

petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

101 Innovations, LLC, of Ferndale, Washington (101 Innovations) (Registered Importer 07–350) has petitioned NHTSA to decide whether nonconforming 1987–1994 ALPINA B11 sedan model passenger cars are eligible for importation into the United States. 101 Innovations believes that these vehicles are capable of being modified to meet all applicable FMVSS.

In its petition, 101 Innovations described the 1987–1994 ALPINA B11 sedan as a modified version of the 1987–1994 BMW 7-series (e32) sedan that was manufactured for sale in the United States and certified by BMW as complying with all applicable FMVSS. The petitioner noted, however, that these vehicles were altered by ALPINA and, as altered, were assigned vehicle identification numbers (VINs) by ALPINA that differ from those assigned to the base vehicles manufactured by BMW. In view of these circumstances, the petitioner acknowledged that it could not base its petition on the substantial similarity of the 1987–1994 ALPINA B11 sedan to the U.S.-certified 1987–1994 BMW 7-series (e32) sedan, but would instead need to establish import eligibility on the basis that the vehicles have safety features that comply with, or are capable of being modified to comply with, the FMVSS based on destructive test data or such other evidence that NHTSA decides to be adequate. The petitioner did note, however, that the 1987–1994 ALPINA B11 sedan utilizes the same components as the U.S.-certified 1987–1994 BMW 7-series (e32) sedan in virtually all of the systems subject to the FMVSS.

101 Innovations submitted information with its petition intended to demonstrate that non-U.S. certified 1987–1994 ALPINA B11 sedans conform to many FMVSS and are capable of being altered to comply with all other standards to which they were not originally manufactured to conform.

Specifically, the petitioner claims that non-U.S. certified 1987–1994 ALPINA B11 sedans, as originally manufactured, conform to: Standard Nos. 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic Brake Systems*, 106 *Brake Hoses*, 107 *Reflecting Surfaces*, 109 *New Pneumatic Tires*, 113 *Hood Latch System*, 116 *Motor Vehicle Brake Fluids*, 124 *Accelerator Control*

Systems, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 210 *Seat Belt Assembly Anchorages*, 211 *Wheel Nuts, Wheel Discs and Hub Caps*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

In addition, the petitioner claims that the vehicles comply with the Bumper Standard found in 49 CFR Part 581.

The petitioner also contends that the vehicles are capable of being altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: installation of U.S.-model instrument cluster and U.S.-version software.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: installation of U.S.-model: (a) headlamps; (b) front and rear side marker lamps; and (c) rear high mounted stop lamp and associated wiring.

Standard No. 110 *Tire Selection and Rims*: installation on the vehicle of a tire information placard.

Standard No. 111 *Rearview Mirrors*: installation of a U.S.-model passenger side rearview mirror, or inscription of the required warning statement on the face of that mirror.

Standard No. 114 *Theft Protection*: installation of U.S.-version software and a U.S.-model ignition switch to meet the requirements of this standard.

Standard No. 115 *Vehicle Identification*: installation of a vehicle identification plate near the left windshield post to meet the requirements of this standard.

Standard No. 118 *Power-Operated Window, Partition, and Roof Panel Systems*: inspection of all vehicles and modification or deactivation of any remote activation features that cause the system not to conform to the standard.

Standard No. 208 *Occupant Crash Protection*: (a) Installation of U.S.-model knee bolsters; and (b) inspection of all vehicles and replacement of any non U.S.-model air bag system components, including all warning systems, warning labels and telltales, with U.S.-model components on vehicles not already so equipped.

Standard No. 209 *Seat Belt Assemblies*: inspection of all vehicles and replacement of any non U.S.-model seat belt components on vehicles not already so equipped.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: November 2, 2011.

Claude H. Harris,

Director, Office of Vehicle Safety Compliance.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Delays in Processing of Special Permits Applications

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of Applications Delayed more than 180 days.

SUMMARY: In accordance with the requirements of 49 U.S.C. 5117(c), PHMSA is publishing the following list of special permit applications that have been in process for 180 days or more. The reason(s) for delay and the expected completion date for action on each application is provided in association with each identified application.

FOR FURTHER INFORMATION CONTACT:

Ryan Paquet, Director, Office of Hazardous Materials Special Permits and Approvals, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH–30, 1200 New Jersey Avenue Southeast, Washington, DC 20590–0001, (202) 366–4535.

Key to “Reason for Delay”

1. Awaiting additional information from applicant
2. Extensive public comment under review
3. Application is technically complex and is of significant impact or precedent-setting and requires extensive analysis
4. Staff review delayed by other priority issues or volume of special permit applications

Meaning of Application Number Suffixes

N—New application

M—Modification request

R—Renewal Request

P—Party To Exemption Request

Issued in Washington, DC, on November 1, 2011.

Donald Burger,*Chief, General Approvals and Permits.*
