

airspace area and Restricted Areas R-4001A and R-4001B when they are in effect. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Paragraph 6002 Class E Airspace Designated as Surface Areas

* * * * *

AEA MD E2 Baltimore, Martin State Airport, MD [Amended]

Martin State Airport, MD

(Lat. 39°19'54" N., long. 76°24'83" W.)

Baltimore VORTAC

(Lat. 39°10'12" N., long. 76°39'30" W.)

Within a 5.2-mile radius of Martin State Airport and within 4.4 miles each side of a 14.7-mile radius arc of the Baltimore VORTAC extending clockwise from the Baltimore VORTAC 030° radial to the VORTAC 046° radial, excluding that airspace within the Washington Tri-Area Class B airspace area and Restricted Areas R-4001A and R-4001B when they are in effect. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Paragraph 6004 Class E Airspace Designated as an Extension to a Class D Surface Area.

* * * * *

AEA MD E4 Baltimore, Martin State Airport, MD [Amended]

Martin State Airport, MD

(Lat. 39°19'54" N., long. 76°24'83" W.)

That airspace extending upward from the surface within 4 miles each side of a 134° bearing from Martin State Airport extending from the 5.2-mile radius of Martin State Airport to 9.2 miles southeast of the airport, excluding that airspace within the Washington Tri-Area Class B airspace area and Restricted Areas R-4001A and R-4001B when they are in effect. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Issued in College Park, Georgia, on November 17, 2011.

Mark D. Ward,

Manager, Operations Support Group, Easter Service Center, Air Traffic Organization.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2011-0785; Airspace Docket No. 11-AEA-20]

Amendment of Class E Airspace; Luray, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E Airspace at Luray, VA, to accommodate the new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures serving Luray Caverns Airport. This action enhances the safety and airspace management of Instrument Flight Rules (IFR) operations within the National Airspace System. This action also makes a minor adjustment to the geographic coordinates of the airport.

DATES: Effective 0901 UTC, February 9, 2012. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-6364.

SUPPLEMENTARY INFORMATION:

History

On August 22, 2011, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace at Luray, VA (76 FR 52292). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Subsequent to publication, the FAA found that the geographic coordinates of the airport needed to be adjusted. This action makes that adjustment. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71

amends Class E airspace extending upward from 700 feet above the surface at Luray, VA, to provide the controlled airspace required to accommodate the new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures developed for Luray Caverns Airport. This action also adjusts the geographic coordinates of the airport to be in concert with the FAA's aeronautical database. This action is necessary for the safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Luray Caverns Airport, Luray, VA.

Lists of Subjects in 14 CFR Part 71:

Airspace, Incorporation by reference, Navigation (Air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, effective September 15, 2011, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward from 700 feet or More Above the Surface of the Earth.

* * * * *

AEA VA E5 Luray, VA [Amended]

Luray Caverns Airport, VA
(Lat. 38°40'01" N., long. 78°30'02" W.)

That airspace extending upward from 700 feet above the surface within a 14.5-mile radius of Luray Caverns Airport.

Issued in College Park, Georgia, on November 17, 2011.

Barry A. Knight,

Acting Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG–2011–1068]

Drawbridge Operation Regulation; City Waterway Also Known as Thea Foss Waterway, Tacoma, WA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Thirteenth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the South 11th Street (“Murray Morgan”) Bridge across City Waterway also known as the Thea Foss Waterway, mile 0.6, at Tacoma, WA. The deviation is necessary to perform extensive maintenance and repair work on the bridge, including but not limited to removal and replacement of the roadway surface and the underlying steel stringer substructure as

part a major bridge rehabilitation project. This deviation allows the bridge to remain in the closed position during construction activities. This deviation is effective from 8 a.m. on November 14, 2011 through 6 p.m. April 30, 2012.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG–2011–1068 and are available online by going to <http://www.regulations.gov>, inserting USCG–2011–1068 in the “Keyword” box and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email the Bridge Administrator, Coast Guard Thirteenth District; telephone (206) 220–7282 email randall.d.overton@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION: The City of Tacoma has requested to place the South 11th Street “Murray Morgan” Bridge in the closed or down position and to not open the bridge for vessel traffic to facilitate a major rehabilitation project on the bridge. The South 11th Street Bridge crosses City Waterway mile 0.6 at Tacoma, WA. The South 11th Street Bridge is also known as the Murray Morgan Bridge and City Waterway is also known as Thea Foss Waterway. The South 11th Street Bridge is a vertical lift bridge. During this deviation the bridge will be placed in the close or down position. There will be a debris containment system attached to the underside of the bridge for the duration of construction activities. A minimum vertical clearance of 57 feet above mean high water will be provided beneath the bridge and the attached debris containment system, at all time during the deviation period. Vessels which do not require a bridge opening may continue to transit beneath the bridge during this closure period. Under normal operations the bridge operates under 33 CFR 117.1061 which requires a two hour notice for an opening and allows the bridge to not open during morning and afternoon rush hours. This current deviation states the lift span of the 11th Street South Bridge (Murray Morgan Bridge) across City Waterway (Thea Foss Waterway), mile 0.6, need not open from 8 a.m. November 14,

2011 through 6 p.m. April 30, 2012; except as otherwise outlined in this article and through ongoing coordination with waterway users. The bridge will be able to open during this maintenance period for emergent situations provided 12 hours of advance notification of an opening is given. The bridge will be placed in the open position: November 24–27, 2011; December 24, 2011 through January 1, 2012, and either April 14–15, 2012 or April 21–22, 2012, to be coordinated with the local waterway users. The bridge will also be opened during an additional weekend in January, February, and March to be determined in coordination with local waterway users.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: November 14, 2011.

Randall D. Overton,
Bridge Administrator.

[Docket No. USCG–2011–1058]

RIN 1625–AA00

Safety Zone; Truman-Hobbs Alteration of the Elgin Joliet & Eastern Railroad Drawbridge; Illinois River, Morris, IL

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the Illinois River near Morris, Illinois. This zone is intended to restrict vessels from a portion of the Illinois River due to the Truman-Hobbs alteration of the Elgin Joliet & Eastern Railroad Drawbridge. This temporary safety zone is necessary to protect the surrounding public and vessels from the hazards associated with the removal of the Elgin Joliet & Eastern Railroad Drawbridge’s old bridge piers and pier protection cells.

DATES: This rule is effective in the CFR from November 28, 2011 until December 9, 2011. It is effective for purposes of enforcement from 7 a.m. on November 16, 2011 until 7 a.m. on December 9, 2011.
