Among the requirements in the Act is a directive to the IOOC to "develop contract certification standards and compliance procedures for all non-Federal assets, including regional information coordination entities, to establish eligibility for integration into the System and to ensure compliance with all applicable standards and protocols established by the Council, and ensure that regional observations are integrated into the System on a sustained basis." The IOOC chartered two working groups consisting of subject matter experts on IOOS data partners and regional entities to draft recommended certification criteria. The recommended criteria were approved by the IOOC on 20 October 2011 and further information on the specific criteria can be obtained by contacting the IOOC Support Office as directed in the section above.

The IOOC is the federal interagency group established to lead the interagency planning and coordination of ocean observing activities including IOOS, and is represented by federal agencies, with NOAA identified as the lead federal agency by for IOOS implementation and administration.
