government budget, state budget, etc.)
 - c. Commonly Used Services:
 - i. Count the types and prevalence of offender/victim services (e.g., anger management), counseling or treatment services (e.g., outpatient mental health treatment), and general supportive services (e.g., life skills)
 - d. Participant participation:
 - i. Participant inclusionary and exclusionary factors,
 - ii. Participant point of entry (e.g. pre-plea, post-plea/pre-sentence, etc.)
 - e. Capacity and Enrollment:
 - i. Total number of active participants PSC can manage at any one time
 - ii. Current number of active participants
 - f. Data Collection Practices:
 - i. Use of automated case management systems
 - ii. PSCs' ability to query information
 - g. PSC Participant information:
 - i. Percentage of program participants by age, gender, racial classification,
 - ii. Housing status
 - iii. Employment status
 - h. PSC information for calendar year 2011 only:
 - i. Number of people referred and admitted to PSCs,
 - ii. PSCs' average participant attendance to: Scheduled judicial, community supervision meetings, treatment sessions, and drug tests
 - iii. Number of participants exiting program,
 - iv. Number of participants by gender, race, and age.
- Additionally, the information collected through this census will support development of a sampling framework to examine case processing information and case dispositions of adults in problem-solving courts. Information will be collected for the 2011 calendar year.
5. *An Estimate of the Total Number of Respondents and the Amount of Time Estimated for an Average Respondent to Respond:* Estimates suggest 3,800
