SUPPLEMENTARY INFORMATION:**I. Background**

DoD published a final rule at in the **Federal Register** at 76 FR 25569 on May 5, 2011, to implement in the Defense Federal Acquisition Regulation Supplement (DFARS) the DoD policy addressing the serious human health and environmental risks related to the use of hexavalent chromium. Hexavalent chromium is a chemical that has been used in numerous DoD weapons systems platforms due to its corrosion protection properties. However, hexavalent chromium is a known carcinogen. The final rule minimized the use of materials containing hexavalent chromium in items acquired by DoD, including the creation of a new DFARS clause, 252.223–7008, Prohibition of Hexavalent Chromium, which prohibits the contractor from providing any deliverables or construction material that—

(1) Contains hexavalent chromium in a concentration greater than 0.1 percent by weight in any homogeneous material; or

(2) Requires the removal or reapplication of hexavalent chromium materials during subsequent sustainment phases of the deliverable or construction material.

The final rule prescribed use of the clause in solicitations and contracts for supplies, maintenance and repair services, or construction, unless an exception at DFARS 223.7304 applies or use has been authorized in accordance with DFARS 223.7305.

II. Discussion and Analysis

The preamble to the final rule stated the clear intent that the rule should apply to commercial items. In response to a respondent who requested an exception for all commercial items, DoD stated that to provide an exception for all commercial items will jeopardize the intent of the rule and be contrary to DoD policy (section II.F.).

However, although the final rule did not specify an exception for commercial items, the rule overlooked the need to separately prescribe the clause in part 212 in order to require use of the clause in acquisitions conducted under part 212. FAR 12.301(d)(1) states that prescriptions contained elsewhere in the FAR do not apply to acquisitions under FAR part 12, unless separately included in FAR part 12.

Therefore, this rule proposes to correct that oversight and provide at

DFARS 212.301(f) the requirement for use of DFARS 252.223–7008 in contracts for the acquisition of commercial items, as prescribed at 223.7306. In addition, in order to flow the requirement down to commercial subcontracts under a noncommercial prime contract, the clause DFARS 252.223–7008 must be added to the list of clauses in DFARS 252.244–7000, Subcontracts for Commercial Items and Commercial Components (DoD Contracts).

In addition, the prescription at DFARS 244.403 for use of 252.244–7000 was simplified, so that DFARS 244.403 does not require update every time a clause is added to the list in 252.244–7000 for flow down to subcontracts for commercial items. Further, 252.244–7000 states that the listed clauses shall flow down when applicable. This rule augments the list of clauses in 252.244–7000 with indication of the conditions of applicability for each clause.

III. Executive Orders 1286 and 13565

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because this rule is just correcting a drafting oversight in the rule published on May 5, 2011. DoD certified that that rule would not have a significant economic impact on a substantial number of small entities. Therefore, an initial regulatory flexibility analysis has not been performed. DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected

by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 201X–D047), in correspondence.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

SUPPLEMENTARY INFORMATION:

I. Background

DoD proposes to update policy and procedures in the Defense Federal Acquisition Regulation Supplement (DFARS) for electronic submission of payment requests and receiving reports through Wide Area WorkFlow (WAWF) and TRICARE Encounter Data System (TEDS). WAWF, which electronically interfaces with the primary DoD payment systems, is the accepted DoD system for generating invoices and receiving reports. TEDS is an accepted system for processing payment requests for rendered TRICARE health care services.

The capabilities of WAWF have expanded to enable use in a wider variety of environments by a wider variety of users. As such, this rule is intended to expand the use of WAWF for submission of payment requests and receiving reports and to standardize processes and instructions on the use of WAWF by accomplishing the following DFARS revisions:

- Update 232.7002(a)(1) to clarify that only payment requests (not receiving reports) for contracts paid for with the Governmentwide commercial purchase card are excepted from using WAWF;
- Remove the exception to the use of WAWF at 232.7002(a)(2) for contracts awarded to foreign vendors;
- Update 232.7002(a)(3) to specify a WAWF exception for contracts awarded by contracting officers for contingency, humanitarian, peacekeeping, or emergency response operations only when the use of WAWF is not feasible by the contractor;
- Update 232.7002(a)(4) to specify a WAWF exception for purchases made for an unusual or compelling need as defined in Federal Acquisition Regulation (FAR) 6.302-2 only when the use of WAWF is not feasible;
- Remove, at 232.7003(b), the contracting officer's authority to allow a contractor to submit a payment request and receiving report using an electronic form other than WAWF, unless a written determination is provided to the Senior Procurement Executive;
- Add at 232.7003(c), the use of TEDS for submitting and processing TRICARE payment requests and receiving reports for rendered health care services; and

- Provide a standard WAWF payment clause.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD expects that this proposed rule may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* Therefore, an Initial Regulatory Flexibility Analysis has been prepared and is summarized as follows:

The rule incorporates WAWF's new capability of capturing receiving reports for contracts paid for with a Governmentwide commercial purchase card and clarifies exceptions to the use of WAWF only when it is not feasible. The rule also consolidates and standardizes instructions to contractors on how to use the WAWF application. Furthermore, it eliminates locally defined methods that are in some cases causing confusion and inefficiencies, and it incorporates the use of TEDS for medical services requiring Health Insurance Portability and Accountability Act data not handled by WAWF.

DoD made small business awards to 60,000 companies in Fiscal Year 2010. With the exception of less than 4,000 companies that only received awards paid with a purchase card, this will be a simplification of procedures by allowing contractors to use the same process and systems for all DoD shipments.

This rule does not impose any new reporting or recordkeeping requirements.

The rule does not duplicate, overlap, or conflict with any other Federal rules. There are no significant alternatives to accomplish the stated objectives of this rule.
