

their federal education loans. This makes repayment more difficult and increases the likelihood of a borrower becoming delinquent or going into default. For a borrower who has both commercially-held FFEL Program loans and Department-held loans, consolidation of the commercially-held loans into the Direct Loan Program will simplify repayment by allowing the borrower to make a single monthly loan payment to one entity (a federal loan servicer under contract to the Department), thereby reducing the likelihood of delinquency or default. As an incentive for borrowers to consolidate under the special initiative, the Department is offering reduced interest rates on Special Direct Consolidation Loans.

#### Additional Information

The Department is requesting emergency clearance of the Special Direct Consolidation Loan LVC because the regular clearance process would prevent the Department from making Special Direct Consolidation Loans by the announced implementation date. Further, because the statutory authority under which the Department is providing the incentives will end on June 30, 2012, the use of normal clearance procedures would significantly shorten the already limited period during which Special Direct Consolidation Loans can be offered, with the result that fewer borrowers would be able to benefit from the reduced interest rates offered as part of the special initiative.

**Abstract:** The Clean Water Act (CWA), as amended by "The Water Quality Act

of 1987" (U.S.C. 1381–1387 *et seq.*), created a Title VI which authorizes grants to States for the establishment of State Water Pollution Control Revolving Funds (SRF). The American Recovery and Reinvestment Act of 2009 (ARRA) established a matching State Water Pollution Control Revolving Fund Program with funds that had to be obligated in one year. The information collection activities will occur primarily at the program level through the State "Intended Use Plan" (IUP) and "Annual Report". The information is needed annually to implement Section 606 of the CWA.

The 1987 Act declares that water pollution control revolving funds shall be administered by an instrumentality of the State subject to the requirements of the act. This means that each State has a general responsibility for administering its revolving fund and must take on certain specific responsibilities in carrying out its administrative duties. The information collection activities will occur primarily at the program level through the State IUP and Annual Report. The information is needed annually to implement section 606 of the Clean Water Act. The Act requires the information to ensure national accountability, adequate public comment and review, fiscal integrity and consistent management directed to achieve environmental benefits and results. The individual information collections are:

(1) *Capitalization Grant Application and Agreement/State IUP*: The State will prepare a Capitalization Grant application that includes a State IUP outlining in detail how it will use all of the funds available to the fund. The grant agreement contains or incorporates by reference the IUP, application materials, payment schedule, and required assurances. The bulk of the information is provided in the IUP, the legal agreement which commits the State and EPA to execute their responsibilities under the Act.

(2) *Annual Report*: The State must agree to complete and submit an Annual Report that indicates how the State has met the goals and objectives of the previous fiscal year as stated in the IUP and grant agreement. The report provides information on loan recipients, loan amounts, loan terms, project categories, environmental benefits and similar data on other forms of assistance. The report describes the extent to which the existing SRF financial operating policies, alone or in combination with other State financial assistance programs, will provide for the long term fiscal health of the Fund and

carry out other provisions specified in the grant operating agreement.

(3) *Annual Audit*: Most States have agreed to conduct or have conducted a separate financial audit of the Capitalization Grant which will provide opinions on the financial statements and a report on the internal controls and compliance with program requirements. The remaining States will be covered by audits conducted under the requirements of the Single Audit Act and by EPA's Office of Inspector General.

(4) *Application for SRF Financial Assistance*: Local communities and other eligible entities have to prepare and submit applications for SRF assistance to their respective State Agency which manages the SRF program. The State reviews the completed loan application and verifies that the proposed projects will comply with applicable Federal and State requirements.

*Burden Statement*: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 108 hours per response for the base program and 97.5 hours per response for the ARRA program. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities*: State and Local governments; local communities and tribes.

*Estimated Number of Respondents*: Base Program: 8,262; ARRA Program: 4,669.

*Frequency of Response*: Annually.  
*Estimated Total Annual Hour Burden*: Base Program: 441,405; ARRA Program: 364,442.

*Estimated Total Annual Cost*: Base Program: \$12,916,260. This includes an estimated burden cost of \$6,389,280 State, and \$6,526,980 Local. ARRA Program: \$10,902,487. This includes an estimated burden cost of \$6,805,440 State, and \$4,097,047 Local.

*Changes in the Estimates*: There is an increase of 4,437 responses and decrease of 65,376 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase reflects EPA's acceptance of additional loan applicants for the State SRF loan program. The decrease in burden hours is the time needed to process and report on these loans on an annual basis.

Dated: November 21, 2011.
