SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request an extension of the current Office of Management and Budget (OMB) clearance of the Manufacturers' Shipments, Inventories and Orders (M3) survey. The Manufacturers' Shipments, Inventories, and Orders (M3) survey requests data from domestic

manufacturers on form M-3 (SD), which will be mailed at the end of each month. Data requested are shipments, new orders, unfilled orders, total inventory, materials and supplies, work-in-process, and finished goods. It is currently the only survey that provides broad-based monthly statistical data on the economic conditions in the domestic manufacturing sector.

The M3 survey is designed to measure current industrial activity and to provide an indication of future production commitments. The value of shipments measures the value of goods delivered during the month by domestic manufacturers. Estimates of new orders serve as an indicator of future production commitments and represent the current sales value of new orders received during the month, net of cancellations. Substantial accumulation or depletion of unfilled orders measures excess or deficient demand for manufactured products. The level of inventories, especially in relation to shipments, is frequently used to monitor the business cycle.

We do not plan any changes to the M-3 (SD) form. The estimated total annual burden hours will remain 17,200 due to no increase in the number of respondents.

II. Method of Collection

Respondents submit data on form M-3 (SD) via mail, facsimile machine, or via the Internet. Analysts call respondents who usually report, to obtain data in time for preparing the monthly estimates.

Fresh and Chilled Atlantic Salmon From Norway: Final Results of Full Third Sunset Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 3, 2011, the Department of Commerce (the Department) initiated a sunset review of the antidumping duty (AD) order on fresh and chilled Atlantic salmon from Norway pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). *See Initiation of Five-Year ("Sunset") Review*, 76 FR 89 (January 3, 2011) (*Sunset Initiation*). On the basis of adequate substantive responses submitted by domestic and respondent interested parties, the Department determined to conduct a full sunset review of this AD order pursuant to section 751(c) of the Act and 19 CFR 351.218(e)(2). As a result of our analysis, the Department finds that revocation of the AD order would likely lead to continuation or recurrence of dumping.

DATES: *Effective Date:* November 14, 2011.
