BILLING CODE 4909–60–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Privacy Act of 1974, as Amended

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of Proposed New Privacy Act System of Records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. 552a, the Department of the Treasury, Internal Revenue Service, gives notice of a proposed new system of records entitled “Treasury/IRS 37.111—Preparer Tax Identification Number Records.”

DATES: Comments must be received no later than December 15, 2011. This new system of records will be effective December 20, 2011 unless the IRS receives comments that would result in a contrary determination.

ADDRESSES: Comments should be sent to the Office of Governmental Liaison and Disclosure, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224. Comments will be available for inspection and copying in the Freedom of Information Reading Room (Room 1621), at the above address. The telephone number for the Reading Room is (202) 622–5164 (not a toll-free number).

FOR FURTHER INFORMATION CONTACT: David R. Williams, Director, Return Preparer Office, 1111 Constitution Ave., NW., Washington, DC 20224. Phone: (202) 927–6428 (not a toll-free number).

SUPPLEMENTARY INFORMATION: The Return Preparer Review initiative represents a big step toward meeting the IRS strategic plan goals of increasing taxpayer compliance and ensuring uniform and high ethical standards of conduct for paid tax return preparers. The major components of the program include requiring paid tax return preparers to register with the IRS and obtain a preparer tax identification number (PTIN), requiring competency measurements (by testing or through other professional licensing) for paid tax return preparers, requiring continuing professional education for paid tax return preparers, extending the ethical rules found in Treasury Department Circular 230 to all paid tax return preparers, assessing the quality of return preparation and performing tax compliance checks and suitability checks on paid tax return preparers, and developing a publicly accessible and searchable database of paid tax return preparers who have registered and been issued a PTIN.

The proposed system will maintain administrative records pertaining to the issuance of PTINs to registered paid tax return preparers. This registration program will allow the IRS to better serve the public by requiring paid tax return preparers to register with the IRS, and to obtain and regularly renew their preparer tax identification number (PTIN). Paid tax return preparers may be subject to suitability checks, including background, fingerprint, and tax compliance checks, and to ethics and other regulatory rules; may be required to take competency tests; and may need to secure continuing education credits. IRS intends to notify the public of who is registered, and may provide to the public information sufficient to advise

the public if a preparer is removed from the program. The IRS will also maintain information about individual providers of continuing education for paid tax return preparers, and intends to make certain information about these providers available to the public to assist return preparers in locating appropriate continuing education opportunities and to enable taxpayers to know the subject matter of courses a paid tax return preparer may have taken.

A proposed rule exempting the proposed system of records from certain provisions of the Privacy Act will be published separately in the **Federal Register**.

One provision of the Act, 5 U.S.C. 552a(d)(5), allows an agency to exempt qualifying material and is frequently overlooked by the public until it is invoked by an agency. The Internal Revenue Service is providing notice of its authority to assert the exemption granted by subsection (d)(5) to any record maintained in any of its systems of records when appropriate to do so. 5 U.S.C. 552a(d)(5) states that “nothing in this [Act] shall allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.” This subsection permits an agency to withhold a record from the access provisions of the Privacy Act and reflects Congress’s intent to exclude civil litigation files which includes quasi-judicial administrative hearings from access under subsection (d)(1). Unlike the other Privacy Act exemptions (see 5 U.S.C. 552a(j)(2) and (k)), subsection (d)(5) is entirely “self-executing,” and as such it does not require an implementing regulation in order to be effective.
