II. Discussion

On September 1, 2011 (76 FR 54507), the NRC published for public comment Draft Generic Letter 2011–XX: Seismic Risk Evaluations for Operating Reactors to inform addressees that the NRC requests addressees to evaluate their facilities to determine the current level of seismic risk and to submit the requested information to facilitate the NRC's determination if there is a need for additional regulatory action. The public comment period was scheduled to expire on October 31, 2011; however, on September 16, 2011 (76 FR 57767), the NRC issued a correction and extended the public comment period to November 15, 2011. In order to allow the public sufficient time to review and comment on the Draft Generic Letter, the NRC has decided to extend the comment period for the Draft Generic Letter until December 15, 2011.

Dated at Rockville, Maryland, this 31 day of October, 2011.

For the Nuclear Regulatory Commission.
