**SUPPLEMENTARY INFORMATION:**

**I. Background**

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) U.S. Citizenship and Immigration Services (USCIS) proposes to update and reissue the DHS system of records titled, “DHS/USCIS–014 Electronic Immigration System-1 Temporary Accounts and Draft Benefit Requests System of Records.” This system of records notice

is being updated to reflect the incorporation of new forms, new categories of records, and clarified data retention to better inform the public. DHS received one public comment which did not address this system of records notice. DHS will not make any changes in response to the public comment.

DHS/USCIS is creating a new electronic environment known as the Electronic Immigration System (USCIS ELIS). USCIS ELIS allows individuals requesting a USCIS benefit to register online and submit certain benefit requests through the online system. This system will improve customer service; increase efficiency for processing benefits; better identify potential national security concerns, criminality, and fraud; and create improved access controls and better auditing capabilities.

DHS and USCIS promulgated the regulation “Immigration Benefits Business Transformation, Increment I” (August 29, 2011, 76 FR 53764) to allow USCIS to transition to an electronic environment. This regulation assists USCIS in the transformation of its operations by removing references and processes that inhibit the use of electronic systems or constrain USCIS’s ability to respond to new requirements.

Applicants and petitioners (Applicants); co-applicants, beneficiaries, derivatives, dependents, or other persons on whose behalf a benefit request is made or whose immigration status may be derived because of a relationship to an Applicant (Co-Applicants); and their attorneys and representatives accredited by the Board of Immigration Appeals (Representatives) may create individualized online accounts. These online accounts help Applicants and their Representatives file for benefits, track the status of open benefit requests, schedule appointments, change their addresses and contact information, and receive notices and notifications regarding their cases. Through USCIS ELIS, individuals may submit evidence electronically. Once an individual provides biographic information in one benefit request, USCIS ELIS uses that information to pre-populate any future benefit requests. This eases the burden on an individual so he or she does not have to repeatedly type in the same information.

USCIS is publishing three System of Records Notices (SORNs) to cover the following three distinct processes of this new electronic environment and the privacy and security protections incorporated into USCIS ELIS:

1. *Temporary Accounts and Draft Benefit Requests:* The Electronic

Immigration System-1 Temporary Accounts and Draft Benefit Requests SORN (DHS/USCIS–014) addresses temporary data provided by Applicants or Representatives. This temporary data includes temporary accounts for first-time Applicants and draft benefit request data from first-time Applicants, Applicants with permanent accounts, and Representatives. Applicants first interact with USCIS ELIS by creating a temporary account, setting notification preferences, and drafting the first benefit request. If a first-time Applicant does not begin drafting a benefit request within 30 days of opening the temporary account, USCIS ELIS deletes the temporary account. If he or she does not submit the benefit request within 30 days of starting a draft benefit request, USCIS ELIS deletes the temporary account and all draft benefit request data. If a first-time Applicant submits the benefit request within 30 days, USCIS ELIS changes the status of the account from temporary to permanent. Applicants with permanent USCIS ELIS accounts or Representatives may also draft benefit requests. USCIS ELIS deletes all draft benefit requests if they are not submitted within 30 days of initiation.

2. *Account and Case Management:* The Electronic Immigration System-2 Account and Case Management SORN (DHS/USCIS–015) addresses the activities undertaken by USCIS after Applicants or Representatives submit a benefit request. USCIS ELIS uses information provided on initial and subsequent benefit requests and subsequent collections through the Account and Case Management process to create or update USCIS ELIS accounts; collect any missing information; manage workflow; assist USCIS adjudicators as they make a benefit determination; and provide a repository of data to assist with future benefit requests. In addition, USCIS ELIS processes and tracks all actions related to the case, including scheduling appointments and issuing decision notices and/or proofs of benefit.

3. *Automated Background Functions:* The Electronic Immigration System-3 Automated Background Functions SORN (DHS/USCIS–016) addresses the actions USCIS ELIS takes to detect duplicate and related accounts and identify potential national security concerns, criminality, and fraud to ensure that serious or complex cases receive additional scrutiny.

This SORN addresses the USCIS ELIS temporary account process for first-time Applicants in USCIS ELIS and the draft benefit request process for all Applicants and Representatives.

Because USCIS ELIS collects this information before a benefit request is submitted, USCIS does not have an official need-to-know the information in the drafted benefit request. USCIS is segregating temporary account and draft benefit request information from permanent information in USCIS ELIS and preventing USCIS personnel (aside from USCIS ELIS System Administrators as part of their system maintenance duties) from viewing this temporary data until the Applicant or Representative submits the benefit request. USCIS will purge this information from USCIS ELIS if the Applicant or Representative does not submit the benefit request within 30 days of initiation. If the Applicant submits the benefit request, USCIS converts the temporary account to a permanent account and processes the benefit request information according to the guidelines set forth in the Electronic Immigration System-2 Account and Case Management SORN and Electronic Immigration System-3 Automated Background Functions SORN.

