SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed at the end of the pesticide petition summary of interest.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the agency taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioners. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petitions described in this document contain the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this document, prepared by the petitioner, is included in a docket EPA has created for each

rulemaking. The docket for each of the petitions is available on-line at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

New Tolerances

1. *PP 1E7908.* (EPA-HQ-OPP-2011-0759). Interregional Research Project Number 4 (IR-4), 500 College Road East, Suite 201 W, Princeton, NJ 08540, requests to establish tolerances in 40 CFR part 180 for residues of the insecticide buprofezin, in or on bean, succulent at 0.02 parts per million (ppm); *Brassica*, leafy greens, subgroup 5B at 55 ppm; turnip, greens at 55 ppm; vegetable, fruiting, group 8-10 at 3.0 ppm; fruit, citrus, group 10-10 at 2.5 ppm; fruit, pome, group 11-10 at 4.0 ppm; persimmon at 1.9 ppm; and tea at 20 ppm. This summary has been prepared by Nichino America, Inc., 4550 New Linden Hill Road, Suite 501, Wilmington, DE 91808, the registrant. The proposed analytical method involves extraction, partition, clean-up and detection of residues by gas chromatography using nitrogen phosphorous detection (GC/NPD). Contact: Andrew Ertman, (703) 308-9367, email address: ertman.andrew@epa.gov.

2. *PP 1E7919.* (EPA-HQ-OPP-2011-0792). Interregional Research Project Number 4 (IR-4), 500 College Road East, Suite 201 W, Princeton, NJ 08540, requests to establish tolerances in 40 CFR part 180 for residues of the insecticide acetamiprid, *N* 1-[(6-chloro-3-pyridyl)methyl]- *N* 2-cyano- *N* 1-methylacetamidine, in or on asparagus at 0.8 ppm; *Brassica*, leafy greens, subgroup 5B at 15 ppm; corn, sweet, kernel plus cob with husks removed at 0.01 ppm; corn, sweet, forage at 10 ppm; corn, sweet, stover at 30 ppm; vegetable, fruiting, group 8-10 at 0.20 ppm; fruit, citrus, group 10-10 at 0.50 ppm; fruit, pome, group 11-10 at 1.0 ppm; and *Brassica*, head and stem, subgroup 5A at 1.20 ppm. Based upon the metabolism of acetamiprid in plants and the toxicology of the parent and metabolites, quantification of the parent acetamiprid is sufficient to determine toxic residues. As a result a method was developed that involves extraction of acetamiprid from crop matrices with a solvent followed

by a decantation and filtration and finally analysis by a liquid chromatography with tandem mass spectrometry (LC/MS/MS) method. Contact: Laura Nollen, (703) 305-7390, email address: nollen.laura@epa.gov.

3. *PP 1E7911.* (EPA-HQ-OPP-2011-0780). Summit Agro North America Holding Corporation, 600 Third Avenue, New York, NY 10016-2001, c/o Landis International, Inc., P.O. Box 5126, Valdosta, GA 31603-5126, requests to establish tolerances in 40 CFR part 180 for residues of the fungicide triforine, piperazine-1,4-diylbis(2,2,2-trichloroethane-1,1-diyl)diformamide in or on blueberry at 0.02 ppm; and tomato at 0.5 ppm. Adequate analytical enforcement methods are available to enforce the proposed tolerances. Triforine was extracted from blueberries, tomato and tomato paste with acetone.