#### *Temporary Accounts*

DHS is clarifying the process used to establish and retain temporary accounts and draft benefit requests. USCIS ELIS creates temporary accounts for Applicants that have not previously submitted a benefit request through USCIS ELIS. These temporary accounts permit the first-time Applicant to log in to USCIS ELIS, set notification preferences, and draft a benefit request. If a first-time Applicant does not begin drafting a benefit request within 30 days of opening the temporary account, USCIS ELIS deletes the temporary account. If a first-time Applicant begins drafting a benefit request within 30 days of creating the temporary account, he or she will have 30 days to submit the benefit request. If he or she does not submit the benefit request within 30 days of starting a draft benefit request, USCIS ELIS deletes the temporary account and all draft benefit request data. If a first-time Applicant submits the benefit request within 30 days, USCIS ELIS changes the status of the account from temporary to permanent. This minimizes the time USCIS ELIS retains personally identifiable information (PII) about individuals that have no pending benefit requests with USCIS, while still giving Applicants time to draft and submit a benefit request. If the Applicant submits a benefit request within the time allotted, USCIS ELIS converts the temporary account to a permanent account and treats it according to the Electronic Immigration System-2 Account and

Case Management SORN and Electronic Immigration System-3 Automated Background Functions SORN.

#### *Draft Benefit Requests*

USCIS ELIS retains benefit requests drafted by Applicants or Representatives for 30 days from initiation to further minimize the PII retained by USCIS ELIS. This information is not accessible by USCIS personnel (aside from system administrators for system maintenance) and will only be shared internally for system maintenance purposes and externally to reduce the harm to individuals in the event the system is compromised. However, once a benefit request has been formally submitted to USCIS, the information will be retained and used according to the Electronic Immigration System-2 Account and Case Management SORN and Electronic Immigration System-3 Automated Background Functions SORN in order to maintain USCIS ELIS accounts and determine eligibility for requested benefits.

DHS is revising the list of legacy forms that will be incorporated into USCIS ELIS. Additional forms from which information will be collected will be posted to the USCIS ELIS Web site as the system develops. New categories of records collected on this revised list of forms include immigration history (citizenship/naturalization certificate number, removals, statuses, explanations, etc.), appeals or motions to reopen or reconsider decisions, U.S. State Department-Issued Personal Identification Number (PID), vaccinations, and medical referrals. In the first release of USCIS ELIS, USCIS collects information from the following updated list of forms:

- I-90—Application to Replace Permanent Residence Card (1615-0082), 08/31/12;
- I-102—Application for Replacement/Initial Nonimmigrant Departure Document (1615-0079), 08/31/12;

USCIS collects, uses, and maintains temporary account and draft benefit request information pursuant to the Immigration and Nationality Act of 1952, Public Law No. 82-414, sections 101 and 103, as amended.

This updated system will be included in DHS's inventory of record systems.

## **II. Privacy Act**

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which the U.S. Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/USCIS—014 Electronic Immigration System-1 Temporary Accounts and Draft Benefit Requests System of Records.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS)/U.S. Citizenship and Immigration Services (USCIS) proposes to update and reissue the DHS system of records titled, "DHS/USCIS-016 Electronic Immigration System-3 Automated Background Functions System of Records." This system of records notice is being updated to clarify the data retention policy and to recognize the issuance of a Final Rule exempting the system from portions of the Privacy Act. DHS received no public comments for this system of records notice. Consequently, DHS is not making any changes in response to public comments.

DHS/USCIS is creating a new electronic environment known as the Electronic Immigration System (USCIS ELIS). USCIS ELIS allows individuals requesting a USCIS benefit to register online and submit certain benefit requests through the online system. This system will improve customer service; increase efficiency for processing benefits; better identify potential national security concerns, criminality, and fraud; and create improved access controls and better auditing capabilities.

DHS and USCIS are promulgating the regulation "Immigration Benefits Business Transformation, Increment I" (August 29, 2011, 76 FR 53764) to allow for USCIS to transition to an electronic environment. This regulation will assist USCIS in the transformation of its

operations by removing references and processes that inhibit the use of electronic systems or constrain USCIS's ability to respond to changing workloads, priorities, and statutory requirements.

Applicants and petitioners (Applicants); co-applicants, beneficiaries, derivatives, dependents, or other persons on whose behalf a benefit request is made or whose immigration status may be derived because of a relationship to the Applicant (Co-Applicants); and their attorneys and representatives accredited by the Board of Immigration Appeals (Representatives) may create individualized online accounts. These online accounts help Applicants and their Representatives file for benefits, track the status of open benefit requests, schedule appointments, change their addresses and contact information, and receive notices and notifications regarding their particular cases. Through USCIS ELIS, individuals may submit evidence electronically. Once an individual provides biographic information for one benefit request, USCIS ELIS uses that information to pre-populate any future benefit requests by the same individual. This eases the burden on an individual so he or she does not have to repeatedly type in the same information and also reduces the number of possible errors.

USCIS is publishing three System of Records Notices (SORNs) to cover the following three distinct processes of this new electronic environment and the privacy and security protections incorporated into USCIS ELIS:

1. *Temporary Accounts and Draft Benefit Requests:* The Electronic Immigration System-1 Temporary Accounts and Draft Benefit Requests SORN (DHS/USCIS-014) addresses temporary data provided by Applicants or Representatives. This temporary data includes temporary accounts for first-time Applicants and draft benefit request data from first-time Applicants, Applicants with permanent accounts, and Representatives. Applicants first interact with USCIS ELIS by creating a temporary account, setting notification preferences, and drafting the first benefit request. If a first-time Applicant does not begin drafting a benefit request within 30 days of opening the temporary account, USCIS ELIS deletes the temporary account. If he or she does not submit the benefit request within 30 days of starting a draft benefit request, USCIS ELIS deletes the temporary account and all draft benefit request data. If a first-time Applicant submits the benefit request within 30 days, USCIS ELIS automatically changes the
